### HAVEN'T OUR AVERAGE YET

The rapid and consistent manner which North Carolinians are buy ing autos has caused much wonder whole we are inclined to believe that Tar Heels are buying motor vehicles at a faster clip than persons of any other State. Such is not the

Automobile Chamber of Commerce for the year 1925 gives figures for the for the year 1925 gives figures for the per capital ownership of motor vesibles throughout the Country. In the United States there was last year one automobile for every 5.7 per capital, while in North Carolina there was one car for every 8.8 persons. In this respect California led all others tottes, and North Carolina appeared far down the list, ranking fortieth among the forty-eight states in the Union. In 1924 her rank was the same. On this basis it will take an additional 125,000 cars to bring North Carolina up to the level of the Nation Haguer and the Sparta-Elkin chapter of the Isaac Walton League Protests Against Breaking Flowers—Has a Meeting at Elkin. growth has been rapid." North Carolina is still far behind in its ownership of autos. "With a national registration of 19,954,347." says The News, "the average for all States in the Linion was approximately 415. Til.— North Carolina registered only 338,814. On the basis of these figures there seems to be a potential market in the State for over 75,000 cars before our total will approach that of the other States. This estimate of the potential market may be impressed when one considers the fact that North Carolina is much larger than the average. Our position in the automobile industry, relative to the other States and to the Country as a whole, is far down the scale. We are 18 1-2

WILL NOT BE TRIED IN MANY STATES.

President Coolidge's order directing that State, county and mannicipal officers be given federal authority, has aroused so much criticism that it will not be tried in many States, that will feel any effect from it. States which do not have local prohibition laws do not want federal interference; those States which have dry laws similar to those of the Volstead Act feel that they can look after their own business.

It is not known who gave the order for the change but it is the opinion that some of the relatives of Floyd and Claude Allen had the change made and so the marker that worded a silent protest of numerous strugus of the Old Dominion has passed from public view and is evidence that the bitterness that once rankind in the hearts of many has passed ways.
