### A. Message From E. B. Grady, Plumbing and Heating Dealer

There is a message in the air today that takes us back to our childhood days; these warm spring days create a longing for a stroll in the woods and a plunge in the 'old swimming hole.' The truth of the matter is, however, that a good, first-class up-to-date BATH TUB, with plenty of hot water is miles ahead of the old swimming hole.

Your house is not a "home" until it is provided with a Modern Bath Room, Kitchen and Laundry heated with a Heating System, Hot Water or Steam.
