Delightful Birthday Dinner.

On Saturday, October 23 at 1:00 o'clock p. m. a delightful event in the form of a birthday dinner was given in honor of A. A. DeMarcus at his home on Maple street, Kannapolis.

Many beautiful cakes and other appetizing delicacies adorned the table, which was in open air and was many yards in length. Conspicuous in the center of the table was the birthday cake with elaborate decorations and 75 candles. This cake had been presented to the honoree by his daughters, Mesdames W. C. Second Man in Cabarrus History To Be Voted on in General Election

When voters of Tar Heel land go to the polls next Tuesday they will have an unique opportunity—that of voting for a Cabarrus County man in a general election.

Only once before in the history of North Carolina has a Cabarrus man been on the State ticket in an election and the case is more unique because the second man is a nephew of the first and ran for the same office on the same ticket.

Judge John Montgomery Oglesby, youngest Superior Court Judge in the State, is the Cabarrus candidate to be voted on in the election, and his name is the first of any Cabarrus man to be on a State election ticket since his uncle, the late Judge W. J. Montgomery, was voted on as a Superior Court Judge during the administration of the late Governor A.

Several Cabarrus men have been voted on in Democratic primaries and the names of others have been on congressional and judicial ballots, but Judge Oglesby is the second to get on a State-wide ballot. Cabarrus has furnished many prominent men and citizens of the county have been prominent for years in both parties but the county has furnished few men who aspired to State office.

In the Democratic primary in June Judge Oglesby had no opposition so his name was not carried on the ballots. Since his appointment to the bench by Governor McLean, he has won an enviable reputation and is certain to receive a handsome vote in his native county as well as in other sections of the State.

Raleigh, Oct. 28.—Reports from the U. S. Bureau of Animal Industry indicate the most extensive outbreak of hog cholera throughout the country since 1913 the situation is made serious as a result of a great serum shortage throughout the country states Commissioner of Agriculture Graham. Reports received in the past few days from more than 100 veterinarians county agents and others in reply to a circular letter sent them, indicate that there are no extensive outbreaks in any section of this state. However, the commission reports that there is a great increase in the demand for anti-hog cholera serum which the Department distributes at cost to the farmers of the state. In one day recently there were 30 orders shipped from the Department containing sufficient serum to treat more than 1000 hogs weighing 100 pounds each. The Commissioner states that as a result of the Departments having a liberal supply of serum on hand and having connection with a very reliable serum company it has not been necessary to date to increase the price of hogs about one half present selling price.

With the present price of cotton, it is very important that the farmer conserve his meat supply for the coming year, states Commissioner Graham and while he does not
