

Additional Troops On Duty In Tampa, Where Mobs Stormed Prison

Officials Doing All Possible to Prevent Recurrence of Mob Violence Which Raged For Two Nights.

THREE ARE DEAD AS RIOT RESULT

They Were in Mobs Which Stormed Jail—Mob Tuesday Night Tried to Stir Up Soldiers.

Tampa, Fla., June 1.—(AP)—Vigorous action was taken today to prevent a recurrence of the mob violence which for two nights made one section of this city a battlefield, with the county jail in the center, was placed under joint military and civil rule Monday night when a mob of several hundred broke down the jail walls in an effort to take B. F. Levins from the building. Levins was held in connection with the death of Herman Merrell, his wife and three children late last week, as a result of an attack with a hammer, delivered while they slept. A coroner's jury held Levins responsible.

Additional troops began arriving early today. The first was a company from Bartow. Adjutant General Foster ordered six companies here, two from Orlando and one each from Bradenton, Palmetto, Fort Myers and Bartow last night. They brought full war equipment, in hats and all. Six companies had been called for duty yesterday.

Colonel Sauter L. Lowry, commander of the 110th Field Artillery and his staff, met the city and county authorities for a conference on additional defenses today.

State Attorney C. B. Parkhill and County Solicitor R. E. L. Chancy were asked by Col. Lowry to prosecute the identified members of the mob.

The identified victims of last night's shooting total 3 dead and 19 wounded. Twelve were wounded Monday night. One of them, B. M. Davidson, 41, a plasterer, is not expected to live.

The mob last night apparently forgot Levins. He was removed from the jail Monday noon. The rioters seemed intent on picking a quarrel with the soldiers. No attempt was made to break into the jail. All of the fighting which began about 11 p. m. and ended at 2:30 this morning was around the four block section, the outer edge of which was declared a deadline by Col. Lowry. Sheriff Hyers and a number of deputies remained in the prison as they did Monday night.

STATE INTERVENES IN BEHALF OF P. AND N.

Attorney General Brummitt Will Appear at U. S. C. Hearing at Charlotte June 20.

Raleigh, May 31.—W. S. O'R. Robinson, of Charlotte, and Norman Cooke, also of the Queen City, returning last night from Washington, spent the day in the city on business connected with the Piedmont and Northern Railway company which is heading toward a North Carolina city, coming as fast as the Interstate Commerce commission will allow it.

Messrs. Robinson and Cooke, of course, were interested in getting North Carolina officially informed as to this great movement of the interstate about which so much recently has been written. The interstate was one of the many Duke miracles wrought in North Carolina and South Carolina.

Governor McLean said today that he had determined that it is to the best interests of the state to intervene in the petition now pending before the Interstate Commerce commission at Washington in which the commission is asked to grant a certificate authorizing an extension of the lines of the Piedmont and Northern Railway company.

Ehrd's Chain Sale Starts Friday.

The annual Ehrd's Chain Sale, to be observed by every store in the big chain, will begin Friday, June 3rd, and for the event the local store is planning many unusual bargains.

Goods in all departments of the store have been remarked and reduced for this bargain event, says new ad. in this paper today, the management being determined to make the sale one of the greatest in the history of the store.

The store will be closed tomorrow afternoon while final plans for the sale are being perfected. The sale will begin Friday morning at 8:30. Head carefully double-page ad. in this paper for particulars.

Senator Bingham Is Robbed By Chinese.

Peking, May 31.—U. S. Senator Hiram Bingham, of Connecticut, who has arrived here from the Houan battlefield, today related how his private car was entered by Northern soldiers while en route to Peking and his party relieved of all their possessions, including \$1,000 in gold and the Senator's \$1,500 motion picture camera.

"Old Hickory's Hair" Sold.

Locks of Andrew Jackson's flowing blond hair brought \$250 at a New York auction sale. The memento was sold by Andrew Jackson, 4th, of Los Angeles, a great-grandson of "Old Hickory."

SHOCKS DISTURBED NEW JERSEY FOLK; CAUSES NOT KNOWN

THINKS THE WILSON CONTRACT IS INSULT

High Point, May 31.—Stringent contracts for teachers regulating their morals again came under fire this morning when T. W. Andrews, president of the North Carolina Education Association, classed as "abundant" clauses which placed restrictions upon the private life of woman instructors.

Mr. Andrews has particular reference to clauses of the Wilson county contracts, recently attacked by Thomas Minehan, in an article printed in the National Education Association, classed as "abundant" clauses which placed restrictions upon the private life of woman instructors.

Mr. Andrews is a member of the National committee on professional ethics of the National Education Association, and as a member will consider the establishment of National standards for the consideration of the entire teaching profession at the annual convention at Seattle next month.

The contract of the Wilson county board of education which bound the teacher not to be in love, not to dance, dress immodestly nor encourage or tolerate "the least familiarity on the part of any boy pupils" was branded by Mr. Andrews as "an insult upon the character and integrity of the teacher."

"These things," Mr. Andrews said, "are obviously unnecessary, and insulting to the teacher, who, if she is the right kind of a teacher, will help herself if she is not able to hold her job."

If causing no greater harm, Mr. Andrews believes such contracts have a tendency to degrade teaching as a profession.

Mr. Andrews also called attention to other contracts used in the State which compel the teacher to sleep at least eight hours a night, not to attend any cheap vaudeville or moving picture shows, and to spend most of her spare time in church and Sunday school work.

He also asserted that no general rule regarding the employment of married women as teachers could be laid down. Some married women, he said, by reason of their experience with handling children are better qualified than their single sisters, while others have too many home ties to permit enough thought about the child.

Funeral Services Conducted For Mrs. Cox At Palmerville.

Albemarle, May 31.—Several people from Albemarle attended the funeral for Mrs. B. F. Cox, wife of Dr. B. F. Cox, at Palmerville yesterday. Mrs. Cox suffered a stroke of paralysis and died Saturday morning. The body was buried in the old cemetery at Palmerville. The deceased was 85 years of age. Besides her husband the deceased is survived by the following children: Miss Mary M. Cox, John S. and Benjamin F. Cox, Jr., Mrs. Ella Cox Brazill, Mrs. Ruth Culp. Before marriage Mrs. Cox was Miss Mary Eddie Kirk, a native of this county, daughter of Mr. and Mrs. Edwin Kirk.

The funeral service was largely attended.

Tyrrel County Pig Has 8 Feet and Legs.

Columbia, May 31.—W. T. Saunders, who lives on Route 1, Columbia, has preserved in formaldehyde a pig which he says is absolutely without a duplicate. The animal which lived only ten minutes, has eight feet and legs, four ears, two bodies and two tails but only one head. People in this vicinity at least have never seen anything like it.

THE STOCK MARKET

Reported by Finner & Beans. (Quotations at 1:40 p. m.)

Table with 2 columns: Stock Name and Price. Includes Atchison, American Tobacco, American Smelting, American Locomotive, Atlantic Coast Line, Allied Chemical, American Tel. & Tel., American Can, Allis Chalmers, Baldwin Locomotive, Baltimore & Ohio, Bangor, Chesapeake & Ohio, Coca-Cola, DuPont-Ex. Div., Dodge Bros., Ecle, Frisco, General Motors, General Electric, Great Northern, Gold Dust, Hudson, Int. Tel., Inco, Kennecott, Liggett & Myers B, Mack Truck, Mo-Pac, Norfolk & Western, New York Central, Pan. American Pet. B., Rock Island, R. J. Reynold, Rep. Iron & Steel, Remington, Stand. Oil of N. J., Southern Railway, Studebaker, Texas Co., Tobacco Products, U. S. Steel 40 pct. Stock, Div., Vick Chemical, Wm. Pittman, Westinghouse, Chrysler, Lorillard.

Plans \$8,000,000 Floating Island As Mid-Ocean Airplane Station

From New York World's Bureau. Rome, May 31.—An \$8,000,000 floating island, such as Capt. Lindbergh suggested as a stepping stone for trans-Atlantic air traffic, has been planned by an Italian naval officer, who refuses to disclose his identity. Details were published today.

He said he started on the plans two years ago and finished them ten months ago long before he even had heard of the American flyer.

The island would be in the shape of a horseshoe and would be constructed of reinforced concrete. The prongs of the horseshoe would not be independent, but would be connected by a buoyant under part of the structure which would float about six yards beneath the surface of the water and allow seaplanes to alight within the loop as within a harbor. From this enclosed water surface, planes would be taken upon the dry landing surface for protection in hangars.

The entire structure would be 400 yards long and 250 yards wide. Most of this area would be under water in the enclosed water covered area. The designer holds it would be stable in all weather, as it would be double the length of the longest known wave. It would have a steering device for turning it into proper relation with wind and water currents.

A hotel for passengers, a weather bureau, hangars, beacon lights, wireless apparatus and other facilities which would float about the estimated cost of \$8,000,000.

VAN ORMAN APPEARS TO BE THE WINNER

All Balloons in International Race Had Landed During the Day.

Akron, O., June 1.—(AP)—With all of the 15 starters in the National Elimination Balloon race definitely reported down, Ward T. Van Orman, winner of last year's International race, who came down near Bar Harbor, Me., last night, apparently had won the race, with a distance of about 725 miles. The U. S. Army balloon No. 3, from Scott Field, Ill., made approximately 675 miles and the Detroit No. 3, made approximately 660 miles. The army balloon came down at Biddeford, Me., and the Detroit No. 3 at Scarborough, Me.

The only thing remaining to make the result official is the official report to the National Aeronautical Association.

Says Many Cotton Plants Necessary.

Raleigh, June 1.—In order to get maximum yields of cotton, it is necessary to have from 15,000 to 20,000 plants to the acre, according to E. J. Hines, plant breeder at the North Carolina Experiment Station. This has been shown by experiments conducted at the experiment station farm and at experiment farms in other states.

The largest yields at the state experiment station were from 8 inch spacing, one plant to the hill, and two plants to the hills where the spacing is 12 inches. Experiments with spacing the hills 15, 18, and 24 inches apart has not given as high yields as the closer spacings.

The yields on the wider spacings can be increased by leaving 3 to 4 plants to the hill but even then the yields are not so large as from the closer spacings.

The closer spacings reduce the vegetative growth and cause the plants to fruit earlier, which is very important under hot weevil conditions.

The wider spacing requires more labor in chopping and it is usually difficult to secure a uniform stand of 3 to 4 plants at regular intervals.

For practical purposes the following recommendations have been found very satisfactory: Chop the cotton bed wide leaving on an average of two plants to the hill.

THE STOCK MARKET

Bullish Enthusiasm Ran Rampant Again in Today's Market.

New York, June 1.—(AP)—Bullish enthusiasm ran rampant again in today's stock market, with more than fifty issues again moving to new high ground. Bear traders succeeded in uncovering a few weak spots, but offerings generally were well absorbed, the major pools apparently being plentifully supplied with funds to carry on their operations.

Race Meant Fortune For This Man.

London, June 1.—(AP)—A mechanical engineer named Kilpatrick, living in Capetown, South Africa, is credited by Call Boy's victory in the Derby. Kilpatrick, who has a brother and sister living somewhere in the United States, drew Call Boy in the famous Calcutta Sweepstakes, which is stated to be worth 168,000 pounds, equivalent to \$41,800. He paid the equivalent of \$4 for his ticket, and sold half of his share to a syndicate for 12,000 pounds, or about \$58,200.

FAVORITE WINS IN THE ENGLISH DERBY

King George and Captain Lindbergh See Call Boy Win Historic Derby.

Epsom, England, June 1.—(AP)—Frank Curzon's Call Boy, the favorite, raced to victory in the 144th running of the historic Derby today, with King George and Captain Lindbergh among the thousands looking on.

Call Boy, which won by two lengths started at odds of 4 to 1. Hot Night took second place by eight lengths from Shion Mor. R. D. Cohen's Buckfast was fourth. The betting odds on Hot Night were 9 to 1 and on Shion Mor 22 to 1.

Epsom Downs were fairly alive with spectators, the crowd being swelled by the addition of those anxious to see the American hero of the air. Once the horses were off, however, all eyes were turned to the track, and the choice field raced down the final stretch of the one and one-half mile course through a veritable lane of cheering thousands.

Egg-Rolling Clean-Up.

It required five one-ton trucks with sideboards extending four feet above the bodies to cart away egg shells and other refuse left on the White House lawn by 30,000 children who rolled eggs there on Easter Monday following the annual custom.

PRESIDENT'S PLAN SUITS LINDBERGH; WILL USE CRUISER

The Noted Airman Should Reach the United States About June 11th on Government Cruiser.

PRESIDENT TO WELCOME HIM

Wanted Hero to Return to This Country Before He Left for South Dakota to Spend Summer Months.

Washington, June 1.—(AP)—Captain Charles A. Lindbergh today accepted the invitation of President Coolidge to return immediately to Washington aboard the cruiser Memphis.

Lindbergh's acceptance was wired today to the white house, and it was announced there that the New York to Paris flyer was expected to be home again by Saturday, June 11th.

It is planned to have the Memphis come to Washington where the flyer will be received officially in behalf of the nation.

The message from Lindbergh was sent through Frederick Sterling, of the American embassy staff in London. It said that the invitation of President Coolidge had been handed to Lindbergh and that he accepted "with pleasure."

New York's Reception Plans Held Up.

New York, June 1.—(AP)—The invitation of a cabinet committee to Captain Charles A. Lindbergh to proceed direct to Washington from Europe left New York's elaborate plans for his reception in an unsettled state today.

Mayor Walker termed the committee's action "in contradiction to every tradition," but said that New York's 8,000,000 people nevertheless would "stand by, just as proud of this American boy, and cheer with as wide acclaim as if he had been allowed to follow the traditional course, and enter through the gateway of America, the port of New York."

Plan Homecoming.

Washington, June 1.—(AP)—A homecoming in keeping with the history making flight of Captain Charles A. Lindbergh, including a triumphal entrance into Washington up the Potomac on the cruiser Memphis, was shaping itself today but the details largely depend on the flyer's wishes.

He today accepted the invitation of a special committee of cabinet members to return to Washington on the cruiser Memphis. It is hoped this speedy ship might bring him to the capital before President Coolidge leaves on June 13th for his summer vacation.

The desire to have the flyer come direct to Washington was prompted by the thought of making his arrival a national celebration held in the capital of the nation, thus typifying a welcome by all of the people, and by the hope of having the celebration include the citation of the plucky youth by President Coolidge, with the distinguished flying cross.

If Lindbergh arrived after June 13, the citation would be made at the summer white house in the Black Hills, but President Coolidge prefers to honor the flyer in Washington, and have him as his guest at the presidential residence on DuPont Circle.

The President's special committee composed of Secretary Davis, of the war department; Wilbur, Hoover and Postmaster General, New, also discussed Mr. Coolidge's hope that honors for the flyer might include a promotion in the army air corps reserve from captain to major. However, inasmuch as the higher rank would take Lindbergh from his duties in the Missouri National Guard, of which he is flight captain, the committee postponed the decision in this respect until it could be ascertained whether the flyer would object to the removal.

Will Fly From Washington To New York.

New York, June 1.—(AP)—Captain Lindbergh will fly from Washington to Miller Field, Staten Island on June 14, and will remain in the city until June 17, where he will fly to St. Louis, Grover A. Whalen, chairman of the Mayor's reception committee announced today.

Mrs. Reid at Mooresville.

Salisbury, June 1.—(AP)—Mrs. J. H. Reid, who started a hike to Charlotte Monday morning was located in Mooresville today. She said she gave up the hike because of bad weather, and would try it again on Thursday.

Foreign Powers Yet To Decide On Policy For The In Peking

HEALTH AND ORDER IN REFUGEE CAMPS

150,000 in Louisiana Learn to Share Work on Basis of Equality.

New Orleans, June 1.—Life in flood refugee camps has taught 150,000 men, women and children in Louisiana the value of discipline, patience and a little hardship now and then.

In some Louisiana camps—they are scattered all through the Western part of the State—the people came with a rush and before any preparations were made to care for them. Towns of a bare thousand population suddenly had to feed and house 3,000 visitors, many with small children needing pure milk, and nearly every family demanding medical attention if sickness was to be kept away.

A night spent in one of these camps at Delhi, in Morehouse parish, where 3,700 refugees were sleeping in army tents, showed how this community met these problems. Visits to other camps brought out the many ideas of the communities developed when their problem came.
