Mother's Day Suggestions Offered By Home Agent

By Miss Faye Robinson
May is the month we set aside a special day to pay tribute to mothers. In the lucky household

with teen-age daughters, it is right that Mom gets to sit back and let her oldest take over the meal preparation for the day. For this important event here is an easy luncheon called "Treat For Mother."

FHA HOUSING UNIT APPROVED IN COUNTY

loan sufficient funds to buy additional land and develop it. The additional land will produce income to provide for the family and to retire the loan. This loan is known as a 503 loan. A loan of this type can include money to purchase and develop additional land when it is needed to support adequate housing. Most loans made under the Housing Act will be known as 502 loans. In these loans only funds can be included for the construction and improvement of dwellings and essential farm buildings. In all instances a protected water supply, sanitary facilities, and screens must be provided for if they are not already available.

In Ashe and Alleghany counties several applications are already on hand and appraisals have been made on some of them. It is anticipated that a number of families living in the two counties will take advantage of this method of financing to provide for better housing. Under the Housing Act only loans can be made to those individuals who are not able to secure adequate financing from other available sources. Anyone interested in this type of financing should contact the Farmers Home Administration in either Ashe county or Alleghany county.
