Some Flies.

Mr. C. H. Hunter, our live,
progressive and popular grocery
merchant, has one of the new fly
traps. During the past week
this trap caught 92,800 flies.
Now, of course, Hunter did not
count all these flies, for he did not
have time as his customers takes
the most of his time, but he
weighed one-half an ounce of
them and made the calculation.

Off for "Swampoodle Springs."

Mr. W. D. Lewis and wife left
Monday morning for Fair Bluff
where Mr. Lewis will buy tobacco
for the Imperial Company. Mr.
Lewis, Uncle Billy, as all of his
friends call him, insists that the
town should be called "Swamp-
oodle Springs," just why he has
never enlightened the public. He
is easily one of the most popular
buyers ever on this market, and
while he usually spends about
two months on the market at
Fair Bluff he and his estimable
family make this their home and
will be back pretty soon after the
market opens up.

A Delightful Evening.

Miss Ruth Brooks, at her beau-
tiful country home, entertained
last Friday evening in honor of
her guest, Miss Pulliam. Quite a
number of her friends were pres-
ent. A Literary Contest was the
feature of the evening, Miss Etie
Brooks being the successful con-
testant, which she graciously pre-
sented to the guest of honor.
Games of Rook and Hearts were
played, and at the close cake and
ice cream were served.

It was a most pleasant evening,
every one expressing themselves
as having had a delightful time,
and all hoping that Miss Brooks
would do so again real soon, as
she proved a most entertaining
hostess.

Sunday School Exercises at Longhurst

Messrs. Editors:
It was our privilege to attend
the Childrens Day Exercises at
the Longhurst Sunday School last
Sunday. We had been invited by
Bro. Villines, their efficient Su-
perintendent, to be present, and
of course was glad to accept the
invitation. So we were there on
time.

Promptly at 11 o'clock the exer-
cises began, and we have to say
that we were very agreeably sur-
prised at the excellent behavior as
well as at the nice recitations
which were numerous and very
good, especially those recited by
the little blind girl and the one
who declared she would never
marry a drunkard. Oh, that more
of our young ladies would come
to this conclusion. I have often
thought and said that the ladies of
our land and country could man-
age the whiskey drinking to a
great extent if they would, by de-
claring that they would not keep
company with a young man with
the fumes of liquor on his breath.

Well, the exercises closed about
12 o'clock when we all repaired to
the beautiful grove where a most
sumptuous repast was served. We
have never seen a more plentiful
table nor a better behaved or more
orderly crowd. Old man Wash
Dixon and several others stood by
and handed out until everybody
had a plenty. After dinner was
over we then had to receive our
first disappointment, for it was
then that the Superintendent told
us that the speakers had failed to
show up and that it had fallen to
our lot to play speaker of the oc-
casion, and as no excuse we offered
would release us we just marched

up and did the best we could for
about forty five minutes, after
which we all turned our faces
homeward with many experiences
long to be remembered, hoping at
some future day we may meet
again.

VITAL WASHINGTON NEWS.

By C. H. Tavenner.

Washington, July 27.—Face to
face with the realization that a
Democratic administration is com-
ing into control of the govern-
ment, and knowing that this will
mean the end of the tariff protec-
tion privilege under which they
have plundered the people for
nearly a score of years, the tariff
trusts have let it be known that a
rise in the prices of their com-
modities may be expected this
fall. These trusts are determined
to take one final gouge into the
pocketbooks of the people before
they are pushed away from the
trough of special privilege at
which they have been growing
fat.

The leather trust, which is
owned by the Chicago beef bar-
ons, has announced that the
price of leather is to be increased
20 per cent. This will mean a
corresponding increase in the
price of shoes. This trust attrib-
utes the necessity for increas-
ing the price to the growing de-
mands of the automobile makers
for leather. This demand is no
greater now than it has been for
the last three or four years, and
those who are familiar with the
leather situation say the excuse is
only a subterfuge.

The cloth manufacturers also
have announced that an increase
in clothing of from 3 to fifteen
cents a yard will be put into ef-
fect this fall. The cloth manufac-
turers—which means the woolen
trust say there is going to be a
big shortage in wool, not only in
this country, but in other wool
producing countries as well, and
that labor costs more than form-
erly.

The Huge Express Graft.

The Interstate Commerce com-
mission's report on the express
monopoly sets forth that while
the express companies are pay-
ing dividends on a capitalization
of \$106,000,000, their actual in-
vestment is only \$7,000,000. This
report also shows that the ex-
press companies are all owned
by the railroads on whose lines
they operate, so that by maintain-
ing the express companies, the
railroads simply collect a
higher price for carrying
certain classes of freight than
they could collect were they re-
quired to conduct the express
business themselves.

The express graft is one of the
main reasons for the high cost of
food, as much food stuff, espe-
cially the fresh variety, is carried
by that method.—Wash. Cor.

There is more Catarrh in this section of the country
than all other diseases put together, and until the last
few years was supposed to be incurable. For a great
many years doctors pronounced it a local disease and
prescribed local remedies, and by constantly failing
to cure with local treatment, pronounced it incurable.
Science has proven Catarrh to be a constitutional dis-
ease, and therefore requires constitutional treatment.
Hill's Catarrh Cure, manufactured by F. J. Cheney
& Co., Toledo, Ohio, is the only Constitutional cure on
the market. It is taken internally in doses from 10
drops to a teaspoonful. It acts directly on the blood
and mucous surfaces of the system. They offer one
hundred dollars for any case it fails to cure. Send
for circulars and testimonials.

They're All Doing It Now.

The trust has found out that
nothing pays so well as "disso-
lution." Following the decree of
the Supreme Court which order-
ed the Standard Oil trust to dis-
solve, the value of that corpora-
tion's stock rose rapidly. The
court decree, without changing
the trust except in a matter of
administration, amounted practi-
cally to a governmental guarantee
to violate the laws. After the de-
cree was issued the trust owners
discovered that the monopoly
stood in no further danger of
prosecution, and as this always
has been the great menace to the
trust, it was a great boon to have
it removed. Accordingly the value
of the shares went skyward.

As a result, other trusts have
begun to "dissolve." The beef
trust has announced a "disso-
lution" plan, so that it, too, will
conform to the Supreme court's
notion of what constitutes a law
abiding trust. The power trust
did likewise the terms of the dis-
solution decree, in its case, being
written by the trust's own law-
yers, and later approved by the
Federal court of Delaware.

"Dissolution" is, next to the
high tariff, the best thing that
ever happened to the trusts.—

Senate Acts on Sugar Bill.

Washington, July 27.—By a
vote of 57 to 3 the senate late to-
day passed the Lodge-Bristow bill
reducing the duty on sugar from
\$1.90 to \$1.60 a hundred pounds
and abolishing the Dutch standard
and the differential.

Senators Foster, Thornton and
Heyburn voted against the meas-
ure. Foster and Thornton oppos-
ed the bill because it affects ad-
versely the sugar industry in Lou-
isiana.

FEEDS THE NERVES AND BRAIN

Do you feel nearly down and out—physically and mental-
ly—lacking in energy and ambition—can't eat half the time—
don't care whether you do or not?

That's just the time you need something to stimulate that
blood flow—increase its nourishing properties—something
that is a nerve and brain food as well.

Nyal's Nutritive Hypophosphites Will Do That And More, Too

—it will put rich red blood in your veins—brace up your

strengthen the muscles and build up the entire system—fill
you with energy—give you a buoyant step and make life
worth while.

The certain result is complete restoration to health.
