A sweeping verdict for QUALITY

DON'T WAIT

Take Advantage of a Roxboro Citizens Experience.

When the back begins to ache, Don't wait until backache becomes chronic; 'Till kidney trouble develops; 'Till urinary troubles destroy nights rest. Profit by a Roxboro citizens experience.

Otis C. Hamlett, millwright, says: "Doan's Kidney Pills are a fine kidney medicine. My kidneys were out of order and bothered me a good deal by their sluggish action. There was a burning sensation when the kidney secretions passed and I felt stiff and sore in the small of my back. A friend recommended Doan's Kidney Pills and I procured some at the Davis Drug Co. Doan's relieved me of the trouble and I felt fit again."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hamlett had. Foster—Milburn Co., mfgs., Buffalo, N. Y.

DID THEIR WORK TOO WELL

Trustees of Virginia Cemetery Wish Employees Had Done Just a Little Less Industrious.

Industry is a commendable trait, no doubt, but sometimes it has a back kick as well. Let a Washington attorney tell the story.

Not long ago, it appears, two industrious Virginians were employed to set a cemetery to rights. They were given carte blanche to paint up and clean up the place and to make it look as nifty as possible—make it look like just the sort of place to invite the casual passer-by to go off and get shot or something so the cemetery would have customers. And the Virginians made good. They pulled out the weeds; they pruned the hedges and trimmed the trees, mowed the grass and made that cemetery a place to delight the heart of Dr. Berthold Baer, or the Howards of Denver city.

Everything would have been lovely, in short, had not the industrious Virginians, inspired by a mad desire to earn their money, decided that they ought to move the best-looking stones over by the fence. And now the trustees of the cemetery in that little Virginia town are wondering how they are ever going to get the cemetery population sorted out again.—Washington Post.

HIS SINGLE WIFE

Philippa—Yes, Billy's a good brother. He has one bad habit. He smokes cigarettes.
Flossie—That's nothing. Most men smoke 'em.
Philippa—But they're my cigarettes he smokes.

SUCCESS IN HATCHING EGGS

Care and Attention to Detail Are What Makes One Man Succeed Where Another Fails.

(Prepared by the United States Department of Agriculture.)

Between making or losing money in raising chickens there is only a narrow margin. Contrary to many persons' ideas, no magic road leads to success in this work. Care and attention to detail are what make one man succeed while another one with similar equipment fails.

The following suggestions on incubation are given by poultry specialists of the United States Department of Agriculture:

Have everything ready beforehand, and start your hatching operations early in the year.

A well-ventilated cellar is the best place to operate the incubator.

The machine should be operated according to the manufacturer's directions.

See that the incubator is running steadily at the desired temperature before filling it with eggs. Do not add eggs to a machine during incubation.

Turn the eggs twice daily after the second and through the eighteenth day. Cool the eggs once daily, according to the weather, from the seventh through the eighteenth day.

Turn the eggs before chiring for the lamp.

Attend to the machine carefully at regular hours.

Keep the lamp and wick clean.

Test the eggs on the seventh and fourteenth days.

Do not open the machine after the

Care is the Keynote of Success in Hatching Eggs.

eighteenth day until the chickens are hatched.

Eggs saved for hatching purposes should not be subjected to high or low temperatures.

In cold weather place from 10 to 13 eggs under the hen; in warm weather from 13 to 15.

Always try the hen on china or nest eggs before setting good eggs.

Given proper care and attention, the hen is the most valuable incubator for the farmer.

Use insect powder freely to exterminate lice when necessary.

February, March, April, and May are the best months for hatching, depending on the section of the country.

If several hens are set in one room, it is desirable to confine them to their nests.

Straw and hay make good nesting material.

Broody hens should be moved to the permanent sitting nest at night.

STATE OF NORTH CAROLINA DEPARTMENT OF STATE

Certificate of Dissolution

To All of Whom These Presents May Come—Greeting:

Whereas, it appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all Stockholders, deposited in my office, that the Messie Harvey Company, a corporation of this State, whose principal office is situated at No. 22 Tucker Street, in the city of Roxboro, County of Person, State of North Carolina (J. Shields Harvey being the agent therein and in charge thereof, upon whom process may be served,) has complied with the requirements of Chapter 22, Consolidated Statutes, entitled "Corporations preliminary to the issuing of this Certificate of Dissolution:

Now, Therefore, I, J. Bryan Grimes, Secretary of the State of North Carolina, do hereby certify that the said corporation did, on the 9th day of June, 1922, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In Testimony Whereof, I have hereto set my hand and affixed my official seal at Raleigh, this 9th day of June, A. D. 1922.

J. BRYAN GRIMES, Secretary of State
