CO-OPERATIVE MARKETING

BOOKS LIKE SOMEBODYS BEEN "EATING CROW."

In An Effort to Discredit Mr. Thompson a Very Aged Kentucky Gentleman, Who is Opposed to Sapro and His Western Kentucky Agents Methods, The Article Below Appeared in the Southerner of About Ten Days Ago:

"OPPOSE CO-OPS BECAUSE HE BUYS LOOSE TOBACCO"

"Some weeks ago the opponents of the cooperative marketing system were publishing throughout the eastern section of the state a letter from a man in Hopkinsville, Ky., by the name of J. P. Thompson, said to be 82 years of age. "This letter was heralded abroad in the newspapers as advertisements to bolster up the contentions of the auction system for the selling of tobacco. "No one knew who this man Thompson was but Mr. Rogers wrote a letter to the Bank of Hopkinsville and made inquiry. The following is the reply that Mr. Rogers received. "Mr. L. E. Rogers, Farmville, N. C. "Dear Sir: Mr. J. P. Thompson has been in the loose leaf floor business for years and is a very clever old man, but is opposed to the association as it will put him out of business. This was published in our papers to obstruct the formation of the association here, but it will not succeed. J. E. McPherson, President, Bank of Hopkinsville.

THIRTY MILLIONS IN THIRTY MINUTES

Thirty million dollars in thirty minutes is the world record established by the Directors of the largest co-operative marketing association of America who met with Eugene Meyer, Jr. and officials of the War Finance Corporation in Washington, D. C. last week. The committee of directors from the Tobacco Growers Co-operative Association secured approval of the loan for the 75,000 tobacco farmers of Virginia, North Carolina and South Carolina, which now covers the excess of their account, a valuable asset. "Chief of the War Finance Corporation was so confident of the success of the loan that they took only thirty minutes to signify approval of the greatest loan ever made to organized farmers in the history of the United States. In addition to the loan of \$30,000,000 which will enable the big Tobacco Cooperative to pay its members cash advances upon delivery of their tobacco, the War Finance Corporation further agrees to re-discount loans secured by green or soft order tobacco from local banks throughout the Virginia-Carolina tobacco belt. "The loan of the War Finance Corporation is to be secured by more than 350,000,000 pounds of its members tobacco now under five years contract with the Tobacco Growers Co-operative association, which represents a value of over \$70,000,000 in the first year of operation, according to conservative estimates. Among the officials of the Tobacco Growers Co-operative Association who met with Eugene Meyer, Jr., Director of the War Finance Corporation were George A. Norwood, President, banker and planter of Goldsboro, N. C., Oliver J. Sands, General Manager of the Association and President of the American National Bank of Richmond, Va., James H. Graig, Treasurer of the Association; Richard R. Patterson, General Manager of the Leaf Department, formerly Manager of the Leaf Department of the American Tobacco Company, G. B. Cheatham and F. G. Williams of the Leaf Department and M. O. Wilson, Secretary of the Board of Directors which consists of 22 tobacco planters from Virginia, North Carolina and South Carolina, and three Bank and Trust Co., or First National

Bank, I feel sure he would have gotten the facts in the beginning; but the truth of the matter is, that MR. McPherson is the man that has an axe to grind instead of myself, as I am the only bank in Hopkinsville that has endorsed the Sapro Association. Two of his Directors are on the Organization Committee, one of them is County Chairman for Christian Co. and the said bank of Hopkinsville is expecting to be the depository for the Association. Mr. McPherson further states, "This was published in our papers to obstruct the formation of the association here, but will not succeed." I do not take the credit of obstructing the formation of the Association as I think the fact is that the sensible farmers of Christian county are obstructing it themselves for it is very evident that the majority of them do not want anything to do with it for the Association crowd made an active campaign here for two months and have put forth every effort to obtain signatures but have signed less than 10 per cent of the growers of Christian County although they claim to have signed up 7,000 acres. Either the success or the failure of the Sapro Association does not mean one dollar to me personally, but I do not like to see the farmers and business people of my county led into bankruptcy by professional organizers, politicians, and job hunters just to feather their own nest and when you show me a man that is at work for this organization, I will show you where he has either a money or political consideration up his sleeve. Respectfully yours, J. P. THOMPSON

THE WORM WAS UP ALL NIGHT!

Following the example of the Burley Tobacco Growers Association of Kentucky, which after securing a similar credit from the War Finance Corporation was enabled to gain all necessary funds from State and local banks, and to repay their 90 day loans of \$6,000,000 within 40 days. Officials of the Virginia-Carolina Association are confident of obtaining the support of State and local Bankers for whom the offer of the War Finance Corporation opens a new field of profitable opportunity with tobacco farmers throughout the belt. For the organized tobacco growers and the thousands of farmers from these States who are joining the Association every month the action of the War Finance Corporation assures the safe and orderly marketing of tobacco which resulted in largely increased profits and a new source of credit for Kentucky farmers whose organization has now sold 70,000,000 pounds of tobacco for highly satisfactory prices, during one month receiving an average of 29 cents a lb. for tobacco sold through the Association, while that sold outside the Association brought less than 21 cents per pound upon the auction warehouse floors. Close to 80 percent of the Tobacco farmers of Virginia have joined the Marketing Association, and North Carolina growers are nearing a 75 percent sign-up following the recent statewide campaign for members. A whirlwind campaign among tobacco farmers of South Carolina will begin next Monday, June 26th and will continue until every one of the 34 cooperative marketing points of the South Carolina belt has been reached with a mass meeting. Leaders of the movement from Kentucky, Virginia and North Carolina will join the campaign which will mark the last opportunity for South Carolina farmers to market this year's crop with the giant cooperative. The Tobacco Growers Co-operative Association has now secured 206 warehouses where it will receive tobacco from its members as the markets open in the States.

Studebaker

TOTAL up the items of mechanical superiority, refinements and complete equipment of the Light-Six that are not found in other cars of its price. Estimate each of these exclusive improvements at only a nominal value. Then you realize why the Light-Six ranks with cars listed at several hundred dollars more. In addition, you have the advantages of better design and better performance. Studebaker is the largest builder of six-cylinder cars because of these facts.

Get acquainted with the Light-Six. Test its riding and driving qualities. Then you will appreciate that the enthusiasm of these owners is based on a performance that is not equaled by any other car of like price—or by many cars of much higher price.

JACKSON MOTOR CO ROXBORO, N. C.

THIS IS A STUDEBAKER YEAR

Better value is emphasized by the complete equipment of the car. It includes cowl ventilator operated from the instrument board, cowl parking lights at base of the windshield, inside and outside door handles, large, rectangular plate glass window in rear curtain, a thief-proof transmission lock, reducing the rate of theft insurance to Light-Six owners 15 to 20 per cent, and cord tires.
