ed that the greatest injury to the nervous-system takes place in the spine because the nerves that supply every part of the body branch off from the spinal cord between the joints of the spine, and when some of these joints are slightly displaced (subluxated) they pinch the nerves that emit between them, thus preventing the full expression of life, because a pinched nerve can no more transmit a full current of mental impulse or life than a kink in a hose will permit the full force of water to pass through.

The science of adjusting these subluxations in the spine with the hands, to release the pent-up energy has been demonstrated in many thousands of cases of illness pronounced incurable.

Nature is the great healer and builder, but the science removes the obstruction—the cause of the disease, so that nature may be fully expressed, and that is why we say this science gets you well.

There is an expert demonstrator of this science in Roxboro who is attaining prominence in healing the sick and afflicted.

Name him, name the science and the professional designation of the demonstrator of the science. Give location of his offices and the slogan adopted by the profession. Give phone number.

### HYCO WAREHOUSE

W. T. Pass & Company. Phone 72.

Talk never gets you anywhere unless backed up by reason, facts and judgment.

Just so long as the farmer is receiving as high prices for tobacco as now he is perfectly satisfied, and that is exactly how farmers feel who are selling their crops at auction on the Roxboro market.

One tobacco grower averaged over \$68 for the crop. Two pipes brought \$80 and one pipe \$82. One lot of 338 lbs. brought \$77 per hundred, one single load brought over \$1600. The same grower realized over \$4,000 for three loads. Another farmer sold 48 pounds for \$48 on this market. Of course these prices are exceptional and it takes exceptional tobacco to bring such figures, but the general average maintained by Roxboro's only auction warehouse is sufficiently high to send the farmers home with broad smiles and glad hearts.

The breaks are getting larger every day. Just ask your neighbor who has sold tobacco this year at Roxboro's new tobacco warehouse and get the facts from him.

One farmer who sold at auction declared he could now go home meet his creditors, settle his account, rest easy and sleep in peace without being worried to death over his unpaid bills. This feeling is pretty general among farmers who are marketing their tobacco the old way—at auction. The average farmer feels mighty good when he drives in the auction warehouse knowing he can return home that evening with the cash in full paid for his load.

The best constructed warehouse in North Carolina or Virginia with accommodations for man and beast, ever handle your tobacco and obtain the highest prices.

Name this warehouse, give name of firm operating it and the phone number.
