

CHAMBER OF COMMERCE NEWS.
By the Secretary.

A few weeks since the Secretary had the pleasure of meeting Mrs. John S. Cunningham, an official of the State connected with the Insurance Department. Mrs. Cunningham in company with a number of other ladies is a member of the Division of Safety Education, a most important branch.

It would be inconceivable that any one, after meeting her, would not want to hear her. Handsome, of distinguished appearance; with a charming personality, she impresses all with her earnestness and ability. Her coming to Roxboro will be a social as well as a civic event. Let's make the most of it.

The Civic Committee of the Woman's Club and other organizations of ladies have a well organized plan of inspection and cooperation for cleaning the residence sections, and they have made it plain to the merchants, if their patronage is desired the stores must be cleanly and attractive. This will also apply to offices on second floor reached by stairs.

Mrs. Cunningham's engagements are planned as follows:

She will arrive on Wednesday at 8:15, and the day will be spent in meeting and advising with the ladies of the Civic Committee.

On Thursday afternoon at 3:40, she will address the school children and their parents at the Graded School.

On Thursday night at 8 o'clock P. M., she will speak to a town mass meeting in the Presbyterian Church, which has been loaned for the occasion by its officers.

Friday afternoon the ladies are preparing to give Mrs. Cunningham a reception in the Kaplan Building.

The people throughout the land are awaking to the necessity of removing dust and its hidden germs in dwelling houses; they realize that filth permitted to remain upon the surface of vacant lots and floors of outhouses conceals the deadly typhoid germs until it is washed in some person's well to carry death and disease to the innocent ones who drink the water. These same thinking people realize also that the open pig pen, in which the pig's legs are not long enough to keep his body out of the mud and filth, is a choice place for the breeding of flies and mosquitoes, while dirty, horse lots are in the same category.

A ban is also being placed upon carelessness in the accumulation of old papers and other trash upon which a stray match may fall from the hands of a careless smoker, with the possibility of a homeless town shivering over the embers on the following night.

While all of us know these things we do not give them the consideration they require. An it is fortunate that science has taken hold of the matter and shown the latent dangers existing, and still more fortunate that intelligent women can be sent to different communities to arouse the people to their sense of danger.

The time has come for thinking people to act, not for themselves alone but for the unthinking as well. When we have heard let's ACT.

"MR. AND MRS. POLLY TICKK."

Rehearsals for the musical comedy "Mr. and Mrs. Polly Tickk", which will be presented by the American Legion on next Friday night at the school auditorium are now well under way, and the show promises to be a good one. The cast, which is composed entirely of local talent includes 14 men, 11 women, 4 children and 8 chorus girls—and such chorus girls!

Miss McGee, who is directing the play, declares these to be among the best she has trained.

The admission will be thirty five cents for children and fifty cents for adults, reserved seat tickets at seventy five cents are now on sale at Newton-Wilkerson Drug Company, and are going fast. Buy your tickets before the best seats are taken.

MILTON DEFEATS SEMORA.

Semora girls lose basket ball game to Milton in the most heated contest of the season. The visitors were edged out of victory by superiority of home team in caging foul shots. Milton showed excellence in passing. For Semora the McSherry sisters did stellar work, while Erna Gillespie and Helen Taylor showed best for the home team. Score: 7 to 5. The game was staged in Milton.

CARD OF THANKS.

We wish to thank each and every one for their many kindnesses and everything they did during the recent sickness and death of our dear mother and wife Mrs. J. R. Clayton. We assure you that it was appreciated and will be remembered by us all.

Do You INCREASE your cost of Portland Cement

An unprecedented demand for Atlas exists right now—a demand that cannot be met unless the empty Atlas bags now in users' hands are returned. In the course of a year close to \$5,000,000.00 worth of bags are needed by Atlas. This would be a heavy burden on cement users if the bags were not returned and reused, so cutting down the number of new bags needed.

Return your empty Atlas bags promptly to your dealer. Help him, and help us, keep Portland Cement the cheapest of all manufactured products.

COOPERATIVE MARKET CLOSED.

The Cooperative Tobacco Market closed here last week. Mr. H. W. Winstead, manager for this market, informs us that nearly four million pounds were received at this point.

A vigorous campaign will be waged during the summer for signers and they are expecting ere the market opens in the fall to have many new members to the Association. Another payment, the third, is expected within a short while, but this is not to be last and final payment, so we are advised from Raleigh.

"IT LOOKS LIKE NEW"

said Mrs. Jones, "and the neighbors wouldn't believe that it was really an old dress that I had cleaned. You could have done the same thing, John, to an old suit of yours instead of buying that new one you have on."

"This isn't a new suit," laughed her husband, "it's the one I bought last year, but I had it cleaned at
