Ever get tired building fires? Cole's Original Air Tight Wood Stove holds the fire all night. Better look at once.

DEATH OF MR. CLYDE BAYNES.

Mr. Clyde Baynes, son of Dr. R. H. Baynes, died at the home of his father on last Tuesday. The death of Mr. Baynes was indeed sad. He was a promising young man, a student in Trinity College, but owing to rheumatism was compelled to come home, and while at home was attacked with diphtheria which caused his death. He was buried at the old family burying grounds on Wednesday.

A PROCLAMATION

BY THE GOVERNOR.

Every allusion to **FIRE PREVENTION DAY** is a rebuke upon those who fail to employ the occasion to rid their premises of unsafe conditions.

It required but a single defect in a single residence to start the disastrous conflagration in New Bern; yet how many innocent people suffered because of it! Just such a defect may exist unnoticed in your own home or office and jeopardize the lives and property of thousands who keep their premises clean and free from firebreeding conditions, yet have **NO PROTECTION AGAINST THEIR CARELESS NEIGHBORS.**

That individual is derelict, that State doomed that fails to recognize the right of every citizen to protection of his life and property; yet we manifest little concern for either our own safety or that of our neighbor in permitting defects in construction to exist and inflammable material to accumulate on our premises.

If we accept the increasing fire loss in our State as an index to our standard of citizenship, it is high time that our people became alarmed at our degeneracy.

Fear, which is usually considered a mark of cowardice, may be full of virtue when that fear fosters the protection of life and property from loss by fire.

NOW, THEREFORE, I, CAMERON MORRISON, Governor of North Carolina, in order to promote a more general fear of fire-breeding conditions that exact a heavy toll in lives and property, and to stimulate, if possible, greater individual effort in **MAKING NORTH CAROLINA SAFE FOR LIFE AND PROPERTY**, do hereby set aside and designate

TUESDAY, THE NINTH DAY OF OCTOBER, 1923

the fifty-second anniversary of the Great Chicago Fire, to be observed as **FIRE PREVENTION DAY** and urge such observance of it as will impress upon our minds the past losses being sustained by us through preventable fires and the value of individual effort toward **FIRE PREVENTION.**

Let local authorities give attention to building regulations, fire prevention ordinances, and let them furnish the Fire Departments adequate and up-to-date apparatus for fire fighting.

Let the people reduce the fire hazard by cleaning up trash, rubbish, and waste from their premises.

Let all heating apparatus and chimneys be carefully inspected and put in proper shape for winter use.

Let all public and private institutions be carefully looked over and necessary changes made to safeguard the lives of the occupants.

Let our people lend impetus to this movement by attending public gatherings called to devise prevention means.

Let the press aid by timely publications pertaining to fire and accident prevention.

Let fire drills be held in institutions, factories, in public, parochial and private schools, and let the teachers instruct their pupils as to the dangers of fire and accidents, and the simplest means of prevention.

Let every one co-operate with the State Insurance Department in striving to make **NORTH CAROLINA SAFE FOR LIFE AND PROPERTY.**

Done at our City of Raleigh, this the 14th day of September, in the year of our Lord one thousand nine

hundred and twenty-three, and in the one hundred and forty-eighth year of our American Independence.

Cameron Morrison,
Governor.

By the Governor:
Wm. H. Richardson
Private Secretary.

RIGHT KIND OF FARMING.

Mr. J. F. Whitfield of Hurdle Mills is one farmer who really believes in diversifying. There are very few months during the year in which he does not have something to sell from his farm. He tells us he has about two thousand collard plants which will soon be ready for transplanting, these to be followed by fall cabbage plants. He will be able to supply your wants.

WAIT FOR THE DOLL BAZAAR.

The young ladies of the Philathea Class of the Baptist Church will give a doll bazaar early in November, the exact date to be set, and will take care of your doll troubles. They will have them all dressed in their best and will furnish them to you at reasonable prices. You can not do better than to see this doll exhibit before buying one for your little girl for Christmas.

CARD OF THANKS.

We take this method of thanking our neighbors and loved ones for their many deeds of kindness shown us during the sickness and death of our baby. We would not forget Dr. G. W. Gentry's untiring attention. May God's richest blessings abide with each one.

Mr. and Mrs. J. H. Jone.

BROKE JAIL.

Last Thursday night two prisoners confined in the County jail made a clean getaway. They were in the corridor, it being the custom to allow the prisoners this freedom, owing to the very unsanitary condition of the cells, the Sheriff locking them in the cell for the night. Only another illustration of how very much needed is a court house and jail.

WILL YOU MAKE A DONATION?

The American Auxiliary will serve meals at the Fair this year. All members of the Auxiliary and Legion families are asked to contribute something for these meals—eggs, chickens, ham or anything you want to contribute will be most graciously accepted.

Miss Evie Long, Sec.

There is nothing which means more to a town than a good, healthy Building and Loan Association, and we are glad to know that under the wise management of Mr. J. S. Walker, we have such an institution in Roxboro. The second series opened October first and if you have not taken out stock in this series you want to see him at once and do so.

Ten acres of pecans with ten trees to the acre will pay the taxes and upkeep of an average Tarheel farm in ten years, if the trees are properly cared for, finds Farm Forester H. M. Curran.
