IN MEMORIAM.

The home of Mr. and Mrs. W. P. Dixon was made sad on March 24th when death claimed for its own their little daughter, Lois. She contracted measles which was followed by pneumonia. She was laid away in the Leasburg cemetery; the floral offerings were many. Lois was a lovely child of unusual charming personality and was a general favorite in school with teachers and pupils, being possessed of a rare unselfish spirit. She numbered her friends by the score, yet she was only seven years old. She leaves to mourn for her, mother, father, one little sister Virginia, 4-years of age, besides other relatives and friends.—A Friend.

CARD OF THANKS.

We wish to express our sincere thanks to all our friends who were so kind to us during the sickness and death of our little girl. We assure you your kindness will not be forgotten.

Very respectfully,
Mr. and Mrs. W. P. Dixon.

MONDAY MAY 5th, 1924

the following tract of land:

356 acres, more or less, according to an old survey, situated in Cunningham township, adjoining the lands of J. H. Hester and T. T. Adams and others, known as the old Featherston Home Place. There is a big 9 room dwelling, 3 tenant houses and 6 or 8 tobacco barns on the place. The land is specially adapted to tobacco and grain.

One half an acre will be reserved for a burying ground.

Terms of sale, Cash.

This April 3, 1924.

J. W. Featherston, Executor

Why it is
Easy to Own

The Westinghouse Light and Power Plant has demonstrated in actual day-in and day-out service on farms that it is dependable and easy to operate.

And now, by making it easy to own as well as easy to operate, Westinghouse has brought all the advantages of electric service within the reach of every farmer and his family. Electric lights in the farm house and buildings, electric household appliances, and electric power wherever needed, are made available without delay.

The special Westinghouse deferred payment plan spreads the cost of the plant itself, the wiring and the equipment, over a period of twelve months. After making the first payment the farmer may elect to pay the balance in six, nine or twelve equal monthly payments. Or, if he wishes, he may pay for the plant in one, two or three payments to be made after the completion of his crop harvests.

The complete flexibility of this plan makes it applicable to every farmer's needs. You can install a Westinghouse Light and Power Plant on your farm, enjoy the comfort and convenience it will bring you, and pay for it when your crops are sold. That's why it is so easy to own. Let us tell you more about it.

\$200 to \$400 Saved

On This Light-Six Touring Car

By our matchless facilities—our enormous production

HERE is a car priced at \$1,045. Built by ordinary methods it would cost you from \$200 to \$400 more.

It is in scores of ways the leader of its class. No rival car compares in the value that it offers.

Let us tell you how we give that value, then urge you to see this car.

A sensation

Studebaker is today the world's largest builder of quality cars. Studebaker success is the sensation of Motordom.

Sales have almost trebled in three years. Last year, 145,167 people paid \$201,000,000 for Studebaker cars.

There are tremendous reasons for this rush to Studebaker cars. And every man who buys a car should know them.

72-year traditions

The Studebaker name has for 72 years stood for quality and class. To build an ordinary car under that name is unthinkable.

Our assets are \$90,000,000—all at stake on serving you better than all others.

We have \$50,000,000 in model plants, equipped with 12,500 up-to-date machines. We have 23,000 workers, under profit-sharing plans which lead them to stay and develop.

We spend on engineering \$500,000 yearly. We employ 1,200 men to give 32,000 inspections to each Studebaker car in the making.

We are lavish

We are lavish in things that count.

Jackson Motor Co.

THE WORLD'S LARGEST PRODUCER OF QUALITY AUTOMOBILES

Where we save

We save by enormous production—150,000 cars per year. Our major costs are all divided by that enormous output. It is utterly impossible for smaller makers to compete.

We save by modern plants, mostly built in the past five years. We save by up-to-date machines. By building our own parts and bodies.

See what this car offers

Come see what this Light-Six offers. How it excels in scores of ways any rival car.

Built with the same steels, the same care and skill, as the costliest of our cars. We have only one grade of chassis.

See its beauty, its comfort, its luxury. See how we have studied your every desire.

Do that and you will choose this car, if you have in mind a price anywhere near this.

Send for the book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon below.
