"DEATH TOLL AWFUL"

The death toll from automobiles in the United States is about one every thirty minutes throughout the year. The number injured is about one every three minutes. This menace continues to increase and being careful does not save you from the fool-hardiness of the other fellow.

SPENCER'S
Funeral Directors
Roxboro, N. C.

To the Democratic Voters of Person County:

I am coming candidly and directly to you, asking you to vote for me for Commissioner of Labor and Printing. The present incumbent has held the office sixteen years. That seems long enough, unless the state officers are to be made life-tenures, and in that case we should abolish the farce of elections.

I am a graduate of Wake Forest College; gave 21 years to school work when salaries were a pittance, and have done eleven years or real editorial work, four at Lumberton and seven here as editor of the Sampson Democrat, and to run a Democratic paper in this rock-ribbed Republican county is a man's job.

My campaign is making fine strides. Several of the county papers of the state have come out squarely for me, among them the Moore Journal, whose brilliant editor, Mr. R. F. Beasley, declares that he "must vote for Peterson for the simple reason that there is not a man in the state better fitted for the office."

A dozen of the biggest men in Fayetteville published a signed endorsement of me, in which they hoped that "Cumberland would give Peterson its solid vote". Among these endorsers were such men as John A. Cates, Dr. McGowan, former senator and recently retired as president of the State Medical Association, and Capt. James D. McNeill, the Democratic war horse and long president of the State Firemen's Association. At Wilmington, practically every man of great prominence, with all the county officers, are for me. In fact, the whole southeast where I am best known has practically lined up behind my candidacy, while it is gaining rapid headway in other quarters.

I feel that a comparison of my services to the people with those of Mr. Shipman before he entered the office would be much to my advantage, since the sum total of his services, I believe, was a few years as editor of a Rutherfordton paper. I have never asked any favors before, but do come this time with a feeling that my claims are just. I should be exceedingly glad to have the office only half so long as Mr. Shipman has had it, or even one term, and I trust that the good people of Person will go out in full force June 7 and give me a big majority. And be assured that if you do, no man will appreciate the favor more than I.

Respectfully,
Clinton, N. C. May 5, 1924
