BIRD'S ROOFS

SUPER-TWIN Shingles

Bird's Super-Twin Shingles are especially suited to the large, handsome residence, and have the rugged appearance of heavy slate.

1. They are laid 5" to the weather and have a large exposed area, over 9" in width.
2. They are extra thick and extra heavy, with the arched cut-out that gives a distinctive appearance.
6. They can be laid right over old wooden shingles, making a durable, double roof of splendid appearance.
4. They have an unusually smooth and even surface of natural red, green or blue-black crushed slate.
5. Like all Bird's Twin Shingles, the Super-Twin is a one man, one hand shingle.

Bird's Super-Twin Shingles are made by Bird & Son, Inc. (Est. 1795), manufacturers of Neponset Twin Shingles, Shingle Design Roll Roofing, Paroid Roofing, Neponset Black Building Paper and Neponset Board. There's a Bird product for every sort of building!
