**SHENANDOAH PASSES.
TOO FEW OWN HOMES.
A LADY VICE-PRESIDENT.
THE PEOPLE'S INDEPENDENCE.**

The airship Shenandoah, sailing toward Albany, above the Hudson, last week, passed the Twentieth Century, the fastest New York Central train, coming from Chicago. The airship carried 120 human beings, the express train many more. The passengers on the fast train bent their necks looking upward, and thought how strange it was traveling up there in the air.

In a few years that well-appointed express train will be out of date as the stage coach is now. The young Vanderbilt boys and George F. Baker, real boss of the New York Central, would do well to begin planning now for transportation through the air. They have the terminals, can raise money, and should see the warning written in the sky by smoke from the exhaust pipes of the big flying ship.

President Coolidge tells real estate men he wants to see this country a home-owning nation. That's better than Henry Navarre's wish that every Frenchman should have a chicken cooking on the stove. La Poule, au pot.

Frenchmen, seven millions of them, own the soil of France, thanks to the revolution. That's what helped them to hold Verdun.

The peasants own Sweden. That enabled Charles XII to march with only 12,000 of them through Peter's great armies. Too few own their homes and the land in this country.

The Agricultural Department reports the worst crops in many years. That's bad news for those who eat the crops, but may mean better prices for farmers not able to make a living recently.

The Chicago Board of Trade expects higher prices for wheat and with the wheat crop cut more than forty million bushels something ought to happen.

Federal District Judges Carpenter and Wilkerson set aside President Coolidge's pardon of Philip Grossman, in Chicago, denying the President's power in civil cases and adding: "To allow such power to the Executive is to strike a death blow at the independence of the judiciary."

That's a good saying and courageous. All Federal judges depend on the President for appointment and promotion. It's also a saying for the people to remember in case they happen, some day, to get rulers that represent them, and nobody else.

At present our system "Allows such power to the judiciary as to endanger the independence of the people." You see it when the casting of one single appointed Supreme Court vote, in the majority, has power to over-rule an elected Congress. And when Congress is ruled by a bare majority, in a court beyond the people's control, that is not democracy.

If there exists any power greater than the people's power, then what we call self-government is a joke, as when a farmer lets his baby "drive the horses," the farmer, however, holding the reins, while the baby only thinks he is driving.

Well thought out power to recall every one of their public servants, whether elected or appointed by an elected official, is what the people will have eventually. That will come when they really take an interest in their government and thus prove their fitness to govern themselves.

Mrs. Genevieve Allen, of San Francisco, suggested that some woman be nominated for Vice-President. It isn't necessary to say what old politicians think of that. Nevertheless, young politicians will live to see things in politics more surprising.

The time hasn't come yet, however, for, strangely enough, at this moment more women than men would be shocked at the idea of a woman on the Presidential ticket.

Perhaps, some day, the world will bless the big war, although it did cost 250 billions and 20 million lives. Poison gas will do more good than it has ever done harm; it has been used to destroy the boll weevil. And now, in the Ukraine, Trotsky orders his army fiers to use gas against locusts and field mice.

We could use it here, a heavy variety, to destroy prairie dog colonies, snakes in their breeding holes, and rats in city sewers.

Old Folks' Ailments

"I began taking Black-Draught over fifty years ago and my experience with it stretches over a good long time," says Mr. Joe A. Blake, a Civil War veteran and former Virginian, who is now a prominent citizen of Floyd, Texas. "It is the best laxative I know of for old people. . . A good many years ago, in Virginia, I used to get bilious and I found that

Thedford's BLACK-DRAUGHT

was the best and quickest relief I could get. Since I came to Texas I have these bilious attacks every now and then - a man will get bilious anywhere, you know - and I find that a little Black-Draught soon straightens me out. After a few doses, in little or no time I'm all right again." Thedford's Black-Draught is a purely vegetable liver medicine, used in America for over eighty years. It acts on the stomach, liver and bowels in a gentle, natural way, assisting digestion and relieving constipation. Sold everywhere. E-102
