

White Indians Arrive in New York

Here are shown three white Indian children of Panama with Richard O. Marsh of New York, who discovered the tribe of 400 in the San Blas country of Panama. The children failed to be impressed with anything they saw in the wonder city of civilization, New York.

Pick up the squares and burn them if your cotton acreage is small and boll weevils are just getting a start. After they become numerous only dusting will control them says extension workers of the State College of Agriculture.

It would be narrow vision indeed to rejoice in the movement of freight as great trains go back and forth across the country carrying grain, livestock, poultry and farm products to seaboard markets—and in return bringing manufactured goods to inland consumers. Such activity means prosperity to the nation; more business; better markets; peace and plenty.

Unless this community takes all necessary steps to be part of that activity, however, the day cannot be evaded when Roxboro will be nothing more than a whistling post.

Marketing the things you have to

sell and buying your necessities, luxuries and pleasures right here in Roxboro is the method whereby we can evade a whistling post identity and insure increased values in our farm and town property; more jobs; better pay and a more prosperous people.

For every case of freight which comes to Roxboro this year; or every car shipment sent out, there should be two next year. If we establish that goal and work toward it then town growth is assured. We have every natural asset needed right here in Roxboro. So it is purely a matter of resolve and a pulling together to that end.

1,2,3,4,5 Years — Still a Young Car

The Willys-Knight is a car you can keep and enjoy for years. A touring car with all the thrill of 42 horsepower—a car you can drive 50 miles and more an hour, hour after hour—without over-heating—without loss of power—without engine trouble—without carbon cleaning—without ever needing valve grinding.

The Willys-Knight sleeve-valve engine is the most powerful engine of its size ever built—and the quietest—and the only type of engine in the world that actually improves with use. It is common for Willys-Knight owners to report 50,000 miles and more without spending a cent for repairs on the engine.
