**THAT HOSPITAL**

For many years the subject of building a hospital for Roxboro and Person County has been discussed, in fact it looked at one time as if something would come of the discussion, as the women took hold of the matter. We do not believe the town, or County, is large enough to undertake this alone, but we have been thinking about it and have decided the best solution is for Granville and Person County to come together and build a hospital for the treatment of the tubercular patients of the two counties. Of course, it would not be confined exclusively to this one disease, but the two counties have many such patients who should receive treatment and the two together could easily maintain such an institution. It is only about twenty six miles from one town to the other, and with a good sand clay road about completed the distance would be of no consequence.

We would love to hear from Granville as to this proposition. A hospital could be built somewhere near the county line, either in Granville or Person—wherever the best site could be secured on the most satisfactory terms, and be within easy reach of the territory represented. There are many hillsides covered with pine forests which would make an ideal location for such an institution.

Neither county has such an institution and we believe all will admit both should have. Let's get together and see if something can not be done along this line.

**THAT BOND ISSUE.**

In another column will be found a notice calling an election for the town of Roxboro asking for a bond issue of seventy five thousand dollars. Now, we feel that Roxboro and Person county has just about reached the point where we should call a halt on the bond question, but there are two things which are absolutely necessary for every town, these being water and schools. The first we are glad to say, has been settled for many years, but the second is one of the necessities, and while we regret it is necessary to increase taxes, still, we shall support this measure and call upon all of our good citizens to do likewise. The future of the town largely depends upon its schools, and all of us know there is no way out of this difficulty, save a bond issue.

However, we were in hopes when this question came up that the citizens of Roxboro and the County would see the light, and all agree the proper thing to do was to build a County high school building which would take care of every child in the County who wanted to attend this high school. Make it a REAL HIGH GRADE school, and give every boy or girl in the County the opportunity to attend, without money and without price. Some of our high schools do not like for us to say it, but it is true, there is not a real number one high school in the County. This is not our opinion, but it is according to the way the State Educational Department has graded them.

Would that the County Board of Education and the Roxboro Graded School Trustees might get together and remedy this matter before a mistake is made. It is not too late.

"Every day in every way" we are more and more convinced that the world is getting better. Just this morning the announcement is made that Mr. J. B. Duke has given forty million dollars for charitable purposes

with no strings and not confined to any one church or denomination, he having remembered the Methodists, Presbyterians and Baptists, besides orphanages and hospitals. Yes, the world is getting better and will be better by Mr. Duke having lived.

We have known for some time that Alamance county was one of the most progressive in the State, but she steps up another notch. At a meeting of the Board of County Commissioners Monday the board appropriated two hundred and fifty dollars to purchase a piano for the court house. And just to think, we can't even get a court house.

The Highway Commission decided not to recommend the issue of more bonds for roads, leaving that to the incoming Governor. However, the feeling is pretty strong for more roads and to get more roads means more bonds, so there will likely be another issue of thirty five millions.

After all it took a Democrat, Mr. Underwood, to settle that Muscle Shoals fight. My, but what would the Republican party be if it was not for the help they get from the Democratic party when they tackle a real big snag.

For our part we wish there were more Buck Duke's to remember some more of the denominational colleges for all of them could very well use several hundred thousand, or even millions.

It is none of our fight, but if Mr. Meekins does not land that plum then we will say the Republicans of North Carolina are the most ungrateful wretches of our knowledge.
