We expect a church full of people. Preaching at East Roxboro at 7:30 p. m. Come over and be with us.  
M. C. ELLERBE

#### A CHURCH-GOING COMMUNITY

One of the most beautiful pictures to be seen is that of a community that attends church 100 per cent strong. As we view our towns, cities and countries, we see people who are interested in church work and charitable institutions, and a good index to a person's character is the appreciation he has of the church.

What are some of the troubles that we face in regard to church attendance? Many people attend the services, but their conduct during the hour of worship is very unbecoming for regular church attendants. The Church of God is a sacred place, not a place for whispering, gumchewing, disrespect during prayer and other such acts. The worship hour is too brief and too valuable to be consumed in such irreverence as this.

Now we are going to suppose that the community does not attend church as it should. There is a reason for people not attending church. Of course, the pastor may be responsible. It is his place to correct his fault.

Whatever a church is doing, that hinders the worship of a community must be corrected. Also, our community leaders need to put an appreciation of ideals in the right places. Why isn't that our leading churches have so few people present for a prayer service, preaching service or Sunday School? Because our leaders have not their stamp of approval and influence in the wrong places. How about the Saturday night before a Sunday of worship? If you go to a moving picture show, you will see the building crowded to its limits.

On Sunday night you find a crowd one-fourth that size in our big churches. "Fifty cents" to enter the show, "five cents" paid to the church. Now who is responsible? The members of our churches attend such unclean places, see sights that are ridiculous and unfit for the human eye. Grey-haired women, leading citizens and prominent church people attend.

If we are to maintain our moral and Christian standards, we must become a church-going community and cease to be an indecent community. Some of our school principles have the right idea: get up and leave when such pictures are cast before us. We need to appreciate the church more and more.  
M. C. ELLERBE, Jalong, N. C.

#### VEGETABLE EATING CONTEST ON IN SCHOOL

As a part of the Red Cross nutrition program, the children have been competing in a vegetable eating contest in the various schools of Person County. One little girl who said she simply could not eat any vegetable except potatoes and beans has already learned to like two other vegetables, and is trying more kinds.

The reason for this interest is that children have been convinced that vegetables are necessary. Nobody can be really healthy unless he eats plenty of vegetables, especially green ones. The best rule is two vegetables every day, other than potatoes. Serve a leafy vegetable three times a week at least and every day if possible.

Cabbage is the most common leafy vegetable and can usually be secured easily and at small cost. It is most valuable if served raw, in cold slaw. When you cook it try the following method. Take off the outside leaves; cut the cabbage into small pieces, removing the tough stalk. Cook in an uncovered kettle of boiling water for 20 or 30 minutes; cook only until tender and that until it is yellow or red. Drain and serve with butter, salt and pepper, or with milk sauce. Cabbage cooked in this way is both healthful and palatable.

#### How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Get a family package containing full directions, only 50 cents. At any drug store. (adv)

much cheaper. Let's have more vegetables of all kinds. Adults need them as much as the children do. Don't give the children all the good things.
