# Sunday School Lesson

By REV. J. D. FITZPATRICK, D.D., Dean of the Reading School, Moody Bible Institute of Chicago, (60) 1225, Western Newspaper Union.

## Lesson for March 14

### THE LAST WORDS OF JESUS, WITH HIS DISCIPLES.

LESSON TEXT—John 14:1-31. GOLDEN TEXT—“I am the way, the truth and the life.”—John 14:6. PRINCIPAL TOPIC—Jesus Tells of the Heavenly Home.

JUNIOR TOPIC—Wonderful Promises of Jesus. IMMEDIATE AND SENIOR TOPIC—Jesus Comforts and Comforts with His Disciples.

YOUNG PEOPLE AND ADULT TOPIC—Christ's Last Words With His Disciples.

The hopes of the disciples were utterly shattered when Jesus told them about the cross. He had told them that He was going away and they could not follow Him. Their hearts were flooded with grief. He consoled them by—

I. Pointing to the Reunion in the Father's House (vv. 1-3).

1. He Asked Them to Trust in Him (vv. 1-2).

2. He Informed Them That He Was Going to the Father's House in Heaven to Prepare a Home for Them (v. 2).

3. He Assured Them That He Would Come Again and Escort Them to Heaven (v. 3).

Jesus will not wait for His own to come to Him, but will come and call forth from the grave those who have died and transform living believers and take them all to be with Himself in the heavenly home forever more.

II. Revealing the Way to the Father's House (vv. 4-11).

1. He Told Them the Way to the Father's House (vv. 4-6).

2. He Told Them the Way to the Father's House (vv. 7-11).

3. He Told Them the Way to the Father's House (vv. 12-14).

4. He Told Them the Way to the Father's House (vv. 15-17).

5. He Told Them the Way to the Father's House (vv. 18-20).

6. He Told Them the Way to the Father's House (vv. 21-23).

7. He Told Them the Way to the Father's House (vv. 24-26).

8. He Told Them the Way to the Father's House (vv. 27-29).

9. He Told Them the Way to the Father's House (vv. 30-31).

10. He Told Them the Way to the Father's House (vv. 32-34).

11. He Told Them the Way to the Father's House (vv. 35-37).

12. He Told Them the Way to the Father's House (vv. 38-40).

13. He Told Them the Way to the Father's House (vv. 41-43).

14. He Told Them the Way to the Father's House (vv. 44-46).

15. He Told Them the Way to the Father's House (vv. 47-49).

16. He Told Them the Way to the Father's House (vv. 50-52).

17. He Told Them the Way to the Father's House (vv. 53-55).

18. He Told Them the Way to the Father's House (vv. 56-58).

19. He Told Them the Way to the Father's House (vv. 59-61).

20. He Told Them the Way to the Father's House (vv. 62-64).

21. He Told Them the Way to the Father's House (vv. 65-67).

22. He Told Them the Way to the Father's House (vv. 68-70).

23. He Told Them the Way to the Father's House (vv. 71-73).

24. He Told Them the Way to the Father's House (vv. 74-76).

25. He Told Them the Way to the Father's House (vv. 77-79).

Woman has rapidly come to the fore in all lines of endeavor, but these three girls have made the world sit up and take notice by achieving the pinnacle of success while still in their teens. The sport world worships at the feet of Helen Wills, (center), America's youthful tennis queen; rises to its feet to acclaim Marion Talley, (left) whose triumphant debut at the Metropolitan makes her a star of the first magnitude. Gene Goldman demonstrates the ability of her sex to earn money instead of spending it, by amassing a million dollars selling Chicago real estate.

### CHEAP FEED PRODUCED BY GOOD PASTURE

Raleigh, N. C., March 1.—A good pasture produces the best feed for all kinds of livestock and the feed is secured more cheaply than in any other way. Even the man who keeps but one cow, a few hogs and some work stock will find a permanent pasture to pay well.

"Demonstrations have shown that the loamy soils of North Carolina will produce good pastures that will furnish succulent food for livestock from March until late November," says S. J. Kirby, extension pasture specialist for the State College of Agriculture. "In almost every county east of the piedmont section, there are permanent pastures which have produced heavy grazing for periods varying from one to twenty-one years. Almost any type of soil will produce these pastures and some soils will produce better pastures than any other kind of crops. The best pasture land is a rather fertile soil ranging from a sandy loam to a clayey loam of low to medium upland."

Woods, cut-over land and cleared land will produce good pastures and are easily prepared for seed, states Mr. Kirby. The woods land may be prepared by cutting out the underbrush, burning out the taller trees and removing those trees which are valuable for timber. It is necessary to break and disk old broom-sedge land before seeding. The cultivated land may be prepared simply by disk the soil. A better growth is secured if the land has been plowed the fall before, but cultivated land should not be plowed for planting to pasture 100 days before the seeds are sown.

Mr. Kirby states that the land should be well fertilized with stable manure, 300 to 400 pounds of acid phosphate and from 200 to 300

pounds of some organic nitrogen material like cottonseed meal or taggase. Seed mixtures to use can be secured on application to the county agent or to the pasture specialist and seeding should be done between February 15 and April 1.

### DELINTING COTTON SEED HURRIES GERMINATION

Raleigh, N. C., March 1.—Farmers whose cotton has suffered from attacks of anthracnose and boll rot will find that delinting the seeds with sulphuric acid will clean the seed of disease spores and will cause quicker germination.

In using sulphuric acid for this purpose, the Botany Department of State College has found from repeated tests that acid of 66 degrees Baume should be used. Acid of this strength will delint the seed in ten minutes at ordinary temperatures. Not less than 2 1/2 to 3 quarts should be used for each bushel of seed and the acid is best applied by pouring it over the seed with a sprinkling can while the seed are being stirred.

In this way, the operator can coat the seed with acid with a minimum of material and stirring. The seed should be left in the acid until all of the dirt is removed and the seeds show black. If the seed are constantly stirred, this condition can be secured in about ten minutes. Treatment for 30 minutes will do no harm.

"This treatment will increase the germinative capacity of the seed and will shorten the time required for the plant to start into active growth," says Dr. S. G. Lehman, plant pathologist. "Usually from one to five days is required, depending on the dryness of the soil. When the acid has dissolved the turgor on the seeds, they should be thoroughly washed, using several gallons of cold water for each bushel of seed. The seed should be stirred vigorously and the

water poured off as quickly as possible. Two or three gallons of water are sufficient for the second and third washings. After the seed have been washed they should be spread out where they will dry quickly. Delinting costs about 28 cents per bushel but the stand is improved, there is less disease and the seed are dropped uniformly in the row."

Dr. Lehman advises growers to handle the acid very carefully and to use a wooden tub lined with roof pitch. Time is saved if a second tub is used for washing.

For those who desire detailed information on this question, Dr. Lehman states that he will be glad to answer any letters sent to him.

### THEY ALL ADVERTISE (Elis Hayes)

When is 'not supposed to have much common sense or tact. Yet every time she lays an egg she cackles forth the fact. A rooster hasn't got a lot of intellect to show. But none the less most roosters have enough good sense to crow. The mule, the most despised of beasts, has a persistent way of letting folks know he's around. By his insistent bray. The busy little bees they buzz. Bulls bellow and cows moo. The watchdogs bark, the ganders quack. And doves and pigeons coo. The peacock spreads his tail and squawks. Pigs squeal, and robins sing. And even serpents know enough to hiss before they sting. But man, the greatest masterpiece That nature could devise, Will often stop and hesitate Before he'll advertise.

### DEATH OF MRS OAKLEY

Mrs. P. J. Oakley, wife of Mr. T. N. Oakley, passed away on Feb. 2nd, 1925, from this earthly home to the home beyond. There are many relatives and friends left behind to miss her but God knew best. Her age was 62 years. She joined Olive

### IT WON RENOWN

The vitamins in cod-liver oil play an important part in protecting the body against germ-infection.

### Scott's Emulsion

of invigorating cod-liver oil is the food- tonic that has won renown through its power to strengthen and protect the body. If you would keep strong, take Scott's Emulsion!

Price 60¢ and \$1.20 Scott & Downe, Bloomfield, N. J. 25-106

Branch Baptist Church when she was 12 years old, so she has been a follower of Christ for fifty years. Mrs. Oakley leaves a husband, one sister and two brothers to mourn over her death. Her friends were many. She was buried at the T. D. Oakley family grave yard. May we not hope to meet her some time, face to face.

For she is now in the graveyard at her last resting place. The Golden gates are open. A gentle voice says, come. And with farewell words unspoken, She calmly entered Home. BY A FRIEND
