Doctor Abster had warned Cutter that a period of absolute rest was ential, and he recommended a trip to Valletla. Affect had unwittingly fallen into their plans, and when she added her persuisions to that of the others, the old man had grumblingly vielded.

Dear Christian people, including all moral and patriotic people, if we fail to do our duty in overcoming the gigantic evils of the present, which are such terrible moral and spiritual menace, and because of evil environment many of our colldren become moral and spiritual wrecks, will we not be to some extent responsible for their failure and downfall. Again, to gratify their wants some of them become wasteful and extravagant, save very little, misfortune comes and povery becomes their master; where then is their liberty? O liberty! what terrible mistakes, what degrading conduct, what crimes are sometimes committed in thy name. Young men and boys, let me beg, warn, entrest and persuade you to shun intoxicating drinks, for your own and your parents sake, and other reasons which could be mentioned.
