HOUSE CLEANING

We do not know what the suit brought to throw the Co-op Association into the hands of a receiver had to do with it, but we do know that closely following on the heels of this suit there was another resignation of one of the higher-ups. If the suit was responsible for this act, then said suit was the most beneficial thing ever done for the Association. It was stated in the trial of this case that the Messrs. Patterson-Watkins, et al. had made a profit of eight hundred thousand dollars in their re-drying deal, whether it was eight hundred or one hundred, it was just that much money which rightfully belongs to the farmers composing this association, and they should be made to disgorge, if such a thing is possible. It is rumored that Mr. Oliver J. Sands may soon follow suit and send in his resignation, and from latest evidence, it would be eminently in order, and his resignation would doubtless be accepted before he had time to withdraw it. The resignation of these higher-ups should do much to clear the atmosphere and materially help in the work of organizing the new association.

CLEAN-UP WEEK

This week has been set apart by the Woman's Club and the Board of Town Commissioners as "Clean-Up Week," and we hope every citizen of the town will heartily cooperate. It is not enough to simply clean up in your front yard, but go to the rear and see that everything is removed which might be conducive to the breeding of flies or mosquitoes. We have heard the town Dads criticised quite a good deal for the fact that they did not realize there were any streets in Roxboro save Main Street. They have had a force of considerable size at work on this street for some time, and they should have it in fine condition by this time, but whenever did you see this force at work on one of the minor, or side streets as they are commonly called?

We have no fuss to make with the Town Board, but what we want is to see every street in town thoroughly cleaned, including vacant lots and alley-ways. Let's not only make it "Roxboro Beautiful," but let's make it "Roxboro Healthy."

It is too early to talk, but the dealers tell us that the farmers are not hauling out fertilizer as fast this year as usual. We sincerely hope our farmers will not try to make a bumper crop of tobacco this season, for, unless all signs fail, tobacco, especially the common grades are going to be low, and with a bumper crop many farmers will not make enough to pay for the guano. Better look well after food and feed stuff, and especially those cows and chickens.

With this issue we complete our serial, "In Valhalla and Out," and if you failed to read it you missed one of the very best books which has been printed recently. It is our intention to start another serial now in the very near future, and you want to keep up with your label. Watch your label and send in your renewal promptly.

We wish one of our banks would have its directors put their heads together and work out some plan whereby it would finance a scheme for buying thoroughbred hogs and hogs. Nothing would mean quite so much to this good county as more improved cows, hogs and chickens. If they fail to take advantage of this splendid opportunity perhaps the Courier will form a club for the men after it is through with its Boys Corn Club.

We have been very much pleased at the complimentary words we have heard from several concerning our editorial in last issue about the county government. Well, let's keep up the talk and when we come to selecting a man to represent us in the next legislature ask him what he thinks about it. There are several things which will come to the front in the next session of the legislature, and it is well that we send one of our very best men to represent us.

Boys, do not fail to read the article on the front page headed, "Corn Project Boys." This meeting is of importance to you, and we hope to see the entire number present at this meeting. There will probably be some other features concerning this project mentioned, and you want to know all about it. Come to Roxboro next Saturday afternoon at 2:30 o'clock.

Miss Elizabeth Kelly is to talk in, or on, or through, the radio in Chicago on the eleventh, and when she has finished many a man will know more about North Carolina than he ever knew before—and he will wonder where he has been all the while not to have heard of such a progressive, God-blessed country.

We see it stated that Marion Butler has reserved the Governors rooms at the Washington Duke for the Republican State Convention. Take our word for it, those anti-Butlerites will know he has been to town before that convention is over.

A MINUTE A DAY MAKES MILKING PAY

One more minute, per cow per day spent in weighing out the feed consumed and milk produced by each animal, would show the dairyman which of his cows are really working for him and which are loafing on the job. Thirty-one seconds per milking is all the time the farmer needs to keep tab on the performance of each of the cows in his herd. "The majority of dairymen who do not keep records of the feed consumption of milk production of the cows, are working under the delusion that the keeping of such records would take up more time than they could well afford to spare."

"They are wrong. Actual timing under practical conditions conducted by the Institute, shows that it takes only eleven seconds more per cow for each of two feedings to weigh out the exact feed, than it takes where the feed is not weighed. To weigh and record the milk from each cow was found to take only twenty seconds more per milking than it takes to just dump the milk over the cooler, or forty seconds for the two milkings. In all, no more than sixty-two seconds, or about a minute, is required to have a complete record of each cow's feed consumption and milk production. If that extra minute devoted to keeping records for, say, twenty cows, should reveal that one of them was a typical waster—incapable of producing milk in measurable quantities—the dairyman would not only be saved the countless hours devoted to its feeding and care, but he would find that he was better off at the end of the year with the remaining nineteen cows than he was with the original twenty.

"Roughly speaking, there are only three distinct types of cows. The Susies, who are good lookers, but simply haven't the capacity when it comes to the milk pail. All feeds they get above the amount required to produce their limited quantities of milk and keep them in condition, are wasted. The Betties are the thin, emaciated creatures who look as though they were ready to lie down and quit, but which have an inherited ability to produce milk that will often lead them to take it right off their own backs. Generally these are sadly underfed, so that they are using only a portion of their capacity. Then there are the Dobbies—the army of waster cows

"No Hoss Thief" The authorities of Anbury Park, N. J., have arrested 92 year old Dr. E. P. T. R. Obaldeston, for stealing a horse and buggy 45 years ago. The Doctor claims police want his half brother, who has the same name. "He has a silver plate in his head, like I have, which he got from a gun fight in New York."

that simply can't produce milk profitably. They eat and eat and their owners have neither beef nor milk to show for it. They are overdue at the butcher's. Such cows are in every herd where the dairyman does not feed in accordance with milk capacity and production. Keeping feed and milk records will show the dairyman how to profit from the Susies, cash in fully on the Betties, and how to avoid losses on the Dobbies.

HURDLE MILLS SCHOOL HONOR ROLL

- First Grade—Clarisse Lang. Second Grade—Minnie Lee Moore, Marion Coleman. Third Grade—Shirley Brooks, Virginia Garrett and Florence Moore. Fifth Grade—Ariella Lutz, Emma Hawkins. Sixth Grade—Ruby Clayton, Mary Coleman, Frances Rimmer, Oscar Hawkins. Seventh Grade—Thelma Long, Nell Edwards, Ruby Fox, Royce Huff, Adell Clayton. Eighth Grade—Ruth O'Brian, Frances Long. Tenth Grade—Ruth Hawkins, Garney Rimmer. Eleventh Grade—Mabel Rimmer, Mary Whitfield.

Includes the text: 'Patterns and Quality must be seen for prices to be fully appreciated. We have never shown a finer collection of Spring and Summer piece goods.' and the store name 'HARRIS & BURNS Roxboro's Best Store'.

WOMAN'S CLUB

The club was opened with the reading of the minutes by the secretary, Mrs. deVlaming.

Treasurer's report was then presented by Mrs. Teague, which was very encouraging to know that we are finishing our last meetings with a nice sum to begin our next year. Mrs. Wilburn then spoke of the Art department, and what work had been accomplished. Several beautiful pictures were won by the children in selling tickets for the Art Exhibit. Some were presented to the Grantmar School Library.

The report on Cemetery work was given by Miss Burch. Lately the work has been to clean up and get ready for Spring. A large new lawn has been given by the town. There is one third more land in grass than formerly.

Some plants have increased by seeding themselves and all growing things are in a promising condition and the cemetery beautified by the shrubbery and care of lots. The same keeper has been all the year and this speaks well for his work and knowledge.

Another good report was heard from the Educational department, by Mrs. Thomas. The picture "The Goose Hangs High," was given for the benefit of the school; the "Little Marionettes" were shown for the same purpose, shrubbery was planted out at the new High School and last but not least, \$10 in gold was offered for Declamation Contest. In the Library Department, fifty books have been added to the collection. Work accomplished by the different departments in the Extension Library amounts to \$64.50. Mrs. Pagle is in charge of Home Economics department, and reported splendid work by the children in sewing and embroidery.

Clean up week begins Tuesday April 6. After our town is cleaned, let us keep it clean.—Cor Sec.

CARD OF THANKS

I wish to thank the good people of Roxboro for the many acts of kindness shown during the sickness and death of my dear husband. May the good Lord bless each and every one of you in His prayer. Mrs. I. S. CLAY

Begin to bank your money while you are young.

When you are young, the whole world is before you and just how much of it you conquer, rests with you. The best start a young man can make is to work hard and REGULARLY bank a part of his earnings. It won't be long before he is "noticed" and soon the older men are relying upon him and he rapidly comes to the front. Young Man, come in, start that bank account today—\$1.00 will do it and it is up to you to keep up your deposits regularly and succeed. We Will Welcome You

The Peoples Bank "The Bank of The People"

EASTER EGG HUNT: Mrs. C. D. Long gave a big Easter egg hunt on Monday afternoon. About one hundred and twenty five eggs were hidden and the hunt was thoroughly enjoyed by children of Mr. and Mrs. N. B. Clayton, Mr. and Mrs. J. A. Shotwell, Mr. and Mrs. C. B. Bradcher, Mr. and Mrs. J. S. Catam, Mr. and Mrs. J. A. Hamlin, Mr. and Mrs. K. L. Long and a number of other little children. CARD OF THANKS: We desire to thank each and every one for their many acts of kindness shown us during the illness and death of our father, Mr. T. S. Clay. You left nothing undone, and we appreciate everything you did for us in the trying hour. We ask God's richest blessing upon you all. P. H. Clay, Brother and Sisters.
