DON'T BE FOOLED

Tobacco is selling well on all of the markets and the tobacco farmer is playing in luck for one time. This year it is the cotton farmer that is in hard luck. But the fact that tobacco is selling well this season is no guarantee that it will sell well next year. The past year nearly every farmer in the County sowed small grain, wheat and oats, and other stuff for his stock, with the result that few farmers will have to send away for their bread this year. It was wise, and we sincerely hope no farmer will fail to follow this same idea angain this Fall Don't worry about rushing your tobacco on the market, but take time to sow small grain, and if tobacco fails on you next year you will have something to eat and to feed your stock.

You never heard of the sheriff selling out a man who had a year's rations ahead, and it is mighty comfortable feeling to know that you are one year ahead of the sheriff.

WHAT IS THE MATTER?

Here it is, just about three weeks until election and the average person could not tell you that such a thing was even near. Not a speech has been made, and as far as we have heard not a man has been out electioneering. What is the trouble, have the people been foiled so often by political promises that they are no longer interested? Certainly, there has come a big change over the people for long before this time beretofore the people were all "het up" over the proposition. True, it is an off year, but a full set of clunty officers are to be elected, and after nII, they are of most importance to the County. A full ticket was named at the primary but we doubt if there are many who could tell who are running on either ticket. From present indications the vote will be light, and in such conditions there may be some surprises. Candidates had better get busy.

HOW CAN WE HELP THE COTTON FARMER?

In another column will be found an advance editorial which will appear in the Progressive Farmer this week. Few men in the State, or the United States, for that matter, are better prepared to talk about cotton than Mr. Clarence Poe, editor

Wilburn & Satterfield sells good Shoes.

I am taking this privilege of writing a few words of thanks in regard to some of the church work, that has been done in the village sections of Roxboro. It is true, as many individuals know, that I am a young man-my second year in the Ministry, nevertheless I feel truly grateful for all kind deeds and helpful words that have been mine during the two ! years that I have spent in and around Roxboro. I feel that I have tried to upholi the Ministry during this period of time, and I have als: tried to do some constructive work in the field in which I have been appointed. The villages, as ome of you may realize, need lendership, cooperation and other phases of Christian service and attention. A public worker has all that he can do if he really gives his life to this. field of service.

As the Annual Conference is near at hand, I feel that I should say in a public manner, that I appreciate all helps that have been given me. while passing this way. A young preacher is in a position to appreciate such kindnesses. He, above all other young men, is one who realizes what it means to have friends and comrades in life; therefore, fellow friends, I express my thanks to all flowing. Let all the Stewards be wh: have helped me in any manner whatever while around Rodboro.

In conclusion, allow me to say this in regard to the villigia churches of Roxboro: I have learned numbers f people in these villages-and there are some good people on these hills. I trist, whether I am reappointed to this field or not, that the Christian people of Roxboro and Person C unty will remember the good prople in the Roxboro villages, and that the fullest of cooperation will exist. | All these village churches are weak, the people are good and are sarving God as best they can. It is my desire that every courtesy and every ympathy that can be extended will be shown these people. With every good wish and thought toward Rox-0010.

I feel truly garteful to Mr. J. W. Noell, the Editor of the Roxberg-Couries, for his kindnesses toward. me. He has taken a great interest in me and I feel very grateful toward him. With kindest regards, M. C. ELLERBE.

of the Progressive Farmer, This article is of great importance to all cotton producers, and we trust you will read it. However, we see no. releif for the cotton farmer so long as they continue to plant and pro- 2-15 10ts duce more cotton than the country can consume. We see no help for the farmer, either in cotton or tabacco, so long as they refuse to be poverned by business laws and plant crops according to the demands. An over-production always mean low prices, and there is no way in getting iaway from it.

1 "If the farmer could get no more out of the ground than he can out of the Republican party, the wolf would .. be doing the Charleston in frant of his door," says the Flash Light Editor in the Charlotte Observer. And dog if we don't believe he is everlastingly right.

Dr. Frank Crane, says, "Even without a tariff excellent and well paid labor in America would have na difficulty in competing with the underpaid labor from abroad."
