

Plans Laid For Semi-Pro Baseball Loop

Collins & Aikman Represented At Organization Meeting

Charlie Horton Of Durham Heads Committee to Draft Constitution and By-Laws

Preliminary plans for the organization of a fast semi-pro baseball league were made last night when representatives of seven teams met in Durham. Everyone present were enthused over the idea of having such a baseball league. February 27 was set as the date for these representatives to hold a meeting to work out final and complete arrangements.

Representatives of Collins and Aikman met with the other representatives last night. Other teams represented were: Chapel Hill, Hillsboro, Angier, Creedmoor and Golden Belt and U-Drive-It of Durham.

Doc Smith, old professional player who represented Angier, heartily endorsed the league but expressed the opinion his town would throw the proposed circuit out of shape, making for too much traveling.

Charley Horton, manager of the Golden Belt team was named to head a committee to draft a constitution and by-laws. They will be sent to clubs represented last night and will be acted on at the next meeting.

Each club will be confined to players within the county in which that team is located and no one who has played professional ball within the last year will be eligible. Number of games the teams will play each week and the days on which they will play will be decided later. The majority of clubs represented at last night's session favored Saturday and Sunday games. Some, however, were uncertain about playing on the Sabbath and that question will be decided later.

Beneficent Angel Appears In Iredell

Roof Blaze Discovered And Put Out While Members-Of The Household Were Sick

Statesville, Feb. 13.—Prompt action on the part of field worker engaged in the rural housing survey of Iredell county saved the home of a north Iredell family from destruction by fire a few days ago. This field worker, driving up to a farm home to interview the housewife as to the most needed home improvements, discovered a fire in the roof, as she came up to the door. She rushed in to advise the family of their danger, only to find all members of the household in bed with measles. Without hesitating, she threw down her census blanks and other paraphernalia and ran to a neighbor's house for assistance, formed a bucket brigade, and helped draw water from the neighbor's well, for the family whose house was in danger, had no well. With the assistance of the neighbors, the fire was soon under control, without serious damage to the house.

The lady who did all this—brought assistance to people in distress, saved their house and possibly, their lives—well, her last name is Angel, and she was just living up to her name.

DIZZINESS relieved by Black-Draught

"I decided to take Theodor's Black-Draught, as I had been having bilious spells," writes Mr. Chas. E. Stevens, of Columbus, Ind. "When I got bilious I feel sleepy and tired and do not feel like doing my work. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling. Now you can get Black-Draught in the form of a SYRUP, for CHILDREN."

Hear D about TOWN

The weather the past few days has been too much for us; it has been so cold that you could hardly interview any one, for the words would freeze almost as fast as they were uttered—any way, you would freeze if you stood still listening to any one. Consequently, there is not much to report in this column this week.

While trade has been light with the merchants, sales small at the warehouses, the plumbers have been doing a rushing business. It is a fact that while the thermometer did not go as low as on the previous cold snap, there were more bursted pipe, and the plumbers had more work than they could take care of.

The "Iron Man" at Hambrick, Austin & Thomas drew a crowd every day, but then, this popular firm generally has a crowd, for the people just naturally flock there, whether it is for business or pleasure; it is one place where you can always find some one to listen to you while you tell of your woes, or comment on the weather.

Many are foolish enough to say the ground hog is all a myth, but when the little rascal sees his shadow on "ground hog day" you had better see that your coal bin has plenty of coal, for you surely will need it.

One more week and the market for the sale of leaf tobacco will close, and then the farmer will begin making preparations for another crop. Well, here's hoping he gets at least as much as he did this year for his crop. This has been one season when he made some money, and we are all rejoicing with him.

We stated above that the merchants had been having a dull week, but not so with the coal
