Exchange Notes

The *Crimson-White*, University of Alabama, published an eight page Christmas number. We congratulate it upon its enterprise.

The University of the South, at Sewanee, Tenn., situated in the mountains, has its vacation in the winter; so the *Sewanee Times* will be missed until April.

The last number of *Nowitzky's Monthly*, published by G. I. Nowitzky, the well-known maker of patent medicines, contains as its leading editorial, a very patriotic and enthusiastic article on our University. We hope to see the suggestions it sets forth adopted by our present Legislature.

An example of what is possible in the way of journalism at female schools is the *Voices of Peace*, published by the literary society of Peace Institute, Raleigh, N. C. From a four paged newspaper that appeared semi-occasionally, it has grown to be a full fledged magazine neatly bound and well edited. We hope the change is permanent and wish it success.

A Wonderful Invention.

Zoology teaches us that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the Singeing Machine, which removes the hair and at the same time closes up the hollow causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying and giving it a soft life growth.

Call and examine this machine and have your hair singed.

Special attention given to dressing Ladies hair. Cutting hair done with exquisite and artistic skill by the old University Barber of twenty years experience.

The Singeing Machine is highly recommended by scientists throughout the country.

Very respectfully,
T. D. DUNSTON,
