All over the Country.

Yale's income from athletics last year amounted to \$61,486.71.

W. O. Hickok, '95 S., has thus far attained the highest standard of physical measurement ever made at Yale.

At Dartmouth, an annual prize of \$60 is given to the member of the athletic team who stands highest in his classes.

Garnett Nelson, Virginia's crack pitcher of last year, was elected captain this year but has declined.

The new "Franklin Field" at Pennsylvania will be a model of its kind. It will contain besides the foot ball field, which also will be used for base ball and cricket, tennis courts, a running track, a practice hall and rowing track. The stands will seat 10,000 people.

Out of eighteen of the principal colleges in the north and west, for the last few years, 1,112 men played foot-ball. Of these sixty-five were disabled for one week, ten were temporarily disabled, and one was permanently injured. We doubt if any other branch of athletics could make so good a showing as to disabilities.

Miss Chalmers predicted an excellent future for Browning and sent us away with hopes, bright and joyful.—*Exchange.*

Somebody ought to write to the "sweet girl Sophomore" and gently break the news that Browning is supposed to have died some years ago.

"Merely as a new experience, Wendell," said the Boston young woman, blushing faintly and wiping her lips. "I find it not disagreeable, but do not let it happen again. It is utterly illogical, irrelevant, and recent scientific investigation shows that it is fraught with microbes.

It seems the foolhardy young man had kissed her.—*N. Y. World.*

She went to the play with pleasure;
She left in wild despair
Her hat was wide wide, but the football man
Was there with his uncut hair.
—*Chicago Inter-Ocean.*

Evidently the members are not doing their duty. Now, they may severally have their private reasons for doing nothing but we venture to say that there is no reason why they should not have made some manifestation of their existence. We think it no more than right that the men of the committee which has things in charge should either do something or resign in favor of some who will do the work required of them.—*Red and Black.*

The above is an excerpt from an article concerning the inaction of Executive committee of the Athletic Association of the University of Georgia. The writer of it speaks to the point, and he don't stutter either. We congratulate him, and will emulate his example as soon as we can ascertain whether our Association really has such a thing as an Executive Committee.

A Wonderful Invention.

Zoology teaches us that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the Singeing Machine, which removes the hair and at the same time closes up the hollow causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying and giving it a soft life growth.

Call and examine this machine and have your hair singed.

Special attention given to dressing Ladies hair. Cutting hair done with exquisite and artistic skill by the old University Barber of twenty years experience.

The Singeing Machine is highly recommended by scientists throughout the country.

Very respectfully,
T. D. DUNSTON,
Professor of Tonsorial Art.
