### To our Patrons.

The TAR HEEL has begun its life this year under very discouraging circumstances. A considerable debt has been contracted, which, by careful management and loyal support we hope to liquidate during the coming year.

To the body of students mainly we look for this support. The question naturally arises, will this support be forthcoming? To state the matter differently, will the men promptly pay their pledges, both new and old, or will they allow the TAR HEEL to go to the wall through negligence and want of support? These are the questions which now confront the board of editors. Collections must be made now, at the beginning of the year, in order that the running expenses of the paper may be met promptly. The present management proposes to run the paper on strictly business principles, or else abandon the thing entirely.

The Business Manager, or his assistant will see you all within the week, and unless the outlook is encouraging rest assured the paper will be discontinued at once. We desire to give you a college weekly equal to any but we don't propose to continue the publication of the paper without any guarantee, thereby running the risk of increasing the debt which looks formidable enough at present.

Shall the TAR HEEL prosper or shall it be discontinued? Shall the University acknowledge her inability to support her paper, or shall we all come to its support and help make it the peer of any college publication?

These are questions for each man to answer for himself, and upon your answer the future welfare of the TAR HEEL will depend. Say what you will, discuss it as long as you please, it, nevertheless, resolves itself into a mere matter of loyalty and manhood, and as such we submit it to you.
