New Postmaster

The term of office of our present postmaster, Mr. Kirkland, has expired, and on Wednesday the name of Capt. W. N. Pritchard was sent in to the Senate. There is no doubt but that this appointment will be confirmed and that he will be Mr. Kirkland's successor.

Mr. Kirkland has made an efficient and obliging postmaster, and is much liked by the students, who will miss his cheerful countenance which they have been accustomed to see so long in the window of our little office.

We are glad to learn that the '96 *Hellenian* is now being prepared and will be issued sometime during April.

The editors began work on it last term, and thus have had more time for careful preparation of the matter than in former years, when the work was rushed through in a few weeks during the last part of the term.

Mr. McAlister is proving himself to be a very efficient editor-in-chief, and with the present editorial board will doubtless produce an annual worthy of themselves and the University which it represents.

Let every student show his appreciation by subscribing to it and thus materially aiding in a very important way.

The Alpha Theta Phi society held its regular meeting for the initiation of new members last Saturday. Messrs. Burton Craige, R. H. Graves, J. Solon Williams, W. B. Ferguson, Jr., A. T. Allen, Herbert McNairy and A. H. Robbins were initiated. These students have all made the requisite grades in scholarship, and an average of "two" for the first two and a half years of college work, and are according to the constitution members of the society. The purpose of the society is thus to promote sound scholarship by setting before the student an honor which he may strive for as the assurance of his high standing and satisfactory work.

A recent pupil in the art of roller skating has a feeling of deepest sympathy for the man of whom it is said, that, "His limbs seem to act upon different and contradictory principles. They were not as the play says, in a concatenation accordingly; the right hand moved as if it were on bad terms with the left, and the legs showed an inclination to foot it, in different and opposite directions. In short to use an extravagant comparison, the members seemed to resemble the disputatious representatives of a federative congress, than the well ordered union of the of the orders of the state, in a firm and well compacted monarchy, where each holds his own place, and all obey the dictates of a common head."
