The Glee, Mandolin and Banjo Clubs are soon to start on the annual tour. The management this year is in charge of Mr. Bellamy of Wilmington.

Messrs., E. P. Carr '96, Walter Woodson '96 B. E. Stanley '96 Adolphus Mangum '97, Bynum Glenn '97 have been initiated into the order of Theta Nu Epsilon.

We are sorry to lose Mr. Eller from the staff of the TARHEEL.

Mr. Eller has been elected one of the debaters to represent us in the debate with Virginia and this, together with his other college duties has obliged him to give up his position on the paper.

We are glad to learn from Mr. Pickard that his Hotel is becoming a popular resort for northern visitors.

He has at present several from New York and other places. Our village is very healthy and could be made a popular resort were the accommodation sufficient.

The protracted services which began at the Presbyterian church are still in session. The meeting will be continued as long as enough interest is manifested by the students and towns people. Dr. Morton says the principle reason for his coming to Chapel Hill was for the good of the University students.

We should attend as much as our work will permit.

**The Medical Course.**

We hear with pleasure that an effort is being made to lengthen our Medical course from one year to two.

This is a move in the right direction and we hope that it may be successful. As the medical course now stands it is a preparatory school of medicine. Nor is it the purpose of the Medical Faculty to change this for they recognize that the granting of the degree of Doctor of Medicine after a course of only two years is not in accordance with the grave responsibility and hard study that awaits the physician. But while all recognize that, in this as well as other studies of major importance two years will not suffice, many of the sons of the University are unable to undergo the expense of a four years course at a Northern college of good standing. So we hope that the course may be lengthened and accepted as the first two years at the four year colleges, thus enabling more of our poorer boys to pursue the study of Medicine.
