The Phi Society is having its hall painted at last, and it will be in nice condition by the time of Commencement. A movement to this effect was made a year ago, but could not be perfected. The work is being done at a considerable expense and by one of the best painters in the State.

Dr. R. H. Whitehead attended the State Medical Convention at Winston during the past week. We are glad to announce that the Doctor was elected to the Board of Examiners. We believe that he is to have the branch of anatomy.

The invitations to the Normal and Industrial School Commencement are as usual neat and tasty, avoiding any useless display. We are quite sure that the coming Commencement will be the best in its history.

**Reception at the "Gym."**

On Wednesday evening, May the 14th, the local circle of The King's Daughters gave a reception to the Secretary, Mrs. Davis, and other visiting delegates, in Gymnasium Hall. The hall was beautifully and tastefully decorated in evergreens and the occasion was rendered more pleasant by the nicely rendered selections of the University Mandolin Club.

The guests of the evening were the Faculty and Y. M. C. A. of the University, who responded in numbers to the invitation and who pronounced it thoroughly enjoyable and paid many compliments to the fair beauty of the State which was assembled there. "No wonder," said one, "that The King's Daughters do so much good if they always go about it as nicely as this."

The company dispersed to their homes after having enjoyed a delightful evening.

**The Philosophical Club.**

The last meeting of the Philosophical Club was held on Tuesday night, the fifth inst. As no one of the present officers will be back next year, the Club elected Mr. R. H. Wright Chairman pro. tem. till the regular election of officers next October. The subject for the evening was "The sphere of the Individual."

The subject of Mr. Allsbrook's paper was "The Individual in the State World." The State is the organized community of interests of individual, an organic brotherhood.

Mr. Eller read a paper on "The Individual in the Moral World." Morality is the recognition that each individual is real and therefore has rights of his own. It involves the egoism and altruism. The moral world is inclusive of the state world.

This was the best meeting of the year. The subject was better treated and discussed. There has been an advance step made by our more serious. We predict useful and stimulating work from the Club next session. Its archives are already valuable.

Wellesley college has recently received a donation of \$150,000 to found a chair in mathematics.
