Changes in the Foot-ball Rules.

[Continued from first page.]

concentrated push-work.

There are a few other changes to which attention should be directed. One of these is that on a fair catch the opponents must retire ten yards back from the mark of the catcher. This is like the rule of the Harvard-Pennsylvania-Cornell code, and is a wise provision, placing more of a premium upon making fair catches. The rule regarding interference with the man snapping the ball back has been made a little more stringent, and the referee will see that the ball is fairly put in play and also that the opponents do not interfere with either the ball or the man. For a few seasons they have kept their hands off the ball and have jostled and annoyed the man. This season this, too, will be forbidden.

It had also become imperative, owing to the increased practice and importance of quarter-back kicking, to establish some rule as to what kind of a kick was to be interpreted as giving the opponents fair and equal chance at the ball. This has been attended to by a ruling that the ball must pass beyond the line of the scrimmage.

The majority of other changes are not of a nature to affect the play in any way.

Items of Interest About Foot-ball.

Capt. Whitaker tells us that his lame arm is much improved, and it will now be only a short time before he is at his old place at "full" encouraging and instructing the players.

The schedule of games has not yet been arranged; but we can say that we will have a game on our own grounds, Saturday, Oct. 10, with Guilford College.

Let everybody turn out and see the first game of the season. There is nothing like starting the team off right. Give them a big crowd, start the enthusiasm, and they will keep it up till the end of the season.

The scrub team will play the Wilmington Athletic Association during the first week in November. In addition to this nearly all the scrubs will be taken to Richmond to see the Thanksgiving game. This is indeed a right move in the right direction.

The adage that all work and no play makes Jack a dull boy is as true of foot-ball as anything else. Give the scrubs some reward for their work and they will work as diligently as anybody.

A Wonderful Invention

Zoology teaches that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the Singeing Machine, which removes the hair and at the same time closes up the hollow, causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying, and giving it a soft growth.

Call and examine this machine and have your hair singed.

Special attention given to dressing Ladies' hair. Cutting done with exquisite and artistic skill by the old University Barber of twenty years' experience.

The singeing machine is highly recommended by scientists throughout the country.

Very Respectfully,
T. D. DUNSTAN,
Professor of Tonsorial Art.
