College Notes.

Virginia recently defeated St. Albans by a score of 6 to 0.

Vanderbilt offers a gold medal for excellence in gymnasium work.

The total registration in all departments this year at Yale is 2,383, as compared with 2,383 last year.

It is said that Osgood, Pennsylvania's famous half back, was killed recently in Cuba while leading a patriot charge.

Cambridge University, England, has recently passed statutes by which the University may deprive a graduate of his degree in case of misconduct.

College Topics continues to cry out for a game with Georgia. She evidently thinks that all would be plain sailing were the meeting arranged. Our Georgia friends may surprise them.

The time allowed to the naval cadets for their foot ball practice is about one hour each day. Their field is very small and has to be lighted by electricity to obtain sufficient light to play.

The subject chosen for the Harvard-Princeton debate is "Resolved That assuming the adoption of adequate Constitutional amendments, the United States should adopt a system of responsible government."

An effort is being made to found a California State University. Provided the State give \$500,000 the sum of \$4,000,000 has been promised by prominent citizens for the erection of certain suitable buildings. Mrs. Hearst, a donor of the fund, has offered to furnish the means to obtain plans by international competition. One of the buildings is to be a memorial of Senator Hearst.

On the Campus.

The Library is now open on Sundays, between 2:15 and 4:15 P. M.

The latest addition to the football circles is Tobias Connor, applicant for the '97 team.

The practice of the bicyclists in riding to and from the mall at night is not only annoying to those on foot but positively dangerous. The walk is so dark that it is impossible to see further than a foot ahead and it puts a man in a bad humor to have someone constantly screaming in his ear to look out. Besides it would not be very burdensome to walk down town once a day.

After a more or less vigorous existence of one week, the University Press Club seems to have lapsed into a state of innocuous desuetude. This should not be. It is a very necessary thing to keep the University before the people through the State papers and the most effective way to bring about this result is by organized effort.

In looking over the various college publications we notice frequent and prominent mention of the Press Clubs. We should get some good work from ours.

Our work is not in vain. President Alderman assures us that both reading room and library will be lighted with electricity, and the latter kept open at night, as soon as arrangements can be made. The TAR HEEL has the interest of the student body at heart and will advocate other necessary changes later on.

The TAR HEEL is glad to see that the western portion of Cameron Avenue is being improved. The low places on either side will soon be filled up and well drained, and then we shall be able to find the west gate without a ferry-boat.

A Wonderful Invention

Zoology teaches that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties. I have a Machine named the **Singing Machine**, which removes the hair and at the same time closes up the hollow, causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying, and giving it a soft growth. Call and examine this machine and have your hair singed. Special attention given to dressing Ladies' hair. Cutting done with exquisite and artistic skill by the old University Barber of twenty years' experience. The singing machine is highly recommended by scientists throughout the country. Very Respectfully,
T. D. DUNSTAN,
Professor of Tonsorial Art.
