Y. M. C. A. Building.

Over \$10,000 now Subscribed.

We take pleasure in announcing to all who are interested in the success of the movement, that \$10,117.50 has been subscribed toward our Y. M. C. A. Building; the fund having increased \$757 in the past 30 days.

According to the pledges, \$2,529 is now due. The call of the Committee for the first one-fourth is meeting with a hearty response, as indicated by the payments already made. Every effort will be exerted to raise the fund to \$20,000 before January 1st, 1898, as this is the amount originally designated as sufficient to erect a building worthy of our organization, and of the University of which it is a part.

For the information of those who have subscribed, we publish a copy of the pledge.

I agree to pay the Treasurer of the Building Fund of the Y. M. C. A. dollars. Same to be paid in four equal annual payments, —25 per cent. when \$10,000 has been subscribed, 25 per cent. in 12 months, 25 per cent. in 24 months, 25 per cent. in 36 months, from time of first payment.

(Signed)

THE COMMITTEE.

The Co-operative Society.

There has been quite a good deal of discussion among the friends of the Co-op. as to whether the Utley Bill, passed in the last Legislature will affect this enterprise, and if it does, what can be done to secure a continuance of this helpful institution.

It does not appear that the Utley Bill will in any way interfere with the Co-op., as it is a student's organization; yet, the maintenance or discontinuance of it should receive careful consideration at the hands of the students, since some of those who have done most during the past two years to keep it up and make it a help to the students, may not be here next year.

A Wonderful Invention

Zoology teaches that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the **Singeing Machine**, which removes the hair and at the same time closes up the hollow, causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying, and giving it a soft growth.

Call and examine this machine and have your hair singed.

Special attention given to dressing Ladies' hair. Cutting done with exquisite and artistic skill by the old University Barber of twenty years' experience.

The singeing machine is highly recommended by scientists throughout the country.

Very Respectfully,
T. D. DUNSTAN,
Professor of Tonsorial Art.

Has it been worth the effort necessary to keep it up? And do the students want to see it continued in the future? If so, there must be some of the students who are willing to exert themselves a little and not simply wait to be benefited by what others may do for it.

Philological Club.

The Philological Club will meet in the English lecture-room on Tuesday evening, March 30, at half past seven o'clock.

The following papers will be read:—

Some Reasons for the Amalgamation of the Optative and Subjunctive in Latin. Mr. Linscott.

Puns and Pronunciation in Shakespeare. Mr. Hume.

Studies in the Diction of the Roman Elegiac Poets. Mr. Harrington.

A Character-sketch from Götz von Berlichingen. Mr. Toy.

Inter-Society Debate.

The regular annual Inter-Society Debate was held in the Philanthropic Hall on Friday night. Quite a large audience was present, and all agreed that the debate was of first class order.

The Query was:—"Resolved, that barring constitutional objection, an Income Tax should be incorporated into our Federal System of Taxation."

Messrs. Edward Kidder Graham and Theodore Franklin Klutz represented the Di Society on the affirmative. Messrs Willis G. Brogden and Sylvester Brown Shepherd, of the Phi, were on the negative.

Both sides were well upheld by their respective supporters. The committee decided for the affirmative.

The University Press Company has purchased a new supply of large poster type, which has been long needed. Posters for the Virginia game were printed from it.
