## W. N. Pritchard, GENERAL MERCHANDISE.

Shoes, Hardware and Farming Implements a specialty.

### RESERVED FOR PROCTOR & CO., Durham, N. C.

Watch their Ad. in Next Issue.

### The Elisha Mitchell Scientific Society.

The society held its regular monthly meeting last Tuesday evening, January 11th at 7:15 P. M. The first paper was read by Dr. F. P. Venable, subject, A new drying bath. He proposes to make use of a heavy glass perforated bell jar placed upon a sand-bath, and to substitute this for the common air-bath of copper. This is a great improvement is a very necessary piece of apparatus for the Chemical Laboratory. It has the particular advantage of permitting observations of every thing that is going on.

The second paper of the evening was read by Prof. J. A. Holmes on "The Volcanic Rocks of the North West. He gave a succinct account of a six month geological trip over Western United States.

The interesting fact that over 150000 square miles of our western territory is covered by numerous layers of volcanic material was brought out.

The famous Black lands of Dakota the great wheat growing section of America are the result of the decomposition of this material.

Many specimens collected from the localities visited were exhibited and an interesting account, also of Geological conditions prevailing in Yellow Stone park was given.

The spring term opened with 31 new students. This brings the roll up to 498. It is very probable that the 500 mark will be reached in a day or so. This is the number of students actually in the University since Sept. 4th. Counting the summer school the roll will reach nearly 700. Leaving that out, the number is the highest in the history of the University.

### TO THE Faculty and Student Body OF THE University of N. C.

You are cordially invited to call on our representatives, Mess.  
N. C. Long & Bro. for

## CLOTHING AND Gent's Furnishings.

Custom-Made Suits a Specialty, with two large line samples to select on.

When in Durham, make our Store your headquarters.

T. J. LAMBE,

The Clothier and Gent's Furnisher,  
Durham, N. C.

## A Wonderful Invention.

Zoology teaches that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the Singeing Machine, which removes the hair and at the same time closes up the hollow, causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying, and giving it a soft growth.

Call and examine this machine and have your hair singed.  
Special attention given to dressing Ladies' hair. Cutting done with exquisite and artistic skill by the old University Barber of twenty years' experience.

The singeing machine is highly recommended by scientists throughout the country.  
Very Respectfully,  
T. D. DUNSTAN,  
Professor of Tonsorial Art.

### Exchanges.

Dr. Winston and family will leave for North Carolina some time this week.

There are 18,000,000 pupils attending educational institutions in the United States.

The Olive and Blue has succeeded College Spirit, which was the only southern college daily.

Olerlin College, Ohio, was the first college in the United States to admit female students.

President McKinley will deliver an oration at the University of Pennsylvania on February 22.

Yale University has a Japanese woman enrolled as a student. She is studying Music and English.

At a country school in Kansas the father, mother and two oldest children of a family are in the same class.

R. R. Gailey, centre of the '96 Princeton Foot Ball Team, is at present engaged in a tour of the world in the interests of the Y. M. C. A.

There is a college at Rio Janeiro, Brazil, at which the Freshmen are made to wear blue shirts, and are forced to say "Sir" to the higher classmen.

Rutgers has permanently adopted the plan of leaving matters of college discipline to a student committee. The president of the college votes only in case of a tie.

Prof. Gates, of the Smithsonian Institute, has made the startling statement that all crime will eventually be stopped by Science. He thinks that if a man has a desire for stealing or murder, his brain may be cut and the portion containing this desire taken out.
