## A Wonderful Invention.

Zoology teaches that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the **Singeing Machine**, which removes the hair and at the same time closes up the hollow, causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying, and giving it a soft growth.

Call and examine this machine and have your hair singed.

Special attention given to dressing Ladies' hair. Cutting done with exquisite and artistic skill by the old University Barber of twenty years' experience.

The singeing machine is highly recommended by scientists throughout the country.

Very Respectfully,  
T. D. DUNSTAN,  
Professor of Tonsorial Art.

Princeton, alone of the colleges, has the honor of a war vessel bearing her name. The gun boat Princeton, will be launched in a few months.

### MY LOVE.

I have sought thee oft when my blood was hot,  
My month hath met thine in one long, long kiss,  
In my arms, at times, found peace and quiet;  
In thy presence sweet forgetfulness.  
The strength of my love is more than human,  
Thou inspirest me, I know no fear,  
How could I live without thee, loved one?  
Thou'rt mine, thou'rt mine—my bottle of beer!
