A Wonderful Invention.

Zoology teaches that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the *Singeing Machine*, which removes the hair and at the same time closes up the hollow, causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying, and giving it a soft growth.

Call and examine this machine and have your hair singed.

Special attention given to dressing Ladies' hair. Cutting done with exquisite and artist's skill by the old University Barber of twenty years' experience.

The singeing machine is highly recommended by scientists throughout the country.

Very Respectfully,
T. D. DUNSTAN
Professor of Tonsorial Art.

GO TO THE CO-OP AND you will find shoes, hats, shirts, and all

kinds of gent's

Furnishing Goods
the best and cheapest on the market. We furnish a large line for you to select from. You can get what you want.
