Mr. W. S. Wilson went to Greensboro last Friday in the interest of the *MAGAZINE*. He paid his respects to the Normal-on business of course?

**A Question of Happiness.**

The most important and difficult questions in the life of a student is that of food. How to secure food in plenty, properly prepared, and in the necessary variety is the question.

In a village with no market the difficulties are of course increased. After considering the matter carefully we submit the following to those interested, as a hopeful plan.

Let the men who are congenial form a table at Commons. Appoint one of the men to manage the table. Let it be the duty of the manager to provide for a proper variety in the food. Supply him with the money and tell him what you wish and when you wish it.

With proper notice, the matron at commons will buy anything in the world for you. And you get it at a slight advance upon the actual cost of the article. About 12 1/2 per cent covers the entire cost to you. How will this do?

In addition to the regular fare you order:

Three times a week, broiled chicken; twice a week ice cream; four times a week, eggs; four times a week cod fish; twice a week oysters; seven times a week fruit.

These orders can be filled for a table of ten for about forty dollars a month. This would be four dollars each.

Thus the board would cost eight dollars for tickets and four dollars for extras.

We hear it said on all sides that Commons is giving the best board in Chapel Hill. Add to this something like the above list of extras, and we have a bill of fare upon which our students can work, thrive and be happy.

We suggest that some enterprising student look into the matter.
