## MARCHING THROUGH GEORGIA.

**Georgia Suffers a Crushing Defeat in Macon. Score, Northern Rules, Carolina 53, Georgia 0. S. I. A. A. Rules, Carolina 44, Georgia 0.**

### GAME A SURPRISE TO BOTH TEAMS.

**Carolina's Interference Faultless. Terrible Rushing of Her Backs. Long Gains. Sensational Run by Howell. Superb Defensive Play. Magnificent Offensive Work.**

The game in Macon last Saturday was a thorough surprise to all. While confident of winning by a decisive score, yet Carolina's most sanguine hopes anticipated no such glorious victory as her gallant sons won for her. Their dash and vim fairly took away the Georgian's breath. They had never before seen such foot ball. Trotting out on the field full of confidence, it was a rude shock to them when they dashed their heads against what seemed an invincible line. Then when the terrible, short and quick rushes of Carolina's backs carried the ball over the goal line after only a few minutes of play the Georgian's stood fairly stunned. Never during the entire contest did they have the slightest hopes of winning.

There were no stars for Carolina. The team worked so like a clock that to choose anyone man from the midst would break up the entire plays. Twenty, thirty and even forty yards at a rush were common, so much so that Howell seemed to be doing nothing more than he ought to do when he made that brilliant 55 yard dash for a touchdown. Carolina on her defensive was perfect so much so that on her every third down Georgia was compelled to kick. The men stuck together so fast that Georgia's backs could find no holes through which to carry the pigskin. As for her offensive play the fact that Carolina was not held for three downs at anytime during the game speaks louder than words.

A good crowd was out to witness the contest. The day was perfect and by the Carolina constituency was thoroughly enjoyed.

Shull is tired and McIver takes his place.

Martin captures the ball. By repeated rushes and a run of 30 yards by Howell, Carolina frees her goal from danger. Graves punts 32 yards and time is called with ball in the center of the field.

#### Elisha Mitchell Scientific Society.

At 7:00 P. M. last Tuesday evening the 118th. meeting of the Elisha Mitchell Scientific Society was called to order by the President in the Chemical Lecture room. In spite of the intense excitement over the election returns a large and appreciative audience was present. The first paper of the evening was read by Dr Thos. Clarke on "The Chemistry and Physics of Taste and Smell." He showed that this subject of taste had not been expetimented on till quite recently. He gave a synopsis of two recent papers giving tests with acids, alkalies, etc., at various degrees of dilution on the taste of 15 healthy people. Any body to be tasted must be soluble. He showed that metals if perfectly clean do not give an odor, but do if handled or rubbed with certain chemicals. The paper was interesting and much enjoyed.

Dr. Wilson then read a paper on "Conant on the Cumbomedusae."

Cumbomedusae are very rare, a few being found near Beaufort N. C. Johns Hopkins sent an expedition to Jamaica where the Cumbomedusae are found near the surface. They are found elsewhere on the bottom. Conant of the party contracted fever from which he died. In his thesis for a degree from Johns Hopkins he gives a discription of the common Medusa. Cumbomedusae are not like the common adult Medusa, but like the younger one as to stomach. They differ from all other jelly fish, having different nervous systems. The eyes are more developed than the others and look inside.

There being no other business before the society the President declared it adjourned.
