At the third meeting of the So-If an injustice. From their halls back to work when it is gone. ive gone out the men who have ade the State.

Mr. E. V. Patterson, '99, spent a few days on the Hill lost week beore entering Harvard University.

Mr. A. C. Miller, '99, and C. L. lenn, '01, were on the Hill a few ours during registration days. hey will both enter the Business ollege at Poughkeepsie.

The prospects for a good team at rinceton, seem to be very bright illy Lea who has been chosen as head ach for the Tiger candidates arrived Princeton on last Saturday. Many laces of those that have left." On ast Saturday fifty-five men were on the field in foot ball uniforms.

Dr. Phillips' Lecture.

Friday evening the students of he University had the pleasure of aring an informal talk about a recent trip to Cuba by Dr. William B. Phillips, formerly a member of the University faculty and at present a mining engineer residing at Pittsburg, Pa. Gerrard Hall was well filled when President Alderman introduced the speaker of the evening. · After indulging in some amusing pleasantries, Dr. Phillips said that he went to Cuba for the purpose of looking after some mining and railroad interests, visiting the Province of Santiago, which is the great mining section of the island.

"Manganese ore is a very valuable product of these mines. There are but few deposits of the ore found in the world. The only rivals of the Cuban deposits are in the United States of Columbia. The Cuban mines are at present suffering on account of the removal of the Spaniards. The Cubans will not work two days in succession. The miners live in large shacks made of bamboo and thatched with palm leaves. Their food is mainly bread and cod-fish. It is precisely this Harding Davis describes and deals with under the name of a South Picture Frames, Mirrors, American country in his 'Soldiers Repairs and Upholstering. of Fortune.' "

"Railroading in Cuba is accomplished under difficaties. I was on one train where ting engine had to

> "The children in that country dress neatly, their clothes fit extraordinarily well. Up to the ages of 12 and 14 they wear what in that country is known as a birth-day

"Gen. Leonard Wood has made an excellent Military Governor of the eastern part of the island He has cleared away the accountlated filth of some centuries o Spanish rule. In Santiago he has exhumed streets which the oldest inhabitant had never seen. He has swept, cleaned, whitewashed and disinfected it until it smells to high the old men are back and there is heaven and is as bright as a pin lenty of new material to take the The streets are cleaned daily. The Spaniards and Cubans stand around and watch the operations with wonder."

> The speaker next told of his visit to the battle-fields. Where the recent unpleasantness was in evidence. "After everything is over," he said, is the best time to visit a battlefield." The position at San Juan Hill is unusually strong, and if any but Spaniards had held it we could not have taken it without losing 10,000 men. We owe its capture and the fall of Santiago to the negro troops of the 7th Cavalry, U.S. A. All this talk about the Rough Riders is poppy-cock and tommy-rot. But for those negroes the Rough Riders would have been annihilated and the 71st New York would never have gotten home. I was not there but I have talked with many volunteers and regulars. Their unanimous verdict was that the negro troops captured San Juan Hill."

Although there was a noticeable lack of plan and logical sequence about Dr. Phillips' talk, yet it was thoroughly enjoyed. In an informal way he said many amusing and instructive things.
