

THE TAR HEEL.

Vol. 12,

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C. THURSDAY, FEBRUARY 11, 1904.

No. 12.

OFFICIAL ORGAN OF THE UNIVERSITY OF NORTH CAROLINA ATHLETIC ASSOCIATION.

DR. BANCROFT LECTURES.

The Eminent Cornell Professor Speaks to the Scientific Students.

On Friday night Dr. Bancroft, of Cornell, lectured in the Chemistry lecture room to the scientific students of the University. Dr. Baskerville, in introducing the speaker, called attention to his wide reputation as a scientist, and spoke of him as the leading physical chemist of America.

The subject of Dr. Bancroft's lecture was "The Relation of Chemistry to the Other Sciences." The other sciences considered were Physics, Engineering, Geology, Physiology, Botany and Medicine. The speaker spoke of the relation of Chemistry to each of these, and illustrated these relations by certain problems met with by other scientists, which can be settled only by the chemist.

In concluding Dr. Bancroft said that the sciences, instead of tending toward a large number of isolated facts, as is often supposed, are really becoming more unified. There has been this tendency, it is true; but from the various facts thus obtained, the scientist is coming to derive general underlying laws. What were once thought separate facts are now seen to be interrelated and conformable to certain general principles. So that instead of the future scientist's being informed only in his particular branch of a particular science, he will and must have a general view of the whole field of science.

Virginia Schedule.

March 12, Woodbury, Charlottesville.
March 15, Locust Dale, Charlottesville.
March 22, St. Albans, Charlottesville.
March 25, Brown, Charlottesville.
March 28, Trinity, Charlottesville.
March 29, St. Johns, Charlottesville.
March 31, Open.
April 2, Yale, Norfolk.
April 4, Yale, Charlottesville.
April 5, Lehigh, Charlottesville.
April 6, Pennsylvania, Charlottesville.
April 9, Cornell, Charlottesville.
April 12, Hampden-Sidney, Charlottesville.
April 15, Washington and Lee, Charlottesville.
April 16, Naval Cadets, Annapolis.
April 18, Harvard, Washington, D. C.
April 22, North Carolina, Chapel Hill, N. C.
April 23, North Carolina, Greensboro.
April 30, Open.
May 9, North Carolina, Charlottesville.
Late in the season the team will go to Atlanta and later to St. Louis. Many important games will be played on these trips.

Gimghoul Banquet.

The Order of Gimghouls gave a banquet in honor of the visting young ladies last Friday down at their lodge in the woods. Those present were:

C. M. Carr with Miss Boyden, of Salisbury; A. Cox with Miss Maud Battle, of Warrenton; F. A. Cox with Miss Flynn, of Columbia, S. C.; G. Berkeley with Miss McNeely, of Salisbury; M. C. Staton with Miss Barringer, of Charlottesville, Va.; G. H. Kenan with Miss Bridgers, of Tarboro; W. L. Sheep with Miss Moore, of Washington; H. McMullan with Miss Wood, of Edenton; H. McR. Jones with Miss Venable, of Chapel Hill; H. V. Worth with Miss Nash, of Tarboro; J. H. Winston with Miss Flynn, of Columbia; H. Skinner with Miss Capehart, of Edenton; Mr. Bernard with Miss Flynn, of Columbia; Dr. Ruffin with Miss Placide Bridgers, of Tarboro; Prof. Howell with Miss Alexander, of Chapel Hill.

Chaperones: Dr. and Mrs. Henderson, Dr. and Mrs. Mangum, Mrs. Howe and Mrs. Alexander.

Sewanee Versus Carolina.

It was stated yesterday in the Vanderbilt notes in the Banner that the University of North Carolina defeated Sewanee in 1900. An investigation of the record shows that this was an error, as the two teams played to a standstill in Atlanta that year, the score being 0 to 0. They also played 0 to 0 in 1895. Their next game was in 1897, when North Carolina won by 12 to 6. In 1899 Sewanee won by 5 to 0. They have not played since the tie of 1900. From this it can be seen that North Carolina, which has a great reputation because of her defeat of Virginia on Thanksgiving, has not been such a terror to Tennessee colleges as might be supposed.

—Nashville Banner.

Meeting of Historical Society.

The Historical Society met in the History lecture room last Monday evening at 7 o'clock, Dr. Battle presiding. The following papers were presented:

Mr. R. G. Lewis—"Social Life in England in the Time of William of Orange."

Mr. William Dunn—"The Battle of Sharpsburg, Pa., or Antietam."

Dr. Kemp P. Battle—"The Colony of Transylvania." The paper presented by Dr. Battle was a continuation of the same paper presented by him at the last meeting, a month ago.

The programme was interesting and instructing throughout, presenting some new ideas. It was highly enjoyed by the members of the society.

It is well to make hay while the sun shines, but if the sun should shine all the time you would never make hay.—*Lariat*.

The Lemmert Cup.

The Athletic Advisory Committee, which met the other day to decide as to the disposition of the Lemmert Cup, drew up the following resolutions and conditions as follows below. A copy of these resolutions have already been sent to Mr. Lemmert, and it is thought that the conditions in regard to the giving of the cup will accord with his wishes.

The committee decided that the Lemmert Cup shall be offered in the following way:

1. The cup shall be offered for the purpose of creating interest and a spirit of rivalry in track athletics.

2. It shall be contended for in a contest between the classes on Field Day.

3. Each year the class team making the best record shall have its name and the date engraved upon the cup and shall possess the cup for that year.

4. The cup shall remain in the University and be displayed in the trophy room or some conspicuous place.

5. The contest shall be held under the supervision of the director of track athletics.

6. The expense of engraving shall be borne by the Athletic Association of the University.

University of North Carolina,

Chapel Hill, N. C.,

Jan. 28, 1904.

Mr. John R. Lemmert,

Baltimore, Maryland.

Dear Sir:—

We, the undersigned committee, beg to present the following resolution in behalf of the Athletic Association of the University:

Resolved, That we deeply appreciate the interest shown by Mr. John R. Lemmert in the athletics of the University;

That a note of thanks be tendered him by the association for his generous and timely gift of the Lemmert Cup.

That a copy of these resolutions be published in The Tar Heel and a copy sent to Mr. Lemmert.

A. H. Johnston,

R. S. Stewart,

S. S. Robins,

H. V. Worth,

Committee.

Georgia's Debaters.

Athens, Ga., Feb. 10.—Alvin G. Golucke, of Crawfordville; William Patterson, of Columbus, and J. M. Hull, of Augusta, alternate, will represent the University of Georgia in the debate with the University of North Carolina next April.

The three young men were selected after a contest held last night before the committee of the University faculty.

—Atlanta Journal.

The English Club of Syracuse University is planning to produce Shakespeare's "King Lear" next March or April.

Real Worth of a College.

President McIver, of the Normal and Industrial, U. N. C. '81, outlines his conceptions of the real worth of a college as follows:

"The worth of a strong college to a student is not, as some suppose, the mere fact that it gives the opportunity to a student to perform systematic literary tasks assigned by teachers, or that it gives opportunity to work in laboratories and libraries. These are necessary and important, but the student's greatest advantage at college is the spiritual and mental atmosphere of the place. It is intangible but you can feel it. It cannot be measured, but its effect is everywhere manifest. The love of truth for truth's sake; the belief in equality before the law; the belief in fair play and the willingness to applaud an honest victor in every contest, whether on the athletic field or in the class room or in social life; the feeling of common responsibility; the habit of tolerance towards those with whom one does not entirely agree; the giving up of small rights for the sake of greater rights that are essential; the recognition of authority and the voluntary, dignified submission to it when the reason for the policy adopted by the authority is not apparent, the spirit of overlooking the blunders of others and of helping those who are weak; the contempt for idlers and shirkers; the love of one's fellow workers even though they be one's rivals; patience in toil; self-reliance; faith in human progress; confidence in right and belief in God—these are the characteristics of the atmosphere of a great and useful college. The young man or young woman who by association with faculty and fellow students becomes imbued with these principles gains what never can be secured in the same degree in the best homes or small schools, or anywhere else except in a college."

Elisha Mitchell Society.

The 152nd meeting of the Elisha Mitchell Scientific Society was held Tuesday evening. Dr. Coker gave an interesting account of Mendel's remarkable Law of Heredity, which is now creating so much discussion. Dr. Wilson in his paper on Incomplete Division in Vertebrae Animals showed how monsters can be produced simply by constricting the embryo. Some two headed turtles were exhibited. Prof. Cobb discussed the "Composition of Crystal Plain Sands in Relation to Distance from Existing Shore Lines."

President Abercrombie has invited Mr. William Jennings Bryan, the great Democratic leader, to make an address before the student body of the University some time during the latter part of this week. Mr. Bryan has accepted the invitation, and will probably come down from Birmingham about Thursday night.—*The Crimson-White, U. of Ala.*
