

THE LAWSON IS A WINNER

Everybody wants Lawson Carnations, the biggest and best pink. It will pay all lovers of flowers who haven't seen the Lawson to order a dozen or two just to see a "sure enough" Carnation—the one that "Tom Lawson" paid \$30.00 for when it was first introduced.

We have other flowers too. We make a speciality of Floral Designs and Wedding Flowers.

Washington's Birthday Exercises.

[Continued from first page.]

oppressed beyond further endurance; and the educated classes of France, like those of Russia, were arrayed against the existing government. Apparently all that is needed in Russia to repeat the scenes of the French Revolution is a Mirabeau to fire the enthusiasm of the people and a Napoleon to lead them to battle; but the result will be different, first because there is no Mirabeau or Napoleon in Russia to-day, and second, the attitude of the other nations is such as to reduce the disturbance to a mere civil war.

Russia's trouble began in 1812 when Napoleon entered Russia. When Russia saw that she could drive back this mighty foe it gave her confidence in herself and ever since she has been pushing out to greater possessions. This has been done at the expense of the government, and at the same time there has been a neglect of internal development. And now Russia is reaping the fruit of her policy.

Under the conditions existing in Russia it will be impossible for her to be victorious in the present war with Japan and thus extend her repudiated system of government farther East. Notwithstanding her inexhaustible supply of men she can not ultimately succeed where it is the individual personality and patriotism of the Japanese soldier fighting against the the crushed spirit of the Russian serf driven by the whip of his master. The greatest victory the Japanese people have won is neither the destruction of the Russian navy, nor the capture of Port Arthur, but they won the good will of all civilized nations when General Nogi allowed General Stoessel to return home in honor and to wear his sword, which sentiment was applauded by the whole Japanese people."
