

Remarks.

Dr. Venable spent Tuesday in Raleigh.

Dr. Pratt spent Friday of last week in Raleigh.

Disey Winston spent several days at his home in Wilson last week.

Branner Gilmer and Vonno Gudger spent several days in Raleigh last week.

J. Adam Wells who has been ill for several days is now able to be out again.

J. M. Umstead, Law of '04, of Durham, came over to hear the Taylor lecture.

At the last meeting of the Journal Club R. R. Reynolds was elected secretary and treasurer.

Mr. J. J. Parker has been selected scrub debater, from the Di Society, for the Georgia debate. He will no doubt do his work well.

Bill Pace, an old Carolina man, was on the Hill Monday and Tuesday. Mr. Pace is now engaged in the study of law at Wake Forest College.

Jack Donnelly spent Saturday and Sunday here. Mr. Doneely graduates in medicine at Raleigh this year in the University Medical Department.

Mr. James McRae, who has been teaching elementary Law during this year has severed his relations with the University. He goes to Wilmington where he will engage in the practice of his profession. His place here will be ably filled by Mr. E. D. Broadhurst.

The Shakespeare Club.

The most pleasant and profitable meeting of the year was held at Dr. Hume's residence Thursday evening. The features of the meeting were Dr. Hume's talk on the Old English Ballads, a paper on Hotspur, by Mr. Hubert Haywood, and Mr. Bagby's article on Hal.

The Football Coach Selected.

Mr. W. J. Warner of Cornell has been selected as football coach next year. Mr. Warner played on the Cornell team for four years and was captain of it during the last two years he played. In 1901 he was guard on Walter Camp's All American and was given the same position on Casper Whitney's in 1902. In 1903 he was head coach at Cornell. An epidemic of disease in that University, however, deprived him of most of his material and gave him little chance to distinguish himself. Last year he coached Sherman Institute, an Indian school at Riverside, Cal. The material was mostly new and there was little expectation for the team. He developed, however, a team that was considered the champion one of the Pacific coast. They won over Leland Stanford, University of Nevada, and University of Southern California.

Mr. Warner was very highly recommended and was selected in preference to five other excellent coaches whose names were under consideration. He has been engaged at a higher salary than the University has ever paid a football coach before.

Track Team.

The candidates for the track team have already begun work and every afternoon in the gymnasium from 3 to 4 o'clock practice is held under the supervision of instructor Brown. Captain Newton is taking a great deal of interest in the progress of the team, and he will without doubt have a record breaker this year. Among the candidates for the team are: Newton, Wilson, Curtis, Winborne, Perry, Story, Sifford, Reed, Singletary, Kenan, Gudger, Pittman, Jacocks, Johnson, and Jones.

Banquet at A. T. O. Hall.

A very delightful banquet was given in the Alpha Tau Omega hall last Thursday night after the Gingham dance, by Mr. D. A. Fowle. The banquet was in honor of Miss Annie Taylor of Pittsboro and Miss Isom of Chicago. The rooms of the hall were beautifully decorated and the banquet was thoroughly enjoyed by those present.

The attendants were as follows: Dr. and Mrs. Geo. Howe, Dr. and Mrs. J. H. Pratt, D. G. Fowle with Miss Lucy Andrews of Raleigh, N. C. Curtis with Miss Isom of Chicago, E. S. Nash of Wilmington with Miss Annie Taylor of Pittsboro, B. H. Bridgers with Miss Fowle of Chicago, H. McR. Jones with Miss Annie Cheshire of Raleigh, J. R. Moore with Miss Margaret Merrimon of Greensboro, Graham Kenan with Miss Mary Andrews of Raleigh. Stags: Messrs Cameron MacRae, J. C. MacRae, H. S. Lewis, H. L. Fry, J. E. Pogue, W. M. Wilson, J. T. Meades, H. Hill, J. D. Pemberton, and P. Pittman.

A Fellowship in Chemistry.

We are all doubtless glad to know that the department of chemistry continues to grow. A gentleman from the North, who does not care to have his name given to the public, but who recognizes the high grade of work being done here, lends a helping hand by the establishment of a fellowship. This fellowship consists of one hundred dollars a year and is to last for ten years. It is to be used in doing research work in technical chemistry. The conditions on which it is to be given are left to the instructors in this department. The accurate and thorough work in this department has been handicapped by the lack of a laboratory, but the new laboratory will increase the field and results greatly.

Washington and Lee's Debaters.

The U. of N. C. have selected their men to go against us in the coming debate and are looking forward to it with much interest. Our men have also been selected and they too expect the victory. We have no reason to doubt that we will not get it, either. Messrs. T. D. Sloan and W. F. Semple will represent us. They are expecting to represent us with all their powers of oratory and debate. We are sure they will. Not one moment will they idle while the debate is over them and when we win they will feel that it was worth while.—Ring-Tum-Phi.
