

LOCAL NOTES.

—Dr. and Mrs. George Howe entertained a number of their friends at dinner Friday night. Those who were present report a good time.

—Dr. F. P. Venable addressed a mass meeting of University students yesterday afternoon on the subject of athletics and athletic rules.

—President Venable will address the Elisha Mitchell Scientific Society next Tuesday evening at 7:00 o'clock in the chemical lecture room.

—Mr. C. J. Lilly, of Fayetteville, who has been visiting his father-in-law Judge MacRae for two months has returned home. Mr. Lilly was here for his health and has recuperated very much.

—At the regular meeting of the Philological Club Tuesday night, the following topics were discussed: "The Infatuation of Ruy Blas," by Dr. J. D. Bruner, and "Christian Names from the Greek," by Dr. Alexander.

—The facilities of the department of law are being very greatly increased. Many new books have been lately purchased and added to the law library, and a new room is being added to the headquarters of the department in the South building.

—The Seniors have elected as captain of their baseball team, Mr. Fred M. Crawford. Mr. W. L. Grimes has been elected manager of the same. Mr. A. C. Dalton has been chosen class statistician in place of Mr. J. S. Kerr, who has left college.

—The Chemical Journal Club met Monday night. The following papers were read: "Recent Progress in Industrial Chemistry"—Dr. Herty. "Flour Mill Explosions and Dangerous Dusts"—Mr. S. W. Dickson. "Application of Electrolytic Chlorine to Textile Bleaching"—Mr. W. A. Houck.

—Prof. Allman, of High Point, who has been so successful in conducting the dancing school for several past years has been secured again this year and will start a class the fifteenth of this month. All those desiring to take lessons are requested to see any of the Commencement ball managers as soon as possible.

—Dr. John Berry, a prominent doctor of Orange county, died of heart disease at his home in Chapel Hill Tuesday afternoon. Dr. Berry, who was about sixty years old, had retired from the practice of his profession a number of years ago. He leaves a widow, three daughters and one son, Mr. John Berry, Jr., of the second year medical class. The funeral took place yesterday afternoon and the interment was in the Chapel Hill cemetery.

—Mr. A. L. Rohrer, electrical superintendent of the General Elec-

tric Company's factory at Schenectady, New York, lectured to the students in physics and applied electricity in the University Tuesday morning of last week. Mr. Rohrer is making a tour of Southern engineering schools for the purpose of becoming informed as to the character of laboratory work in electricity done in these schools. While on the Hill Mr. Rohrer was the guest of Prof. Latta.

—By joint action of both societies Saturday night the Commencement banquet was made free, the entire expenses of it to be borne by the societies as organizations, instead of only part by the societies and the rest by those members attending, as heretofore. This action means much for the throwing open of Commencement. There have always been those, heretofore, who stay for Commencement and remain away from the banquet, one of the most enjoyable events of the whole occasion, simply because of the pull on their pocket books. Now the situation is changed. The Freshman or Sophomore will be actually making money instead of spending it by staying, since he would have to pay for it just the same. This means, probably, a doubled attendance and a much better banquet than ever before.

—A very decided change for the better has recently been made in the schedule of the limited between Chapel Hill and University station. The evening train which has heretofore left Chapel Hill at 2:15 now leaves at 3:00, just giving it time to make connection with the east bound at University. The post office window will now close at 2:15 instead of 1:30. There will be no change in the schedule of the morning train but the above change in the evening train will likely be permanent. The change will be hailed with delight by all who have ever had to wait at the University Station, and who knows but that it will save the Southern Railway many a genteel cussing. It is reported, also, that a new car will be put on.

Commencement Program.

The Baccalaureate Sermon before the Graduating Class and the University audience will be delivered by the Rev. H. P. Dewey, D. D., Pastor of the Church of the Pilgrims, Brooklyn, N. Y., one of the most prominent representatives of the great Congregational Church of the United States.

Dr. C. S. Mitchell, professor of history in Richmond College, Richmond, Virginia, will preach the annual sermon before the Y. M. C. A. on Sunday night.

A sketch of Dr. Mitchell has already been given in a previous issue. He is prominent in the religious and educational life of Virginia, and is also an editor. He is comparatively a young man and an able and practical speaker.

Shepard Bryan, Esq., A.B. 1891, of Atlanta, Georgia, will deliver the address before the Alumni Association on Tuesday, June 5th.

SELLERS & GREENWOOD, Agts.

Cornell University Medical College,
NEW YORK CITY.

The course covering four years begins during the last week in September and continues until June. A preliminary training in natural science is of great advantage. All the classes are divided into small sections for recitations, laboratory and clinical bedside instruction. Students are admitted to advanced standing after passing the requisite examinations. The successful completion of the first year in any College or University recognized by the Regents of the State of New York as maintaining a satisfactory standard is sufficient to satisfy the requirements for admission which have lately been raised. The annual announcement giving full particulars will be mailed on application.

For Catalogue, address

DR. FRANK M. READE, Secy. Richmond, Va.

After completing his studies in the law school of the University, Mr. Bryan went to Atlanta, where he quickly earned a position among the leaders of the strong Atlanta bar. He is a devoted son of the University.

It is needless to give an outline of the life and career of the Governor of our State. He is well known to all, and all the friends of the University will be glad to hear that he has consented to deliver the Commencement address this year.
