SQUAD STARTS TO WORK IN EARNEST

Training Table and Tri-Weekly Meetings

50 Men Left on Squad; Everything Points to Brilliant Opening Oct. 2

With the first game only a week from Saturday the Varsity football team is rapidly "getting right." Snappy scrimmaging has commenced. Coach Trenchard has started a training table at his house with fifty-six players eating there, the squad has been reduced to fifty men and two night meetings a week are held to discuss football rules and tactics. A slight but interesting change has been made in the rules this year.

On Saturday a week, the first game of the season will be played here on the Hill with Citadel of South Carolina. The Tar Heel team is rapidly getting into shape and things are moving with a rush. Last week several cuts were made in the squad, which had grown too large. From eighty-five men who reported for practice, fifty men have been chosen and kept on the squad. Those men who are dropped will report to Coach Ervin on the new class field back of the South building and try out for the class teams.

Judging from the work done in the large squad on the Varsity field by the men who were dropped, the class teams will be strong and the championship will be hotly contested.

Regular meetings are being held at night thrice a week by the Varsity squad, and a thorough study of the rule book is being made. Coach Trenchard suggests that anyone who knows football and who would be willing to officiate this fall at the High School contests throughout this section of the state, should come to these meetings and thoroughly familiarize himself with the rules.

The scrimmages are on and the new men are showing up well. With a powerful line, that charges low and hard, and a strong, fast, well balanced back field, Carolina has a team that will make a record. With a man like Duff to handle the line, Cunningham the backs and Trenchard the ends, much may be expected.

The training table was started Sunday at "Doggie" Trenchard's and the following men were selected by the coaches for the table:

- Black, Blackmer, Blades, Hines, Tayloe, Blount, Reid, Long, Jones, Gay, Tandy, Grimes, Jones, Cratch, Love, Homewood, Royster, Tennent, Ramsay, Tayloe, Metz, Townsend, Wright, Parker, Allen, Craig, Hogan, Crawford, Pearson, Denning, Watkins, Johnson, Fore, Bellamy.

DR. KIRKLAND HERE OCT. 12 'TO ADVERTISE OUR STATE'

To Make Principal Speech at University Day

Dr. J. H. Kirkland, Chancellor of Vanderbilt University, will deliver the principal address here on University Day, October 12. So far as is known at present, the program of exercises on Oct. 12 will be similar to last year's program. University Day is always an interesting event. It is the first holiday during the year. It is the first time after the opening exercises of the new college year that the whole University community comes together. The exercises are always inspiring and helpful. On this day hundreds of the alumni come back to the Hill to renew their acquaintance with fond memories of the past.

Dr. Kirkland is a native of Spartanburg, S. C. He received his A. B. degree from Wofford College in 1877, and his A. M. in 1878; he received the Ph. D. degree from the University of Leipzig in 1885; the University of North Carolina has conferred on him the degree of LL. D.; Missouri University and Wesleyan have both done likewise; the D. C. L. degree was conferred on Dr. Kirkland by the University of the South in 1902. Dr. Kirkland was professor of Greek and German, Wofford College, 1881-83; he traveled and studied abroad, 1883-86; was professor of Latin at Vanderbilt, 1886-93, and has been Chancellor of Vanderbilt since 1893.

From all these evidences of intellectual ability, it would be putting it mildly to say that Dr. Kirkland will deliver an interesting and instructive address.

MR. POULTNEY BIGELOW

Celebrated Lecturer Postpones Engagement to End of Term

Mr. Poultny Bigelow who was to have delivered the first of the University lectures on Oct. 2nd, has found it necessary to postpone the engagement to the end of the term owing to pressure of work incident to his immediate publication of a book on the war.

HEALTH IMPROVES 50 PER CENT

No Lydia Pinkham Vegetable Compound Ad, but Plain Infirmary Note

It is interesting and pleasant news that comes from the Infirmary at this time, saying that so far there have been but eleven men examined by the physicians in charge whom it has been necessary to consign to wards. Whereas, for the exactly corresponding time last year, twenty-one men were placed in wards. This shows that the health condition of the students for the two first weeks of college this year has been about fifty per cent better than last year.

The voting in the Chapel Monday morning for the election of a representative-at-large resulted in the election of Lee H. Edwards.

Is Purpose of N. C. Club; 60 At First Meeting

More than sixty men came to the first meeting of the North Carolina Club on Monday night, at the Y. M. C. A. No officers were elected but at the suggestion of President Graham a committee was appointed to make nominations and report them at the meeting next Monday night. The club will hereafter meet in the Y. M. C. A. every other Monday night.

Sixty men is a rattling good start and the club promises to be one of the best ever. Prof. Branson stated the purpose of the club—to advertise North Carolina—and gave the club a good send-off by making a number of invaluable suggestions as to how it should be conducted and for what it should stand. Besides this Prof. Branson offered a number of very fine topics which can be worked up by various members of the club. These topics cover very well many of the economic problems with which the State has to deal, such as mineral and timber resources, water power and manufactures, soils and seasons. It is Prof. Branson's idea to have these topics subdivided in such a way that each member of the club will have a good subject to work upon, which will not only be of value to the University students and members of the club, but will be of interest to counties, State and country at large. By this means the club aims to further in North Carolina for home seekers, and those interested in present economic problems.

Growing from a mere handful of members, the club now has over sixty members, each interested in making the club a success. In less than a year, it has worked out many problems which have received publication in a great many of the State publications and newspapers, and which have rendered valuable help to those interested in the economic problems confronting North Carolina.

First Year Pharmacy Class Meets

The First Year Pharmacy Class met Saturday morning and elected the following officers:

- President, W. B. Gurley of Windsor.
- Vice-President, C. Sutton of Wilson.
- Secretary, C. H. Beddenfield of Clayton.
- Treasurer, C. S. Overman.

DR. BROWN GIVES TALKS

Lectures on Ideals, Accomplishment, and Bible Study

Dr. O. E. Brown, Professor of Religions at Vanderbilt University, invited by the Y. M. C. to lecture here, spoke to the students in Chapel Friday, Saturday, and Sunday nights. Friday night he spoke on "The Principles That Should Guide a Man in College Life;" Saturday night on "Living Up With Christian Forces;" Saturday night he stressed the value of Bible study.

Dr. Brown's first speech was one dealing with ideals and principles. The substance of his talk was in part this:

A college career is no episode in a man's life, but the place where he first has free will and therefore where he begins first to build principles to stay with him through life. He should stick to his ideals and follow the "vision splendid;" he should think out things for himself and act true to his conscience; he should always be a helpful factor in his community; should prepare himself for service to society and should line up with God.

On the second night Dr. Brown gave some "don'ts." To sum up, he said, Don't be a snob, don't be a bookworm, a miser of your knowledge and faculties, but line up with the active Christian forces in the world, and accomplish.

In the final address of his series, Dr. Brown presented to a good audience in a masterly manner the value of Bible study. The address was opened with the thought that the Bible is the greatest strengthening agency that man has, and that it has been the greatest force in the building of the greatest nations, men and civilization that the world has ever known.

1112 Registered

The registration Thursday morning at 9 o'clock had reached 1112. Mr. W. W. Rankin was the man who registered as 1100. Mr. Robt. Vaughn intended registering but as he said, when he saw as he began to register that he would have been man No. 1111, he decided not to, for it would have been too great a shock to him to have gotten four 1's.

Prof. L. A. Williams, who has been ill this summer with an attack of typhoid fever resumed his work here Tuesday.

PICK QUAKES--2 NEW MOVIE MANSIONS

Bruce Stroud Builds Fine New Picture Show Brockwell Doing Likewise

PICTURE IT TO YOURSELF

More Pictures, Better Pictures, Five-Cent Pictures

Two new film-flickering palaces, canned-drama palaces, emporiums for kinodrome exhibitions, will soon be flip-flapping away right merrily in Chapel Hill, in addition to old Pickwick Picture it to yourself. Impossible? Well, its so.

From Arabian Nights rumors and Baron Munchausen speculations the following facts have been painstakingly gleaned:

Within 60 days Messrs. Stroud and Robinson will put in operation a new movie show costing \$5,000, and having a seating capacity of 480. It will be located back of the B. B. Auto Station where ground is already being broken up in preparation of its erection. It will be 50 by 100 feet; the Orange Lumber Company has the contract. On the ground floor will be the picture show and a garage; the upper story will have rooms for rent fitted out with running water and the latest conveniences.

The erection of this new picture show will naturally hit Mr. S. J. Brockwell, owner of the Pickwick, a hard blow. But he will rather burst the proverbial gallows than be outdone and is reported as saying that he will spend more than any five thousand and rather than be run out of business. Therefore he is going to build another picture house himself. It will be exactly to the west of the B. B. Auto Station, will have an auditorium 24 by 130 feet and will seat 600. It will be a 5 cent show, and will commence to dispense joy among the student body about the time of the Christmas holidays. The picture show will not fill the whole building. In a few words, Mr. Brockwell expects to have a combination movie, cafe, cigar-stand, garage, dormitory, etc. running in full blast next door to his competitor's theatre.

Pickwick will continue to run as usual. Should these pictorial phantasies be realized an exceptional opportunity will be presented to students for the cultivation of an appreciation of the higher forms of amusement and the development of the aesthetic sense generally. And what though our culture may be called nickel-plated? We shall have had a feast of films.
