## DR. CHARLES H. HERTY TENDERS RESIGNATION

WILL BECOME EDITOR OF THE  
JOURNAL OF INDUSTRIAL  
AND ENGINEERING  
CHEMISTRY

## MAY ENTER NEW FIELD OF WORK IMMEDIATELY

Has Rendered Great Service to Uni-  
versity During Period of 11  
Years—Served Two Years  
as Head of the Dept.  
of Chemistry

The news of the resignation of Prof. Charles Holmes Herty as head of the chemistry department of the University of North Carolina came Thursday as a great surprise to students and faculty alike. Dr. Herty will become editor of the Journal of Industrial and Engineering Chemistry, N. Y., upon the resignation of Prof. M. H. Whitaker, of Columbia U., the present editor. This is one of the leading chemical journals of the country, and as its editor Dr. Herty will have an opportunity to do much constructive work in his chosen field. All of his time will be devoted to editorial work, hence the necessity for his resignation as professor of chemistry here. He is to receive a salary of \$6,000 a year.

Professor Herty has been at the University of North Carolina for 11 years, having come here in the fall of 1905. He was formerly professor at the University of Georgia, and was for two years with the forestry division of the U. S. Department of Agriculture. He received his Ph. D. degree from the University of Johns Hopkins, and has devoted considerable time to chemical research and study in the laboratories and Uni-

## LATIN-AMERICAN CLUB HOLDS FIRST MEETING

The Latin-American club was reorganized Thursday night with a slight change in their program. This year they propose centralizing on one or more aspects of the Latin-American questions, with a more economic idea in view. Realizing that the trade relations between the two countries have increased to a very great extent during the past year, much time will be devoted to the opportunities of college men in these countries. Informal meetings will be held every two weeks, and two or three prominent speakers are expected during the year. The club is open to all students who are interested in South American subjects.

The students who represented the University at Blue Ridge this summer tell of an interesting prosecution of Secretary Bradshaw. He was tried on Stunt Night for being suspected of matrimony, found guilty, and sentenced to be thrown in the pool. That night after supper before a crowd of several hundred delegates the judgment was executed a la stiff collar and pal beach, despite the chilling iciness of the mountain waters.

## PICTURES OF ANT-ARCTIC EXPLORATIONS TO BE HERE

SIR DOUGLAS MAWSON'S TRIP  
WILL BE VIVIDLY DEPICTED  
IN CHAPEL

"I've never been there but I saw it in the movies." Everybody says that with the conscious air of having had if not actual experience at least a mighty good imitation. Traveling by moving picture film is quick and convenient, and there is no place under the sun that can not be visited for five, ten or twenty-five cents. Cook's tourists traverse the globe in about three months more or less, probably less—but some well known film companies can reel off the same trip in two or three hours. And the spectator is saved not only the time and expense but the hardships of the traveling.

The Ant-arctic regions with their infinite stretches of snow and ice, their monstrous animals—the vastness, the terrible silent cold—fasten upon the imagination. The most graphic description could not be adequate. Every man wants to see it all for himself. If he can not do that, let him have it actually depicted, brought before his vision on the moving picture screen.

This has been admirably done. The Ant-arctic explorations of Sir

## FRESHMAN DEBATING CLUB PERFECTS ORGANIZATION

About thirty-five or forty Freshmen interested in debating met in the Y. M. C. A. Monday night and organized the Freshman Debating Club. C. H. Edwards, of Buies Creek Academy was elected President; T. C. Wolfe, Vice-President; T. S. Kittrell, Secretary-Treasurer; and A. S. White, Critic. A constitution and set of by-laws which had been drawn up by a committee were adopted. J. D. Johnson and A. T. Johnson were appointed on the program committee.

Prof. Geo. McKie is behind the organization, and is expecting it to prove a great success. The purpose of the Club is to afford an outlet to the interest in debate which the men have acquired in their high school work. It is not the intention of Prof. McKie to have the Club try to enter competition with the Di and Phi Societies.

## What's to Happen and When

Sat., Oct. 7—Carolina at Princeton. Continuous report in Chapel 3:00.

Mon., Oct. 9—Prof. H. H. Williams in Chapel.

Tues., Oct. 10—Prof. H. H. Williams in Chapel.

Oliver Rand leads Y. M. C. A. discussion in Gerrard Hall, 7:15.

Wed., Oct. 11—Prof. H. H. Williams in Chapel.

Thurs., Oct. 12—University Day. Academic Procession forms at Alumni Building at 10 o'clock. Exercises in Memorial Hall.

Friday, Oct. 13—Musical in Chapel.

## U. N. C. GRADUATE SCHOOL GREATLY INCREASES ROLL

111 STUDENTS—REPRESENTING  
24 COLLEGES, 10 STATES  
AND JAPAN

One hundred and eleven students, representing 24 colleges and universities are enrolled in the University of North Carolina graduate School for the session of 1916-17. This is an increase of 27 over the enrollment on November 20, 1915, and nearly double the number enrolled in 1914.

Forty-two of these men did their undergraduate work at the University of North Carolina. The others represent 10 states, and one foreign country, Japan. Several come from noted colleges and universities, among which are Princeton, Wellesley, and Vanderbilt. The celebrated Waseda University of Japan is represented by two graduates who, after a thorough consideration of American colleges, decided that North Carolina was the best place to learn American business, government, politics and ideals.

Wake Forest is second in number of students enrolled in the graduate school here, having 16. Other North Carolina colleges represented are: Guilford, 9; Elon, 9; Trinity, 6; Davidson, 3; A. & M., 1. The other states most largely represented are Tennessee, Virginia, South Carolina and Georgia.

The graduate students are taking a growing interest in courses dealing with present political and social welfare. More of those who are now at the university are majoring in economics than in any other subject, with chemistry a close second. Rural economics, English, and philosophy are all popular courses. Most of the men are candidates for the degree of M. A. or M. S., but three are working for the advanced degree Ph. D.

## HUNDREDS OF ALUMNI WILL JOIN CELEBRATION OCT. 12

The exercises on October 12 will commemorate the 123rd year of the University's existence.

On this day hundreds of alumni all over the state and country will meet to commemorate the birthday of their Alma Mater. The Alumni Committee is sending out circular letters to the alumni reminding them of the significance of University Day.

Dr. Edwin Mims, head of the department of English of Vanderbilt University will be the principal speaker. His coming will be looked forward to by the students with the greatest interest, not only because of his reputation as a man of letters but because of the fact that he held the chair of English here at the University before going to Vanderbilt.

At the University of Kansas (largely co-educational) the coach has announced that he hoped no students will have dates at the games.

How about the pair of "sugar-plums," coachey?

## FOOTBALL TEAM OFF TO PRINCETON! IN GOOD CONDITION FOR GAME TODAY

Warming-up Practice Held in Philadelphia  
Friday Afternoon

## CAROLINA 20—WAKE FOREST 0

Carolina's impenetrable line played a great part in securing her 20 to 0 victory over Wake Forest last Saturday. Not once during the whole game did Wake Forest make first down. On the other hand Carolinas backfield possessed a drive that resulted in four touchdowns—not from spectacular runs, but hard line drives in succession.

Folger played a nice game at fullback and seemed to have an aggressive spirit throughout the game. The work of Fitzsimmons, Bellamy, Williams and Johnson in the backfield shows great promise for future games.

Taylor and Ramsey held their own in the unyielding line. Most of the team is made up of men who did not play varsity ball last year. Harrell, Ingram and Proctor need not be ashamed of their work.

In the last quarter, Carolina ended with an entirely new team

## FIRST GLEE CLUB TRYOUTS FORECAST SEASON SUCCESS

The glee club try-out last week proved very encouraging, according to the statement of the director. The voices were so unusually good that it was only with great difficulty that the chorus was chosen. Several are expected to prove themselves able to do solo work, though it is too early to make any such official announcement as yet. The talent for the mandolin club proved equal to that of the chorus, and most of the mandolinists will be able to do chorus work also. Director Harris now has his practices going in full sway, and he feels safe in saying that the glee club this year promises to be one of the best that the University has sent out in the last few years.

## FIRST YEAR RESERVE MEN HOLD 'VARSITY TO 6-6 TIE

The first year reserve team has been tearing things up this week. On Monday they invaded the sacred territory of Emerson Field and allowed the scrubs to win 18-9, although the scrubs were scared to death at times. The next day those same Freshies held the Varsity to a 6-6 score. The last game broke the first year team up a little however, four men being more or less disabled. Herty, Spruill, Lewis, and Ranson were the stars for the reserves.

The first year team is a good, fast, fighting one. They have been hitting the dummy and bucking machine with the same regularity as the Varsity and are in good condition. Coaches Peacock and Daniels are confident of getting them in finished shape before the first game.

## 27 MEN MAKE FIRST TRIP OF THE SEASON

COACH KLUTTZ MEETS SQUAD  
ON WAY—AND GOES TO  
SEE CONTEST

With twenty-seven men in prime condition the squad left last Thursday for Princeton. Secret practice was held Wednesday and Thursday so that the team might perfect their plays without observation. While the first team did not go very well the first two days of the week, they showed marked improvement the last two days before the trip—so much so, that the scrubs could not stand against them. Taylor and Grimes are back in the game re-strengthening the line again.

For the past week the ends have been bucking the line machine in order to develop the tackle-fighting side of the wing material. The line has been drilled in breaking through and blocking kicks, and through this both Coleman and Folger have developed the speed and distance of their punts. Captain Tandy's toe also seems to be in trim condition.

A spirit of the highest optimism prevails in the squad over today's game, and the coaches feel the men will easily lose the jinx of a bad week's start.

In making the trip the team went by way of Greensboro to Philadelphia on private car. Practice

## FIRE! FIRE! AND SURGING CROWDS BLOCK TRAFFIC

Fire! Fire! And boys were running like one of Colliers' Triassic volcanoes had burst loose over beyond Carrboro. Out Cameron Avenue the crowd surged. The truck (?) came, and went, though it was a long time going, for boys had to put emergency brakes on themselves to avoid colliding with its rear end. Finally it seemed to take new life and for awhile approached the speed limit 'till about four blocks out, then slowing down it turned in the five foot alley to the left. The crowd followed. No fire was yet to be seen, and at the next corner the mighty red vehicle turned to the left again and started back toward town. "Where is the fire," someone asked. Some kind lady who was standing on the sidewalk had phoned and found that the fire was in Central Hotel a few blocks from where the procession had started. This kind information filled the weary ones with new vigor and the race was renewed down to Central Hotel. It looked calm and composed. No fire was to be seen. The truck was standing in Station No. 1, as red as ever, but apparently not red with heat. No firemen could be found; no fire was found; but it is supposed that the man smoking
