## NEED OVER THOUSAND MEN FOR Y. M. C. A. ARMY WORK

THREE MILLION DOLLARS BEING  
RAISED FOR Y. M. C. A.  
WORK IN CAMPS

Mobilization for Christian work in the Army camps is the proper word. Those who are acquainted with the history of the Young Men's Christian Association know something of the wonderful work done by this organization in the trenches during the Japanese-Russian War. No factor was more important in Mexican Border work than that of the Young Men's Christian Association. This organization is now doing and has been doing for two years a wonderful piece of work in the prison camps of Europe and also in the mobilization camps. Perhaps the greatest single piece of work it has yet undertaken will be to conduct Christian work among the million men who are to be mustered into service by the United States Army at the present time.

### TWELVE HUNDRED MEN NEEDED

Twelve hundred of the choicest and best trained men are now to be called to this work. Two hundred good Army Association buildings will be constructed in the various camps throughout the United States. These buildings will be large wooden structures with auditorium, writing rooms, game rooms, offices, etc. In each building there will be first a General Secretary who has large training and experience. These men will probably be recruited from the men of the largest City, Railroad, and Industrial Associations. Next, there will be in each building a trained Physical Director who will have charge of play, recreation, lectures on First Aid to the Injured, and kindred topics. These men must be men of real experience and preferably men of medical training. Third, there will be a Religious Work Director who will have charge of Bible study classes to be conducted among the soldiers, the daily religious meetings to be held, training and personal evangelism, educational work, etc. Many of these men will be recruited from the college secretaries of the Young Men's Christian Associations, younger alumni who are now in the ministry, and other alumni who were active in Association work during their college careers. In choosing these men, undoubtedly preference will be given to men who have attended one or more Summer Conferences. In addition to the three foregoing men, there will be located in each army building from two to four Assistant Secretaries. Most of these men are to be recruited from recent graduates, graduate students, senior students of marked ability, and others who have been active in Christian work.

It will thus be seen at a glance that two hundred secretaries with large experience will be needed, two hundred physical directors, two hundred religious work directors, and from four to six hundred assistant secretaries.

### SUGGESTED METHODS OF SELECTING AND TRAINING THESE MEN

It is expected that the two hundred Religious Work Directors and the six hundred Assistant Secretaries will be chosen and trained in connection with the Summer Conferences to be held at the various places in the United States. In the South, this conference will in all probability be held at Blue Ridge, N. C., the students coming together at the same date as our Student Conference, June 12th. To this Conference we are inviting all men who are qualified to fill any of these places. From those coming, the best qualified group will be chosen for this work. Here and there an outstanding man may be chosen ahead but with the specific understanding that he will go to the Conference. During the Student Conference, we expect that there will be a regular Association course on Army Association Work. In other words, those who take this work must have as rigid training as those in the officers' recruiting corps. The War Council of one hundred men appointed by the International Committee has decided that thirty days is to be the time required for each such worker.

### GOVERNMENT RECOGNITION

President Roosevelt has said that the Panama Canal could not have been built had it not been for the Young Men's Christian Association in the Canal Zone. This organization kept the men fit, clean and happy, and without it, officers testify that the project would have failed. Hence the United States Government built the club houses in which the Y. M. C. A. work was done, put the secretaries on the United States pay roll and in every way facilitated the work of the Association.

The War Department and President Wilson have been more than enthusiastic about the work done on the Mexican Border, hence they are giving large opportunities for the work of the Association in the Army Camps to be organized. It cannot now be said with certainty but there is every chance that the Y. M. C. A. Secretaries will all be regularly recognized, thus giving them regular army standing.

### A SUPREME CHANCE FOR SERVICE

Perhaps there is no place in the war program where a man with recognized training in service has any larger opportunity than in the secretaryship of the Association. Each man will be in direct relationship to at least one thousand men and if he can help a thousand soldiers to live a more wholesome,

Largest College Hospital and endowed dispensary in the United States. Unusual opportunities in greater New York. For particulars, write to Otto von Huffman, M. D., Secretary of Faculty, Henry and Amity Sts., Brooklyn, N. Y.

normal and manly life, he will have done more than almost any other man to make a real fighting machine. A call to be a Secretary, therefore, is a call to the very highest patriotic service. It is volunteering for a most difficult task and a most needed service.

Already certain colleges in the South have volunteered to pay the salary of a secretary representing their college, either in the person of one of their own secretaries or one of their chosen alumni. Every college in the South should be represented in some fashion. Certainly there is no college that ought not to have one or more of its very strongest students, seniors or alumni, attend this Conference for the sake of entering the secretaryship of the Association provided they prove to have sufficient qualifications. Already the Committee of one hundred is raising \$3,000,000 to defray the expenses of this work the first year.

### TRAINED LEADERSHIP NEEDED

Not only is there a great need for trained men to be secretaries but there is more urgent need today for trained leadership among college men than ever before. If a man is to return to college he must take up the burden of the Association laid down by the older students who have gone to the Army Camps. If he is to be in the ranks of the Army, all the training possible will be needed to help him do his share in stemming the tide of temptation that will face every soldier in camp. This ought, therefore, to be the greatest year for training that the colleges have ever had and let no one think that we should have a smaller Student Conference. We should have from one to two hundred more men at the Student Conference than ever before.

This war is a war for moral principles and it can not be waged except by men of moral character. If ever men needed to make real sacrifices for getting ready to do battle now is the time. It should not be said to our shame that this war for moral principles has undercut our preparation for moral living.
