PRACTICAL SCHEDULE OF CAROLINA ACTIVITIES

Herewith is presented a schedule for college associations made out by representatives of the various associations in an effort to avoid conflicts. Heretofore men prominent in college activities

have often had two or more associations, of which they were members, meeting at the same time, and were accordingly unable to attend all of their meetings. The success of this schedule will de-

pend upon the co-operation of all of the associations, and each one is requested to take care to conform strictly to the schedule. Only in this way can the conflicts of meetings be avoided.

DI SOCIETY WINS ANNUAL INTER-SOCIETY DEBATE

"Resolved, That the sale, manufacture, and importation of alcoholic liquors should be prohibited in the United States by Constitutional amendment, with the reservation to Congress of the right to provide for the manufacture and sale of alcoholic liquors for medicinal, scientific, and sacramental purposes" was the query of the Annual Inter-Society Soph-Junior debate held in Chapel Wednesday night.

The Di Society, upholding the Affirmative, was represented by F. L. Hurley and W. C. Eaton. The Affirmative contentions were, that liquor is detrimental to the general welfare of the country; that all methods of remedying the evil so far tried have failed; that principles upon which National Prohibition rests are sound; and that National Prohibition is the best practical solution of the problem.

The Phi Society, upholding the Negative, was represented by B. C. Brown and E. S. Merritt. The Negative contentions were that National Prohibition does not support the sanction of the majority of American people; prohibition has no place in our national constitution; prohibition should be left to the States to decide for themselves; and that national prohibition would not be enforced even if passed by an amendment to the national constitution.

The committee judging, consisted of T. E. Didlake, A. H. Patterson, and W. W. Pierson. They rendered a two to one decision in favor of the affirmative.

ENLISTMENT OF STUDENTS IN THE TECHNICAL SCHOOLS

(Continued from Page 2)

ulation states, he will indeed be "in the military service of the United States." For the student body and alumni of the University in general, here is an excellent chance to serve the institution and the country as well by calling the attention of young men who possess a technical bent to the advantages offered by the engineering courses here at the University.—P. H. D.

Lieutenant Thompson spoke to the battalion Saturday morning and told of the work and workings of the English escadrille on the western front.

Manager Kinlaw announces that basketball games have been secured with the U. of Georgia, February 1 at Chapel Hill, and with Virginia, February 19, at Lynchburg.

At a meeting of the Glee Club Monday night Phil Branson was elected manager to succeed Jimmie Howell, who has joined the army. The manager was instructed to arrange an eastern trip.

Merry Xmas, boys.

THE THRIFT CARD SYSTEM ONE OF WISE INVESTMENT

Dr. Graham, in outlining the Thrift Card System in Chapel Monday, said that it would have a double effect on this country. It would have the practical effect of supplying the government with capital; and it would have the theoretical effect of showing spendthrift America the value of saving.

The Thrift Card System is simply this: Go to the post office and ask for a Thrift Card. The man at the window will give you a card with sixteen places on it. You give him a quarter and he gives you your first Thrift Stamp. When you have left off enough "black cows" and ice cream cones to buy the last of the sixteen stamps, give the full card and 12 cents to the post office man. He will give you a War Savings Stamp which will be worth \$5.00 January 1st, 1923. He will also give you a War Savings Certificate, which is merely a pocket size folder on which you can paste 20 War Savings Stamps. On January 1st, 1923, the U. S. Government will buy this War Savings Certificate from you paying you \$5.00 for every Stamp pasted on it. Thus your War Savings Certificate will bring you a profit of 88 cents on each Stamp pasted on it. This profit is 4 per cent interest compounded quarterly. This profit is guaranteed to you by the U. S. Government
