

FORMAL OPENING OF UNIVERSITY FEATURED BY ADDRESS OF PRESIDENT

"The Old University Has Ended" Says Dr. Chase, in Welcoming Students Back to the Hill.

DEPLORES HAZING HERE

The University was formally opened at 12 o'clock last Friday by President H. W. Chase, who addressed a fair audience in Memorial Hall.

In his address Dr. Chase asserted that the old University had ceased, and he set forth vividly an ideal for the new one.

Dr. Chase stated that he believed Carolina to be the greatest state university in the South today. To confirm this statement he cited the fact that 90 per cent of its student body came from North Carolina.

"Since the University owes practically everything to the state," he continued, "its mission should be service to North Carolina and through North Carolina to the Southland and the nation."

According to Dr. Chase, the University should turn out men educated for service to the state. The needs of North Carolina should be sought out, and preparation for them supplied in the curriculum.

Passing on to the responsibilities of students to the University, Dr. Chase declared that it was entirely up to the students to fulfill Carolina's obligation to the state, and their own duties to themselves.

UNIVERSITY PROFESSORS ATTEND CONFERENCE OF HIGH SCHOOL PRINCIPALS

Athletics and Courses of Study Subject of Discussion at Divisional Meeting in Raleigh.

TOSTANDARDIZESCHOOLS

At a meeting of the central division of high school principals in Raleigh Friday night, the University of North Carolina was represented by M. C. S. Noble, N. W. Walker, M. R. Trabue and E. R. Rankin.

(1) To afford an opportunity whereby all the high school principals in one of the five educational districts of North Carolina might gather for the purpose of submitting their plans of school work and to exchange ideas with other educators;

(2) To get the general policy of the State Board of Education with regard to general high school development.

The University is interested in both of these important endeavors and to them all of her representatives contributed new ideas and suggestions worthy of consideration.

The question of high school athletics was discussed fully and regulations governing the eligibility of high school players to engage in state championship contests were submitted by E. R. Rankin and adopted by the convention.

In adopting these regulations, the University committee on high school athletics feels that it is taking a great step towards eliminating the mere high school athlete and that these regulations will force the athlete to maintain a high academic standing while in high school.

In regard to the progress made by the schools of the state, Professor Noble spoke very optimistically, and he declared that he was pleased to note the upward trend of high school curriculums and general development.

The outcome of this convention is deemed to be a most successful effort towards standardizing the high schools of the state, and in doing this many boys and girls throughout the state will be prepared to enter college on a more equal basis and many will be prepared to grasp more of the opportunities of a college education.

Speaker Young Outlines Work Already Accomplished and Gives Plans for the Future.

(By Victor V. Young)

On Saturday night at 7:30 the Philanthropic Assembly will hold its first regular meeting of the collegiate year.

During the summer there was secured from the alumni office a complete list of the incoming freshmen from the eastern part of the state, and from this list of three hundred odd names was checked off about one hundred men who stated emphatically that they were interested in literary society work.

The Phi, as soon as she links up her new men, is to begin work on what many of the old men believe to be her greatest and most successful year.

During last commencement the Phi alumni pledged to aid in the raising of a fund with which to repair and re-equip the old hall in order that it might adequately take care of its ever-increasing membership.

The literary societies still carry the extra financial burden of subsidizing the Carolina Magazine. On Saturday night a new proposal is to be brought up by which the magazine may still be subsidized, and yet will not be a drain upon the society's limited resources.

WAGSTAFF TO RELIEVE BRADSHAW AS CHAIRMAN EXECUTIVE COMMITTEE

Dean of Students Will Be Adviser of Students Only—Discipline No Longer Concerns Him.

VERY IMPORTANT CHANGE

At the first regular meeting of the faculty for this year, which was held last Friday afternoon, a very important change was made in the disciplinary machinery of the University.

Last year, at the suggestion of President Chase, the executive committee made an investigation of the ways in which the University might best deal with students as individuals rather than in mass, and what changes were needed in the administrative organization.

A very peculiar condition exists in the University in regard to discipline. Student government here is really not recognized by the trustees, the legislature, or the state at large.

Dean Bradshaw has been made chairman of the student life and activities committee, which is composed of W. S. Bernard, A. H. Patterson, P. J. Weaver, C. A. Hibbard, W. T. Matherly and Mrs. Staey.

Wake Forest Doesn't Have a Chance—Fetzer Uses All His Men.

VARSITY OFFENSE GOOD

Sparrow and Merritt Get Chance to Show Some Stuff—and Show It. "Monk" Runs Team Well.

The Carolina first, second and part of the third team went down to Goldsboro Saturday morning and that afternoon completely and literally beat the fire out of Wake Forest.

There isn't much to say about the game. Coach Fetzer sent in the first team to start it off and by the time the second period started an entirely new team faced the Baptists.

The mighty Sparrow and equally heralded Merritt got their chance. When Casey struck out in Mudville there were many tears.

McDonald, handling the team at quarter, showed up well, running the team well and carrying the ball for long gains with regularity.
