#### A POETRY SOCIETY

The Southern Arts number of the Magazine (which, by the way, is a very splendid issue) advocates the forming of a poetry society in North Carolina. In a Symposium compiled by W. J. Cocke, Jr., it seems pretty generally agreed that this state needs and wants such a society, and we understand that active steps have already been taken in forming this organization.

Of all the comments quoted, the Tar Heel believes that the attitude taken by Miss Nell Battle Lewis, of the Raleigh News and Observer, is the most sensible, and should be the spirit of the

"It seems to me that a Poetry Society in North Carolina would be an excellent thing to try out. No one can tell whether or not it would be successful, because that would depend, of course, on how much talent there is in the state and whether those who possess it would take an interest in the society. Both are unknown quantities at present. But I am highly in favor of organizing it, with, however, the understanding that, to begin with, it would be a tentative venture, not heralded by too proud a clash of cymbals, since there'd be no telling when it might painfully expire. For if, for the sake of rhyme alone, the organization came to be over-run by fulsome eulogies on North Carolina or choked with Pollyanna's vacuous gladsomeness or mandlin with simpering sentimentality, I should vote to disband it immediately. However, I believe that there are quite a few people in North Carolina who are seriously interested in both the production and the appreciation of good poetry, and a society such as you propose should certainly afford them grateful stimulation."

North Carolina unquestionably can produce and has produced men with creational powers in the field of literature, and today has men capable of writing very good poetry. Such a society as the one now being organized will do a great deal in encouraging more and better poetry. It is true that there is danger of this organization not "taking" and becoming a deadhead in short order, but the least that we can do is to give it a fair trial.

Dear Mr. Poindexter:

At the November meeting of the Woman's Association it was voted unanimously that we express our appreciation to the Y. M. C. A. for its splendid help in putting over the Hallow e'en Carnival. The work of the members of the "Y" was invaluable and we want them all to know how very grateful we are. Won't you please express our thanks to each and every one

The check which we enclose as a gift towards the drive fund is a material expression of the co-operation which we wish to exist always between the Y. M. C. A. and the Woman's Association, a co-operation in which the "Y" has already done its part so generously.

With best wishes always, JANE TOY, President, VALLIE UZZELL, Secretary.

To the Editor of the Tar Heel:

I read with interest the communication of a sophomore to the Tar Heel with regard to the advisability of having first year men wear caps to distinguish them. He recommended that if the freshman class should vote to wear caps, a council should be elected to "force" unwilling first year men to abide by the rule, providing that if a first year man should continually refuse to wear a cap he could be put on probation by this council. Personally, I am in favor of freshmen wearing caps. If the officials of the University are not going to back this team, let us "step into the harness" as true Carolinians should, and finance it ourselves, because it is as truly an activity of the University as debating, football, basketball, baseball, tennis or track.

This, I think, is the opinion of the majority of the student body.

## NO STADIUM, SAYS UNIVERSITY CHICAGO STUDENT PUBLICATION

An interesting attitude taken by the students and faculty of the University of Chicago, regarding athletic contests, has come to light in a recent editorial in the Daily Marson, official student publication.

The editorial declared that the students and faculty of that institution do not want a stadium and that the

"The University has plenty of monon to say:

"The University would be collegiate, the public would be amused; and may the two never meet. We do not want stadium."

Men students at the University are said to have evidenced some difference of opinion regarding the editorial. Several University of Chicago alumni said that they had been among the chief agitators for a bowl which could accommodate the huge crowds now denied tickets to the big games. "Designing in Masses"

THE new architecture transcends detail and expresses the component solids of the great buildings of today and tomorrow. Gigantic profiles are reared against the sky-true expression of structural facts has now come into its own in architectural design, linking architect and engineer ever more closely together.

Certainly modern invention-modern engineering skill and organization, will prove more than equal to the demands of the architecture of the future.
