WAKE FOREST vs. UNIVERSITY

The varsity baseball team made a flying trip to Wake Forest Saturday, leaving the University at 9 a. m. and returning at 6 p. m., beating the hard-hitting deep water by a score of 7 to 1 in seven innings. From the first inning the game was never in doubt, Lawson having the Wake Forest batters at his mercy and being well supported by the rest of the team. The game was called at the end of the seventh inning to allow Carolina to catch the train.

WILL WORK FOR UNIVERSITY

Mr. George Vanderbilt has directed his forester to have taken and mounted specimens of the birds and animals found on the Biltmore estate. Mr. T. G. Pearsons, assistant curator of the Biological Museum of the University, has been employed to do the taxidermy work.

The war fever has infected some of the colleges of the country. The Lafayette made a rousing anti-Spanish demonstration the other day, and sent the President a telegram assuring him of their support. The Sewanee boys also gave vent to their patriotism in a mass meeting of the student body, winding up by a message to Mr. McKinley urging him to action. This is a good way for these colleges to attract attention and increase their self-importance, but we imagine President McKinley has enough on his hands already without being troubled with telegrams from college students.

ON PAMLICO SOUND

Mr. T. G. Pearsons left Saturday for Beaufort. He will meet Prof. Holmes and Dr. Pratt at Newberne tomorrow. From there they will start on a two weeks cruise on Pamlico sound.

Mr. Pearsons took along a Winchester rifle with which he will endeavor from Cape Hatteras to pick off a few Spaniards.

FRESH FARMER'S VIEWS

First Freshman—What do you think ought to be done about the war?

Fresh Farmer—I think we ought to take Cuba and Spain's navy and give Spain to England.

Mr. Cameron McRae, of Raleigh, visited his brother, Mr. J. C. MacRae, Saturday and Sunday.

The University is having new steps placed in front of the doors of the buildings.

The Indian smoking his pipe of peace is rapidly passing away; But the freshman smoking his piece of pipe Has surely come to stay.

MY LOVE

I have sought thee oft when my blood was hot,
My mouth hath met thine in one long, long kiss;
In my arms, at times, found peace and quiet
In thy sweet forgetfulness.
The strength of my love is more than human,
Thou inspirest me, I know no fear.
How could I live without thee, loved one?
Thou'rt mine, thou'rt mine, my bottle of beer.

CLASSES ALL DAY MAY BE POLICY NEXT YEAR

have hours for recreation in the morning as well as the afternoon. It will mean that the labs that for the most part remain vacant in the mornings will be put into use. The gym can also be used the day through. This system of the eight-hour day is used in most of the larger institutions of the land. This University is one of the few that uses the half-day system.

The main reasons for considering the system are that the space of the University is limited, that the present length of the periods is too short and the conflicts in the dinner hour. As yet there has been no definite action on the plan other than just to arrange for its discussion at the next faculty meeting.

TRACK MEN LEAVE IN GOOD SHAPE FOR TILT AT CLEMSON

of the best men in his field that has represented Carolina.

This meet will be a crucial test of the Carolina team. It will be its first appearance on the cinder path. After this contest one will be able to get a good line on the possible record of the team for the season.

Their indoor record should indicate that their appearance tomorrow in Calhoun will be a good one. They broke every record which was breakable and set records for every new event. Their time trials were good Wednesday and if they hold up to them there is no reason why they shouldn't bring the bacon home with them Sunday morning.

center that was labelled as being good for two bases but was stopped by a sensational one-handed catch by White.

Phillip fed the young Bulls out of his hand in the ninth and Byrd, Holt and Carden went out on easy plays to first.

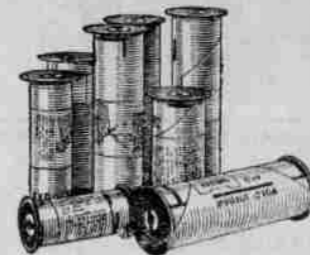

The Freshmen showed the makings of a wonderful machine although it lacked the ability to put punch into the game when punch was needed. Big left-handed Phillips, a product of Augusta Military Academy had the game completely in his hands except in the first inning and showed promise of being a good bet for next year's varsity. But three hits were garnered off his delivery and he was credited with the only two strike-outs of the game.

Careful Finishing that Protects your Negatives

We feel a real responsibility for film left with us for development. Negatives cannot be replaced, and there are often several exposures in each roll that are invaluable to the owner. Careful methods and scientific formulae bring results that justify your entrusting your films to our finishing department. Of course we are equipped for enlarging—let us show you some samples of our work.
