

UP AND COMING

Sunday, August 19
 11:00—Church Services.
 4:00 P.M.—Gallery talk — Helene Tiranoff: "What Is Modern Painting?", Person Hall Art Gallery.
Monday, August 20
 7:15 P.M.—IRC meeting, Graham Memorial.
 7:30 P.M. — Freshman Friendship Council, Graham Memorial.
 8:00 P.M.—University Veterans' Association meeting in Graham Memorial.
Tuesday, August 21
 1:00 P.M. — Men's Faculty Club Luncheon, Speaker: Dr. Paul Shearin — "The Atomic Bomb." Carolina Inn.
Wednesday, August 22
 9:00 P.M.—Di Senate, third floor New West.
Thursday, August 23
 7:30 P.M.—Experimental production of new plays, Playmakers Theatre.
 7:30 P.M.—Duplicate Bridge, Graham Memorial.

Friday, August 24
 8:30 P.M.—Friday Night Frolics, "Y" Court.
 During the week of August 20-25 ALL CIVILIANS should go to their respective faculty advisers for their pre-registration interviews and get their Approval of Courses ticket for the Second Term of the Summer Session (Sept.-Oct.). In Woollen Gymnasium on Monday, Sept. 3, 8:30 A.M. to 1:00 P.M. and 2:00 to 6:00 P.M., all civilian students will formally register.
 Classes for the Second Term Summer Session begin Tuesday, September 4, at 8:00 A.M.
 Institute for Local Presidents of the North Carolina Federation of Business and Professional Women's Clubs, August 17-19, Carolina Inn.
 Exhibition: "What Is Modern Painting?" continues through September 2, Person Hall Art Gallery.

Yack May Be Off Press In Two Weeks

Gene Johnston, editor of the 1945 Yackety Yack, announced tonight that the yearbook, due for distribution sometime last June, will come off the presses in Charlotte, N. C., within the next two weeks. When asked the chief reason for this long delay, his only reply was, "Blame it on labor conditions."
 This year's Yack will be over 300 pages long, and will contain many features of general campus interest. The outside appearance of the book will be much different and less conservative than has been the case in recent years. It will be made up of red leather and monk's cloth, with gold lettering on the leather and brown lettering on the latter.
 Johnston also released the fact that over 1000 of this year's copies will be delivered by mail to Carolina alumni.

University of North Carolina alumni now serving as Marine Corps Combat Correspondents with the Third Marine Division, are, left to right: Sergeant Gregoire deR. Hamilton, of Chapel Hill; Staff Sergeant Harold A. Breard, Monroe, La.; and Sergeant Dick Dashiell, also of Chapel Hill. (Official U. C. Marine Corps photo.)

Carolina Alumni Trade Tales At Meeting In South Pacific

The careers of three University alumni brought them together at the Third Marine Division base in the South Pacific.
 The parallel of their lives is fourfold, for in addition to embracing the same alma mater, each is a veteran newspaperman, a Marine Corps Combat Correspondent with the Third Marine Division, and a father.
 They are Staff Sergeant Harold A. Breard, 42, class of '27; Sergeant Gregoire deR. Hamilton, 35, class of '32, and Sergeant Dick Dashiell, 30, class of '37.
 Breard, 13 months overseas, saw action on Saipan with the Fifth Amphibious Corps and the Guam and Iwo Jima operations. For his part in the Guam invasion he received a letter of commendation from Fleet Admiral Chester W. Nimitz.
 After receiving his degree, Breard studied law one year at the University and added two semesters of the same subject at Tulane University.
 Prior to his enlistment in February, 1942, Breard taught English for two years and spent 10 years reporting and editing for local newspapers.
 Hamilton, son of Dr. J. G. deR. Hamilton of the University faculty, recently arrived in the Pacific theater. Previously, he was managing editor of the Parrish Island Boat, one of the leading service newspapers.
 During his undergraduate career, Hamilton was a member of the Daily Tar Heel staff and other publications. He also was an active representative of Kappa Alpha on the interfraternity council.
 Hamilton has worked on newspapers in Charleston, S. C., and Durham, Elizabeth City, Raleigh, Asheville and High Point, N. C. He enlisted in December 1943.
 Dashiell covered the Iwo Jima campaign with the 21st Regiment which saw some of the hottest action in the Third Marine Division's drive down the length of the island. He enlisted

In the Armed Forces

Captain Michael A. Hill, former mathematics professor, now on leave of absence, is expected to return to the University in November. At present, Captain Hill is stationed in Washington with the Army Quartermaster's Corps.
 C. Leo Wilhelm, who graduated from the University Law School in 1937, has just been appointed acting manager of the Philippine Red Cross, according to word received here.
 Wilhelm will, in his new capacity, be responsible for the inauguration of a full program for the Philippine Red Cross, to include nursing service, home service, Junior Red Cross, first aid, and disaster relief.

Lt. S. B. Bradley, USNR, of Scotland Neck and a 1938 graduate, was presented the Air Medal in a recent ceremony at the Naval Air Station in Pensacola, Fla.
 The citation read "for meritorious achievement while participating in aerial flight on sustained operational missions in the Southwest Pacific area, during which hostile contact was probable and expected."
 Patrol Squadron 34, to which Lt. Bradley was attached for 18 months, worked with the Army Air Forces, doing air-sea rescue work and won the Presidential Unit Citation for effecting 281 rescues and sinking 98,000 tons of Japanese shipping.

Lt. Bradley won the Silver Star Medal for sinking a large enemy freighter-transport in a convoy headed for Rabaul. His bomb hit the vessel amidship, and it exploded.
 After graduating from here, Bradley attended the Law School for two years prior to entering the naval service. He is now attached to the instructors' school at the Naval Air Station in Pensacola.

Maj. Harry A. Wills, 27, of Babylon, N. Y., who has just arrived from Napier Field, Dothan, Ala., where he was an air inspector, has been appointed Director of Supply and Maintenance at the Columbus Army Air Field.

After studying journalism for four years here, Maj. Wills entered the Army Aug. 15, 1941 and won his wings and commission as a single-engine pilot at Brooks Field, Texas, March 7, 1942. Transferred to Moody Field, Ga., he became a twin-engine flying instructor and then a group commander.

P/O David W. Masengil, Bristol, Tenn., has been assigned to this base of the First Troop Carrier Command for a one-month course in navigational training. Prior to entering the service, he was a student here.

Promotion of George H. Ivins, from major to lieutenant colonel was announced today by Major General William E. Shedd, commanding general, Ninth Service Command, at Fort Douglas, Utah.
 Lt. Col. Ivins, director of Information and Education division, command headquarters, entered the Army September, 1942, and began his present tour of duty November of that year.
 Prior to entering the Army he was on the faculty of Temple University, Philadelphia, and the University of Carolina.

Heading the AAF Central Flying Training Command's few athletic participation program is a member of the University's physical education staff, Capt. Herman W. Schnell, now on leave with the Army Air Forces.
 Capt. Schnell will direct an intensive competitive sports program which covers a variety of sports from horseshoes to football and will include every AAF flying training field in the Central Flying Training Command, a five-state area.
 Receiving his B.A. degree in history and government from the University in 1930, Capt. Schnell served on the university's physical education staff at Columbia University.

MODERN ART

(Continued from first page)
 atmospheric canvases in vivid broken (juxtaposed) areas of colors, a method that marks the turning from the academic realism and court paintings of the preceding period.
 Since this first epochal break with tradition during our time, artists have continued to experiment with techniques, materials and media and even more notable with subject and content of paintings. Their experiments have been compared to the notable active increase and advance in the experiments of scientists. Quite plausibly it has often been proposed that the work of many modern painters, such as that of Picasso and the lesser known Italian Futurist Balla anticipated and in point of time preceded the ingenuity of the present day movie camera artist.

Confusion
 Although modern art has been seen by two generations, some confusion has continued to exist when the public and layman pauses to consider the artists' works and motives. However, increasing understanding and appreciation is evidenced in growing sales of art books in this country and in a Europe that has barely started clearing the debris of the war.

The use of the term modern in connection with contemporary and recent works of art is a questionable one. Subject matter and visual representation has changed naturally as costumes, custom, architecture and everyday objects around us have changed. But, beneath the changes in surface appearance, there lie in the more valid and worthwhile recent works structural qualities and traits of artistic personality that are found to mark works of past masters, whether Mayan, Egyptian or Byzantine artisans, or Renaissance or Dutch painters.

Many steps have been taken in the direction of clarifying the meaning of modern art. Museums, galleries, schools, art books and more popular magazines now serve to familiarize the man on the street with the subjects and at times seeming lack of subject encountered in contemporary works of art.

The Museum of Modern Art, New York, has been a pioneer in the preparation of books and travelling exhibitions. Among their exhibitions, one of their most recent and effective—although one could wish it had been possible to have seen it 10 or 20 years ago—is the exhibit called "What Is Modern Painting?"

The exhibition opened at the Person Hall Art Gallery at the University August 9 and will continue through September 2. The material in the exhibition is based on the research of Alfred H. Barr, Jr., former director of the Museum of Art who continues his work in a research appointment at the Museum.

Fuller Band Booked For Friday Frolics

Jimmy Fuller and his orchestra, imported from Durham, will provide music for the Friday Night Frolics of August 17 and 24, it was revealed here by officials of Graham Memorial, sponsors of the event.
 The dances will be held at the YMCA court unless rain intervenes in which case the site will be Graham Memorial lounge.
 Fuller and Scott Gardner's crew have been providing music for the Frolics throughout the summer term.

PROFS

(Continued from first page)
 faculty at Schrievham is Professor Browne, instructing mathematics. The other Carolina faculty member, Professor Taylor, has been appointed to the center at Fontainebleau, not far from Paris.

Campus Shorts

About 150 couples danced to the music of Tommy Dorsey, Arty Shaw, Spike Jones, and others Saturday night when the coeds of Spencer Hall entertained at a formal dance in the parlors.
 Every third dance was a card dance, or no-break. During intermission ginger ale and lime ice was served from the terrace. The refreshment table was decorated with ivy and candles.

Coeds from Alderman Hall and their dates had a picnic Saturday afternoon at 5:30 at the Battleground Park.
 Under the direction of Jean Pace, social chairman, singing and games were enjoyed.

Last Saturday Steele dormitory had its summer picnic in Sparrow Pond. Approximately sixty-five students and their dates celebrated what proved to be a pre-mature V-J announcement. The party, planned under the chairmanship of Pete Long, consisted of swimming, horseshoe pitching, dancing, and refreshments.
 Transportation was furnished by private cars and taxis. The party started at 5 o'clock, lasting well into the morning.

Mary Holt Drewry, social chairman, has announced that Carr dormitory will give a "very informal" street dance next Saturday afternoon from 3 to 6. The dance will be held in the area in front of the dorm. Music will be furnished by "transcriptions." Each Carr girl is permitted to invite one date and one stag.

Ralph Potter, Duncan St. Clair, Cliff Harp, Clyde Leonard, and Marshall Cline, were initiated into the local chapter, Alpha Sigma, of the Chi Psi fraternity last weekend. On Sunday, after the initiation, an banquet was given in honor of the new members. George Edward Wiles, the president, acted as master of ceremonies for the occasion. The chief speaker of the evening was Lt. Flynt Brayton, Williams '23, who is now serving as First Lieutenant in the Pre-Flight school here. Refreshments were served following the banquet; the party lasted until later in the evening.

Alderman and McIver coeds will jointly sponsor a formal dance Saturday night at the Women's Gymnasium.
 Scot Gardiner and his orchestra will furnish the music for the occasion.

Grail Will Sell Senior Class Rings And Cards

At the Student Legislature, which met Thursday night with Doug Hunt presiding, a bill was introduced by Walt Brinkley to the effect that the Grail be empowered to contract for the Senior Class invitations and rings, any profits from the contracts to go to the Grail loan or scholarship fund. Brinkley stated that this was necessary because the contracts have to be made in September, due to the shortage of leather, paper, and metal, whereas the Senior Class under the present system does not become an organized unit until March. Although an individual could handle the orders and take any profit netted, the Grail's profit will eventually go back into student channels through the loan and scholarship funds. The rules were suspended and the bill was passed unanimously.
 There were no committee reports. The Rules Committee and the Archives Committee will meet next week, but there will be no regular Student Legislature meeting.

I shot a poem into the air,
 It was reprinted everywhere
 From Bangor to the Rocky Range
 And always credited to—exchange.
 —F.P.A.

Gaskill Gets Key From Dance Committee

Mr. Albert Gaskill has been awarded a key by the University dance committee as a token of appreciation for his long and faithful service to that organization in the capacity of Head Doorman. Dance committee chairman Allan Pannill, who made the presentation at a special meeting of the group last Tuesday evening, briefly reviewed the services rendered by Mr. Gaskill during the more than eight years that he has spent in this capacity and expressed the gratitude of the committee for this work. Following the presentation, Mr. Gaskill responded with a brief address dealing with dance committee problems.
 The meeting, which was also attended by Dean E. L. Mackie, chairman of the faculty committee, was the first for three newly elected members of the group. These include Bill Chafin, Blair Gammon and Paul Ludwig. The old members of the committee, in addition to Chairman Pannill, are: Jim Dillard, secretary; Blanton Belk, Ted Haigler, Jerry Fox, Jim Burdin, and John Line-weaver.

No Rushing For Pan Hellenic Council This Summer Says President

The Pan Hellenic Council announces that during the summer term, there will be no rushing of new girls.
 Tish Andrews, president of the council, asks that non-sorority girls not visit sorority houses except under unusual circumstances. No sorority member may entertain non-sorority girls in any way at any time. When a sorority member is in presence of a new girl, sororities must not be discussed.

Miss Hare Replaces Duckwall In Friday Hill Hall Recital

Miss Virginia Hare will take the place of Mr. Jon J. Duckwall in the faculty organ recital to be given Friday night, August 17, at 8:30 in Hill Hall auditorium. Mr. Duckwall was called home to be with his mother, who is seriously ill. Miss Hare is a graduate assistant in the department of music.
 In addition to the Italian and German groups on the program, several short numbers for clarinet and piano will be played by Mr. Haydon, head of the department of music. Miss Adele Burnham and Mr. Gwynn McPeck complete the faculty group.

MEHR

(Continued from first page)
 graduating from the University of Alabama and serving on the faculty there for three years, he received his Ph.D. in business administration from the University of Pennsylvania. In the fall of 1943 he came to Carolina to serve as assistant professor of economics, which position he still holds.

ROSEN

(Continued from first page)
 opment of the atomic bomb.
 "In 1944, \$2,000,000 was given the Naval Laboratory to build a pilot plant at the Philadelphia Navy Yard which became the model for the atomic plant at Oak Ridge, Tenn.
 In September, 1942, the Navy had turned over its material and discoveries to the Army, but continued research on its own."

SPORT SPINS

(Continued from page three)
 return of big Hank Greenberg, and the club still has an able pitching staff, but the Senators are putting up a hard tussle and seem very likely to overtake the Tigers. In fact we are going to stick our neck out far enough to predict that the Washingtonians will take their first pennant since 1933.
 However, the Tigers, who won the pennant the last time in 1940 only to drop the series to the Cincinnati Reds, are a hot ball club and will be hard to push out of the league leadership. The Senators whipped the Tigs, 8-0, behind Dutch Leonard Wednesday in the first of a four-game series, cutting the lead of Detroit to two and a half games. The race is going strong, and anyone can win, but we're betting on Chicago and Washington to clash in the series come October... We'll be watching!

We would like to take this opportunity to congratulate the North Carolina tennis men who represented us in the closed tourney in Greensboro last weekend. They didn't win any titles, but they played hard, and deserve a lot of praise. Lt. Barney Welsh, winner of the men's singles crown last year, was caught by the no-double-winner jinx and was toppled in the finals by one Tom Chambers, a marine.

WOOLLEN GYM

(Continued from page three)
 take care of the locker rooms and equipment. Clean equipment is always available. Basketballs, handballs, and other necessary equipment are also furnished—all the way down to shuffleboard equipment and badminton racquets.
 Every possible aid to physical fitness is provided in Woollen gym and the facilities for wholesome recreation are unlimited. Sometimes students do not take advantage of this wonderful dream which came true only a few years ago in the form of Woollen. Carolina should indeed be proud of one of the most modern and complete physical education plants in the country.

STRALEY

(Continued from first page)
 fission (splitting) unless it is moving at a certain critical velocity. 4. The nucleus is very small compared with the rest of the atom. 5. And' all of the million billion billion atoms must be struck by a neutron at exactly the same instant.
 This is the secret process, in Dr. Straley's opinion, which a handful of American and British scientists have discovered, and it is the world's most closely-guarded secret—but for how long, who knows?
